

ING Life Insurance and Annuity Company and its Variable Annuity Accounts B and C
and
ING Insurance Company of America and its Variable Annuity Account I

Supplement dated April 29, 2005

This supplement amends certain information contained in the most recent variable annuity contract prospectus and contract prospectus summary, as applicable. Please read it carefully and keep it with your variable annuity contract prospectus and contract prospectus summary, as applicable, for future reference.

The "Regulatory Matters" sub-section of the prospectus and prospectus summary, as applicable, is hereby deleted and replaced with the following:

Regulatory Matters

As with many financial services companies, the Company and its affiliates have received informal and formal requests for information from various state and federal governmental agencies and self-regulatory organizations in connection with inquiries and investigations of the products and practices of the financial services industry. In each case, the Company and its affiliates have been and are providing full cooperation.

Fund Regulatory Issues

Since 2002, there has been increased governmental and regulatory activity relating to mutual funds and variable insurance products. This activity has primarily focused on inappropriate trading of fund shares, revenue sharing and directed brokerage, compensation, sales practices and suitability, arrangements with service providers, pricing, compliance and controls, and adequacy of disclosure.

In addition to responding to governmental and regulatory requests on fund regulatory issues, ING management, on its own initiative, conducted, through special counsel and a national accounting firm, an extensive internal review of mutual fund trading in ING insurance, retirement, and mutual fund products. The goal of this review was to identify any instances of inappropriate trading in those products by third parties or by ING investment professionals and other ING personnel.

The internal review identified several isolated arrangements allowing third parties to engage in frequent trading of mutual funds within the variable insurance and mutual fund products of certain affiliates of the Company, and identified other circumstances where frequent trading occurred despite measures taken by ING intended to combat market timing. Each of the arrangements has been terminated and disclosed to regulators, to the independent trustees of ING Funds (U.S.) and in Company reports previously filed with the SEC pursuant to the Securities Exchange Act of 1934, as amended.

An affiliate of the Company, ING Funds Distributors, LLC ("IFD") has received notice from the staff of the National Association of Securities Dealers ("NASD") that the staff has made a preliminary determination to recommend that disciplinary action be brought against IFD and one of its registered persons for violations of the NASD Conduct Rules and federal securities laws in connection with frequent trading arrangements.

Other regulators, including the Securities and Exchange Commission ("SEC") and the New York Attorney General, are also likely to take some action with respect to certain ING affiliates before concluding their investigation of ING relating to fund trading. The potential outcome of such action is difficult to predict but could subject certain affiliates to adverse consequences, including, but not limited to, settlement payments, penalties, and other financial liability. It is not currently anticipated, however, that the actual outcome of such action will have a material adverse effect on ING or ING's U.S.-based operations, including the Company.

ING has agreed to indemnify and hold harmless the ING Funds from all damages resulting from wrongful conduct by ING or its employees or from ING's internal investigation, any investigations conducted by any governmental or self-regulatory agencies, litigation or other formal proceedings, including any proceedings by the SEC. Management reported to the ING Funds Board that ING management believes that the total amount of any indemnification obligations will not be material to ING or ING's U.S.-based operations, including the Company.

Other Regulatory Matters

The New York Attorney General and other regulators are also conducting broad inquiries and investigations involving the insurance industry. These initiatives currently focus on, among other things, compensation and other sales incentives, potential conflicts of interest, potential anti-competitive activity, marketing practices, certain financial reinsurance arrangements, and disclosure. It is likely that the scope of these investigations will further broaden before the investigations are concluded. U.S. affiliates of ING have received formal and informal requests in connection with such investigations, and are cooperating fully with each request for information.

These initiatives may result in new legislation and regulation that could significantly affect the financial services industry, including businesses in which the Company is engaged.

In light of these and other developments, U.S. affiliates of ING, including the Company, periodically review whether modifications to their business practices are appropriate.

Contract Prospectus - April 29, 2005

The Contracts. The contracts described in this prospectus are individual, deferred, fixed and variable annuity contracts issued by ING Life Insurance and Annuity Company (the Company, we, us, our). They are issued to you, the contract holder as either a traditional Individual Retirement Annuity (IRA) under section 408(b) of the Internal Revenue Code of 1986 as amended (Tax Code) or a Roth IRA under Tax Code section 408A. Additionally, the traditional IRA may be used as a funding option for a Simplified Employee Pension (SEP) plan under Tax Code section 408(k). The contracts are not currently available as a Simple IRA under Tax Code section 408(p).

Why Reading this Prospectus is Important. This prospectus contains facts about the contract and its investment options that you should know before purchasing. This information will help you decide if the contract is right for you. Please read this prospectus carefully and keep it for future reference.

Table of Contents ...page 3

Investment Options. The contract offers variable investment options and fixed interest options. When we establish your account you instruct us to direct account dollars to any of the available options.

- 1 This fund has changed its name to the name listed above. See Appendix V - Description of Underlying Funds for a complete list of former and current fund names.
- 2 Goldman Sachs® is a registered service mark of Goldman, Sachs & Co., and it is used by agreement with Goldman, Sachs & Co.
- 3 These portfolios are structured as fund of funds that invest directly in shares of underlying funds. See "Fees - Fund Fees and Expenses" for additional information.

Contract Prospectus - April 29, 2005 (continued)

Variable Investment Options. These options are called subaccounts. The subaccounts are within Variable Annuity Account C (the separate account), a separate account of the Company. Each subaccount invests in one of the mutual funds (funds) listed on this page. Earnings on amounts invested in a subaccount will vary depending upon the performance of its underlying fund. You do not invest directly in or hold shares of the funds.

Risks Associated With Investing in the Funds. The funds in which the subaccounts invest have various risks. Information about the risks of investing in the funds is located in the "Investment Options" section on page 14, Appendix V - Description of Underlying Funds, and each fund prospectus. Read this prospectus in conjunction with the fund prospectuses and retain the prospectuses for future reference.

Fixed Interest Options.

- Guaranteed Interest Account (1992 and 1994 contracts only)
- Fixed Account
- Guaranteed Accumulation Account (2004 contracts only, where available)

Except as specifically mentioned, this prospectus describes only the variable investment options. However, we describe the fixed interest options in appendices to this prospectus. There is also a separate Guaranteed Accumulation Account prospectus.

Availability of Options. Some funds or fixed interest options may be unavailable through your contract or in your state.

Getting Additional Information. You may obtain the April 29, 2005 Statement of Additional Information (SAI) by indicating your request on your application or calling the Company at 1-800-262-3862 or writing to us at the address referenced under "Contract Overview - Questions: Contacting the Company" section of the prospectus. You may also obtain an SAI for any of the funds by calling that number. This prospectus, the SAI and other information about the separate account may be obtained by accessing the Securities and Exchange Commission's (SEC) website, www.sec.gov. Copies of this information may also be obtained, after paying a duplicating fee, by contacting the SEC Public Reference Room. Information on the operation of the Public Reference Room may be obtained by calling 1-202-942-8090 or 1-800-SEC-0330, e-mailing publicinfo@sec.gov or by writing to SEC Public Reference Room, 450 Fifth Street, N.W., Washington, DC 20549. The SAI table of contents is listed on page 49 of this prospectus. The SAI is incorporated into this prospectus by reference.

Additional Disclosure Information. Neither the SEC nor any state securities commission has approved or disapproved the securities offered through this prospectus or passed on the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense. This prospectus is valid only when accompanied by the Guaranteed Accumulation Account prospectus, if applicable. We do not intend for this prospectus to be an offer to sell or a solicitation of an offer to buy these securities in any state that does not permit their sale. We have not authorized anyone to provide you with information that is different from that contained in this prospectus.

Questions: Contacting the Company. To answer your questions, contact your sales representative or write or call our Home Office at:

ING USFS Customer Service
Central Rollover Unit, TN21
151 Farmington Avenue
Hartford, CT 06156-1258
1-800-262-3862

Sending Forms and Written Requests in Good Order.

If you are writing to change your beneficiary, request a withdrawal, or for any other purpose, contact us or your sales representative to learn what information is required in order for the request to be in "good order."

Generally, a request is considered to be in "good order" when it is signed, dated and made with such clarity and completeness that we are not required to exercise any discretion in carrying it out.

We can only act upon written requests that are received in good order.

Contract Overview

The following is intended as a summary. Please read each section of this prospectus for additional information.

Contract Design

The contracts described in this prospectus are individual, deferred, fixed and variable annuity contracts. They are intended to be retirement savings vehicles that offer a variety of investment options to help meet long-term financial goals.

2004 Contracts, 1994 Contracts and 1992 Contracts

Throughout the prospectus we refer to 2004 contracts, 1994 contracts and 1992 contracts.

2004 Contracts. We began selling these contracts in April, 2004 (subject to regulatory approval) and we are currently selling these contracts. You have a 2004 contract if your contract form number, located at the bottom left corner of each page of your contract begins with IRA-CDA-03.

1994 Contracts. We began selling these contracts in 1994 and we are currently selling these contracts in states where approval of the 2004 contract is pending. You have a 1994 contract if your contract form number, located on the bottom left corner of each page of your contract, begins with the letters IRA-CDA-IC. In some cases the form number will appear as IRA-CDA-93, IRA-CDA-97, IRA-CDA-98.

1992 Contracts. We began selling these contracts in 1992 and stopped sale of them during 1994. You have a 1992 contract if your contract form number, located on the bottom left corner of each page of your contract, begins with the letters IP-CDA-IB.

Contract Facts

Free Look/Right to Cancel. You may cancel your contract within ten days (some states require more than ten days) of receipt. See "Right to Cancel."

Death Benefit. Your beneficiary may receive a financial benefit in the event of your death during both the accumulation and income phases. The availability of a death benefit during the income phase depends upon the income phase payment option selected. See "Death Benefit" and "The Income Phase."

Withdrawals. During the accumulation phase, you may withdraw all or part of your account value. Certain fees, taxes and early withdrawal penalties may apply. See "Withdrawals" and "Taxation." Amounts withdrawn from the Guaranteed Accumulation Account may be subject to a market value adjustment. See Appendix III.

Systematic Distribution Options. These are made available for you to receive periodic withdrawals from your account, while retaining the account in the accumulation phase. See "Systematic Distribution Options."

Fees. Certain fees are deducted from your account value. See "Fee Table" and "Fees."

Taxation. You will generally not pay taxes on any earnings from the annuity contracts described in this prospectus until they are withdrawn. Tax-qualified retirement arrangements (e.g., traditional IRAs) also defer payment of taxes on earnings until they are withdrawn, or provide for tax-free withdrawals of earnings subject to certain restrictions (e.g., Roth IRAs). Because you are considering an annuity for your IRA, you should know that the annuity contract does not provide any additional tax deferral of earnings beyond the tax deferral provided by other types of IRAs. However, annuities do provide other features and benefits which may be valuable to you. You should discuss your decision with your financial representative. Taxes will generally be due when you receive a distribution. Tax penalties may apply in some circumstances. See "Taxation."

Contract Phases

I. The Accumulation Phase (accumulating dollars under your contract)

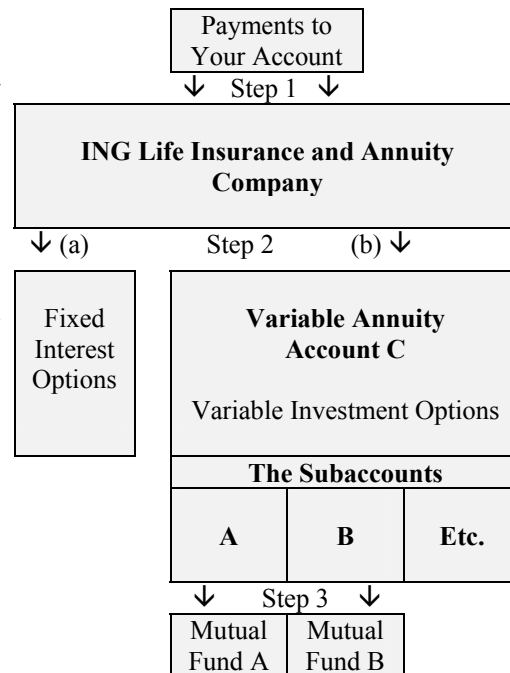

STEP 1: You provide us with your completed application and initial purchase payment. We establish an account for you and credit that account with your initial purchase payment.

STEP 2: You direct us to invest your purchase payment in one or more of the following investment options:

(a) Fixed Interest Options; or

(b) Variable Investment Options (The variable investment options are the subaccounts of Variable Annuity Account C. Each one invests in a specific mutual fund.)

STEP 3: Each subaccount you select purchases shares of its corresponding fund.

II. The Income Phase (receiving income phase payments from your contract)

When you want to begin receiving payments from your contract, you may select from the options available. The contract offers several income phase payment options (see "The Income Phase"). In general, you may:

- ▷ Receive income phase payments for a specified period of time or for life;
- ▷ Receive income phase payments monthly, quarterly, semi-annually or annually;
- ▷ Select an income phase option that provides for payments to your beneficiary; and
- ▷ Select income phase payments that are fixed or vary based on the performance of the variable investment options you select.

Fee Table

In this Section:

- ▷ Maximum Contract Holder Transaction Expenses
- ▷ Annual Maintenance Fee
- ▷ Maximum Separate Account Annual Expenses
- ▷ Total Annual Fund Operating Expenses
- ▷ Fees Deducted by the Funds
- ▷ Hypothetical Examples

Also see the "Fees" section for:

- ▷ How, When and Why Fees are Deducted
- ▷ Reduction, Waiver and/or Elimination of Certain Fees
- ▷ Redemption Fees
- ▷ Premium and Other Taxes
- ▷ ING GET Fund Guarantee Charge

Also see "The Income Phase" Section for:

- ▷ Fees During the Income Phase

The following tables describe the fees and expenses that you will pay when buying, owning, and withdrawing from your contract. The first table describes the fees and expenses that you will pay at the time that you buy the contract, withdraw from the contract, or transfer cash value between investment options. State premium taxes may also be deducted. See "The Income Phase" for fees that may apply after you begin receiving payments under the contract.

Maximum Contract Holder Transaction Expenses

Early Withdrawal Charge¹ (as a percentage of amount withdrawn)

Applicable to contracts issued with:

Early Withdrawal Schedule A	1%
Early Withdrawal Schedule B	5%
Early Withdrawal Schedule C	6%

Transfer Charges \$0.00 - \$10.00²

¹ This is a deferred sales charge. See "Fees - Early Withdrawal Charge" for a description of which early withdrawal charge schedule applies to each contract. The early withdrawal charge reduces over time. The total early withdrawal charge deducted will not exceed 8.5% of the total purchase payments made to the contract. These fees may be waived in certain circumstances. See the "Fees" section.

² During the accumulation phase, we allow you twelve free transfers among investment options each calendar year. We reserve the right to charge \$10 for each additional transfer. We currently do not impose this charge. See "Transfers Among Investment Options."

The next table describes the fees and expenses that you will pay periodically during the time that you own the contract, not including fund fees and expenses.

Annual Maintenance Fee \$25.00³

Maximum Separate Account Annual Expenses (as a percentage of average account value)

Mortality and Expense Risk Charge	1.25% ⁴
Administrative Expense Charge	0.00% - 0.25% ⁵
ING GET Fund Guarantee Charge	<u>0.25%⁶</u>
Total Separate Account Annual Expenses	<u>1.50% - 1.75%</u>

³ The annual maintenance fee may be waived if your account value is \$10,000 or greater on the day before the maintenance fee is deducted. Additionally, for 1992 contracts, if the initial purchase payment was \$10,000 or greater, the annual maintenance fee is \$0. See "Fees - Annual Maintenance Fee."

⁴ This illustrates the maximum mortality and expense risk charge that may be deducted under the contracts. For 2004 and 1994 contracts, which we currently sell, this charge may be reduced to 1.15% under certain circumstances. See "Fees - Mortality and Expense Risk Charge."

⁵ We currently do not impose this charge. However, if allowed by your contract, we reserve the right to charge up to 0.25% annually. See "Fees - Administrative Expense Charge."

⁶ The ING GET Fund Guarantee Charge is deducted daily during the guarantee period only from amounts allocated to the ING GET U.S. Core Portfolio investment option. See "Investment Options-ING GET U.S. Core Portfolio" and "Fees-ING GET U.S. Core Portfolio Guarantee Charge" for a description of the ING GET Fund guarantee charge.

The next item shows the minimum and maximum total operating expenses charged by the funds that you may pay periodically during the time that you own the contract without taking into account any fee waiver or expense reimbursement arrangements that may apply. The minimum and maximum expenses listed below are based on expenses for the funds' most recent fiscal year ends. More detail concerning each fund's fees and expenses is contained in the prospectus for each fund.

Total Annual Fund Operating Expenses*	Minimum	Maximum
(expenses that are deducted from fund assets, including management fees, distribution (12b-1) and/or service fees, and other expenses)	0.34%	1.65%

* After taking into account any fee waiver or expense reimbursement arrangements, the minimum and maximum total fund operating expenses would be 0.34% and 1.55%, respectively. The fund having the minimum expense percentage is not subject to any contractual fee waiver or expense reimbursement arrangements. The fund having the maximum expense percentage is subject to a contractual fee waiver/expense reimbursement arrangement through May 1, 2006.

Fees Deducted by the Funds

Using this Information. The following table shows the investment advisory fees, 12b-1 fees and other expenses including service fees (if applicable) charged annually by each fund. See the "Fees" section of this prospectus and the fund prospectuses for additional information.

How Fees are Deducted. Fees are deducted from the value of the fund shares on a daily basis, which in turn affects the value of each subaccount that purchases fund shares. The fees and expense information shown in the following table was provided by the funds. The column labeled "Fees and Expenses Waived or Reimbursed" shows only contractual waivers or reimbursements that continue through at least May 1, 2006. Except as noted below, the following figures are a percentage of the average net assets of each fund, and are based on figures for the year ended December 31, 2004. There is no guarantee that actual expenses will be the same as those shown in the table.

Fund Expense Table⁽¹⁾⁽²⁾

Fund Name	Management (Advisory) Fees	12b-1 Fee	Other Expenses	Total Annual Fund Operating Expenses	Fees and Expenses Waived or Reimbursed	Net Annual Fund Operating Expenses

Footnotes to "Fund Expense Table"

- (1) The Company may receive compensation from each of the funds or the funds' affiliates based on an annual percentage of the average net assets held in that fund by the Company. The percentage paid may vary from one fund company to another. For certain funds, some of this compensation may be paid out of 12b-1 fees or service fees that are deducted from fund assets. Any such fees deducted from fund assets are disclosed in this Fund Expense Table and the fund prospectuses. The Company may also receive additional compensation from certain funds for administrative, recordkeeping or other services provided by the Company to the funds or the funds' affiliates. These additional payments may also be used by the company to finance distribution. These additional payments are made by the funds or the funds' affiliates to the Company and do not increase, directly or indirectly, the fees and expenses shown above. See "Fees - Fund Fees and Expenses" for additional information.
- (2) In the case of fund companies affiliated with the Company, where the Company or an affiliated investment adviser employs subadvisers to manage the funds, no payments are made to the Company or the affiliated investment adviser by the subadvisers. Subadvisers may provide reimbursement for employees of the Company or its affiliates to attend business meetings or training conferences. The investment management fee shown in the fee table is apportioned between the Company or other affiliated investment adviser and subadviser. This apportionment varies by subadviser, resulting in varying amounts of revenue retained by the investment adviser, including the Company. This apportionment of the investment advisory fee does not increase, directly or indirectly, the fees and expenses shown above. See "Fees - Fund Fees and Expenses" for additional information.
- (3) The Fund's advisor has contractually agreed to waive advisory fees and/or reimburse expenses of Series I shares to the extent necessary to limit Total Annual Fund Operating Expenses (excluding certain items as discussed in the fund's prospectus) of Series I shares to 1.30% of average daily net assets for each series portfolio of AIM Variable Insurance Funds. The expense limitation agreements are in effect through April 30, 2006. Please refer to the fund's prospectus for more detailed information.
- (4) Expense information has been restated to reflect a reduction in management fees effective September 7, 2004.
- (5) Expenses are based on expenses for the Portfolio's most recent fiscal year ended December 31, 2004. Management fees include the Subadvisory fees paid by the Advisor ("Calvert"), to the Subadvisors, and the administrative fee paid by the Portfolio to Calvert Administrative Services Company, an affiliate of Calvert.
- (6) While the maximum amount payable under the Fund's class rule 12b-1 plan is 0.35% per year of the Fund's class average annual net assets, the Board has set the current rate at 0.25% per year.
- (7) The manager had agreed in advance to reduce its fee to reflect reduced services resulting from the fund's investment in a Franklin Templeton money fund. This reduction is required by the fund's Board of Trustees and an exemptive order by the SEC. The Fund's fiscal year end is April 30.
- (8) Other Expenses include a Shareholder Services fee of 0.25%.
- (9) Effective December 1, 2004, Management (Advisory) Fees were restated to reflect a decrease as follows: from 0.80% to 0.64% for ING American Century Select Portfolio; from 0.70% to 0.64% for ING Salomon Brothers Large Cap Growth Portfolio; from 0.85% to 0.64% for ING T. Rowe Price Diversified Mid Cap Growth Portfolio; and from 0.85% to 0.55% for ING Van Kampen Equity and Income Portfolio. Effective December 1, 2004, the administrative fees (included in Other Expenses) were restated to reflect an increase/decrease as follows: from 0.20% to 0.02% for ING American Century Select Portfolio, ING T. Rowe Price Diversified Mid Cap Growth Portfolio and ING Van Kampen Equity and Income Portfolio; from 0.60% to 0.06% for ING Oppenheimer Global Portfolio, and from 0.20% to 0.23% for ING Salomon Brothers Large Cap Growth Portfolio.
- (10) Other Expenses include a Shareholder Services fee of 0.25%. The Administrator of the Fund has contractually agreed to waive all or a portion of its administrative services fees and/or reimburse administrative expenses for ING American Century Small Cap Value, ING Baron Small Cap Growth, and ING Van Kampen Comstock Portfolios so that the Net Annual Fund Operating Expenses for these Portfolios shall not exceed 1.55%, 1.45%, and 1.13%, respectively, through May 1, 2006. Without this waiver, the Net Annual Fund Operating Expenses would be 1.65% for ING American Century Small Cap Value, 1.50% for ING Baron Small Cap Growth and 1.20% for ING Van Kampen Comstock Portfolios.
- (11) Investments are accepted into the ING GET U.S. Core Portfolio only during the Offering Period. See Appendix IV in the contract prospectus for a listing of Offering and Guarantee Periods for projected ING GET U.S. Core Portfolio offerings.
- (12) The amounts shown are the estimated operating expenses during the Guarantee Period for the Series as a ratio of expenses to average daily net assets. Expenses during the Offering Period are: Management (Advisory) Fees of 0.25%; 12b-1 Fee of 0.25%; Other Expenses of 0.15%; Total Annual Fund Operating Expenses of 0.65% and Net Annual Fund Operating Expenses of 0.65%. Pursuant to a Distribution Plan adopted by the Series under Rule 12b-1 under the 1940 Act, the Series pays ING Funds Distributor, LLC (the "Distributor") an annual fee of up to 0.25% of average daily net assets attributable to the Series' shares. The distribution fee may be used by the Distributor for the purpose of promoting the sale of the Series' shares and providing certain related services. For additional information, please see the Series' SAI.

- (13) ING Investments, LLC, the investment adviser to the Series, has entered into an expense limitation contract with the Series under which it will limit expenses of the Series, excluding expenses such as interest, taxes, brokerage and extraordinary expenses, through December 31, 2006. The expense limit for the Series is shown as Net Annual Fund Operating Expenses in the table above. For further information regarding the expense limitation agreements, see the Fund's prospectus.
- (14) The amounts shown are estimated operating expenses for Class S shares of each Portfolio as a ratio of expenses to average daily net assets based on each Portfolio's actual operating expenses for Class S shares for its most recently completed fiscal year, as adjusted for contractual changes, if any, and fee waivers to which Directed Services, Inc. (DSI) as adviser to each Portfolio, has agreed for each Portfolio for the current fiscal year. Other Expenses for each Portfolio include a Shareholder Services fee of 0.25%. Through a "bundled fee" arrangement, DSI, the Trust's manager, is paid a single fee for advisory, administrative, custodial, transfer agency, auditing and legal services necessary for the ordinary operation of the Portfolios. The Portfolios would also bear any extraordinary expenses.
- (15) A portion of the brokerage commissions that ING MFS Total Return and ING T. Rowe Price Equity Income Portfolios pay is used to reduce each Portfolio's expenses. Including these reductions and the MFS Voluntary Management fee waiver the Total Annual Fund Operating Expenses for each Portfolio for the year ended December 31, 2004 would have been 0.88% and 0.91%, respectively. This arrangement may be discontinued at any time.
- (16) Based on estimated expenses for the current fiscal year.
- (17) The Portfolio is structured as a fund of funds, and invests directly in shares of underlying funds. See "Fees – Fund Expenses" for additional information. The table reflects net operating expenses paid directly and indirectly by each Portfolio. Other Expenses include a Shareholder Services fee of 0.25%. Shareholders of a Portfolio will indirectly bear the expenses of an Underlying Fund based upon the percentage of a Portfolio's assets that is allocated to the Underlying Fund. Because the annual net operating expenses of each Underlying Fund, and a Portfolio's allocation to that Underlying Fund, will vary from year to year, the expenses paid by a Portfolio may vary from year to year. These expense ratios are estimates based on the target allocations among the Underlying Funds based upon information in the fee tables of their prospectuses, which in turn, are based on financial results for the year ended December 31, 2004. For information regarding expenses of the Underlying Funds, see the Fund's prospectus. Other Expenses are estimated for each Portfolio's current fiscal year. Operating expenses are shown without allocations to the Fixed Account. Estimated net operating expenses for the Service Class shares including allocations to the Fixed Account would be 0.83% for ING Solution Income Portfolio; 0.96% for ING Solution 2015 Portfolio; 1.06% for ING Solution 2025 Portfolio; 1.14% for ING Solution 2035 Portfolio; and 1.17% for ING Solution 2045.
- (18) The Fund's adviser has entered into a written expense limitation agreement with respect to each Portfolio under which it will limit expenses of the Solutions Portfolios, excluding interest, taxes, brokerage and extraordinary expenses, subject to possible recoupment by the Fund's adviser within three years. The amount of each Portfolio's expenses that are proposed to be waived or reimbursed in the ensuing fiscal year is shown under the heading Fees and Expenses Waived or Reimbursed. The expense limitation agreement will continue through at least May 1, 2006. For further information regarding the expense limitation agreements, see the Fund's prospectus.
- (19) The amounts shown are estimated operating expenses for Class I shares of each Portfolio as a ratio of expenses to average daily net assets. These estimates are based on each Portfolio's actual operating expenses for its most recently completed fiscal year, adjusted for contractual changes, if any, and fee waivers to which ING Investments, LLC, the investment adviser to each Portfolio, has agreed for each Portfolio. ING Funds Services, LLC receives an annual administrative fee (included in Other Expenses) equal to 0.055% on the first \$5 billion of daily net assets and 0.03% thereafter.
- (20) The amounts shown are the estimated operating expenses for Class I shares of each Portfolio as a ratio of expenses to average daily net assets. With the exception of ING VP Financial Services Portfolio and ING VP Real Estate Portfolio, these estimates are based on each Portfolio's actual operating expenses for its most recently completed fiscal year, as adjusted for contractual changes, if any, and fee waivers to which ING Investments, LLC, the investment adviser to each Portfolio, has agreed for each Portfolio for the current fiscal year. For ING VP Financial Services Portfolio and ING VP Real Estate Portfolio, which have not had a full year of operations, as of December 31, 2004, expenses are based on estimated amounts for the current fiscal year.
- (21) ING Funds Services, LLC receives an annual administration fee (included in Other Expenses) equal to 0.10% of each Portfolio's average daily net assets. ING Investments, LLC has entered into a written expense limitation agreement with ING Variable Products Trust under which it will limit expenses of the Portfolios, excluding interest, taxes, brokerage and extraordinary expenses, subject to possible recoupment by ING Investments, LLC within three years. The amount of each Portfolio's expenses waived, reimbursed or recouped during the last fiscal year by ING Investments, LLC is shown under the heading Fees and Expenses Waived or Reimbursed. The amount of expenses proposed to be waived during the current fiscal year by ING Investments, LLC for ING VP Financial Services Portfolio and ING VP Real Estate Portfolio, are shown under the heading Fees and Expenses Waived or Reimbursed. For each Portfolio, the expense limits will continue through at least May 1, 2006. For further information regarding the expense limitation agreements, see the Fund's prospectus.

- (22) ING Investments, LLC, the investment adviser to each Portfolio, has entered into written expense limitation agreements with each Portfolio under which it will limit expenses of the Portfolios, excluding interest, brokerage and extraordinary expenses, subject to possible recoupment by ING Investments, LLC within three years. The amount of each Portfolio's expenses waived, reimbursed or recouped during the last fiscal year is shown under the heading Fees and Expenses Waived or Reimbursed. Recoupments are shown as negative numbers under Fees and Expenses Waived or Reimbursed. The expense limits will continue through at least May 1, 2006. For further information regarding the expense limitation agreements, see the Fund's prospectus.
- (23) Other Expenses reflect an administrative fee of 0.10% and a service fee of 0.15%. PIMCO has contractually agreed, for the Portfolio's current fiscal year (12/31), to reduce total annual portfolio operating expenses for the Administrative Class shares to the extent they would exceed, due to the payment of Trustees' fees, 0.65% of average daily net assets. Under the Expense Limitation Agreement, which renews annually unless terminated by PIMCO upon 30 days' notice, PIMCO may recoup these waivers and reimbursements in future periods, not exceeding three years, provided total expenses, including such recoupment, do not exceed the annual expense limit.
- (24) Management fees have been restated to reflect contractual changes to the management fee for the Fund as of February 10, 2005. Previously, the Adviser had waived a portion of its fees so that those fees were retained at the following rate: 0.85%. The fee waiver was effective as of February 10, 2005 but applied as if it had gone into effect on December 1, 2004. If the fee waiver had not been implemented as noted above, actual expenses of the Fund would be as follows: management fee, 0.95%; other expenses, 0.15%; and total operating expenses, 1.10%.
- (25) The Adviser has undertaken to limit Wanger Select's annual expenses to 1.35% of its average net assets. This expense limitation is contractual and will terminate on April 30, 2006.
- (26) Management fees have been restated to reflect contractual changes to the management fee for the Fund as of February 10, 2005. Previously, the Adviser had waived a portion of its fees so that those fees were retained at the following rates: 0.99% of net assets up to \$100 million; 0.94% of the next \$150 million; and 0.89% of net assets in excess of \$250 million. The fee waiver was effective as of February 10, 2005 but applied as if it had gone into effect on December 1, 2004. If the fee waiver had not been implemented as noted above, actual expenses of the Fund would be as follows: management fee, 0.92%; other expenses, 0.08%; and total operating expenses, 1.00%.

Hypothetical Examples

The following Examples are intended to help you compare the cost of investing in the contract with the cost of investing in other variable annuity contracts. These costs include contract holder transaction expenses, contract fees, separate account annual expenses including the annual maintenance fee of \$25 (converted to a percentage of assets equal to 0.098%), and fund fees and expenses.

Example 1: The following Examples assume that you invest \$10,000 in the contract for the time periods indicated. The Examples also assume that your investment has a 5% return each year and assume the **maximum** fees and expenses of any of the funds as listed in the "Total Annual Fund Operating Expenses" column in the Fund Expense Table above. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

	(A) If you withdraw your entire account value at the end of the applicable time period:				(B) If you do not withdraw your entire account value or if you select an income phase payment option at the end of the applicable time period*:			
	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Based on Early Withdrawal Schedule A	\$328	\$1,000	\$1,697	\$3,547	\$328	\$1,000	\$1,697	\$3,547
Based on Early Withdrawal Schedule B	\$836	\$1,527	\$2,133	\$3,547	\$328	\$1,000	\$1,697	\$3,547
Based on Early Withdrawal Schedule C	\$938	\$1,422	\$1,915	\$3,547	\$328	\$1,000	\$1,697	\$3,547

Example 2: The following Examples assume that you invest \$10,000 in the contract for the time periods indicated. The Examples also assume that your investment has a 5% return each year and assume the **minimum** fees and expenses of any of the funds as listed in the "Total Annual Fund Operating Expenses" column in the Fund Expense Table above. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

	(A) If you withdraw your entire account value at the end of the applicable time period:				(B) If you do not withdraw your entire account value or if you select an income phase payment option at the end of the applicable time period*:			
	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Based on Early Withdrawal Schedule A	\$197	\$608	\$1,046	\$2,262	\$197	\$608	\$1,046	\$2,262
Based on Early Withdrawal Schedule B	\$712	\$1,156	\$1,511	\$2,262	\$197	\$608	\$1,046	\$2,262
Based on Early Withdrawal Schedule C	\$815	\$1,046	\$1,278	\$2,262	\$197	\$608	\$1,046	\$2,262

* Example B will not apply during the income phase if you select a nonlifetime income phase payment option with variable payments and take a lump-sum withdrawal within five years after you begin receiving payments (or within three years for 1992 contracts). In these circumstances, the lump-sum payment is treated as a withdrawal during the accumulation phase and may be subject to an early withdrawal charge. Refer to Example A.

Condensed Financial Information

Understanding Condensed Financial Information. In Appendix VI of this prospectus, we provide condensed financial information about the Variable Annuity Account C (the separate account) subaccounts you may invest in through the contract. The numbers show the year-end unit values of each subaccount over the past ten years. For subaccounts that were not available ten years ago, we give a history from the date of first availability.

Investment Options

The contract offers variable investment options and fixed interest options.

Variable Investment Options. These options are called subaccounts. The subaccounts are within Variable Annuity Account C, a separate account of the Company. Each subaccount invests in a specific mutual fund. You do not invest directly in or hold shares in the funds.

- ▷ **Mutual Fund (fund) Descriptions.** We provide brief descriptions of the funds in Appendix V. Investment results of the funds are likely to differ significantly and there is no assurance that any of the funds will achieve their respective investment objectives. Shares of the funds will rise and fall in value and you could lose money by investing in the funds. Shares of the funds are not bank deposits and are not guaranteed, endorsed or insured by any financial institution, the Federal Deposit Insurance Corporation or any other government agency. Unless otherwise noted, all funds are diversified as defined under the Investment Company Act of 1940. Please refer to the fund prospectuses for additional information. Fund prospectuses may be obtained free of charge at the address and telephone number listed in "Contract Overview-Questions: Contacting the Company," by accessing the SEC's web site or by contacting the SEC Public Reference Room.

Fixed Interest Options. For descriptions of the fixed interest options, see Appendices I, II and III and the Guaranteed Accumulation Account prospectus.

ING GET U.S. Core Portfolio. An ING GET U.S. Core Portfolio ("ING GET Fund") series may be available during the accumulation phase of the contract. We make a guarantee, as described below, when you allocate money into an ING GET Fund series. Each ING GET Fund series has an offering period of three months which precedes the guarantee period. The ING GET Fund investment option may not be available under your contract, under your plan, or in your state.

Various series of the ING GET Fund may be offered from time to time and additional charges will apply if you elect to invest in one of these series. Please see Appendix IV for a projected schedule of ING GET Fund series offerings. The Company makes a guarantee when you direct money into an ING GET Fund series. We guarantee that the value of an accumulation unit of the ING GET Fund subaccount for that series under the Contract on the maturity date will not be less than its value as determined after the close of business on the last day of the offering period for that ING GET Fund series. If the value on the maturity date is lower than it was on the last day of the offering period, we will add funds to the ING GET Fund subaccount for that series to make up the difference. This means that if you remain invested in the ING GET Fund series until the maturity date, at the maturity date, you will receive no less than the

value of your separate account investment directed to the ING GET Fund series as of the last day of the offering period, less charges not reflected in the accumulation unit value such as the maintenance fee and less any amounts you transfer or withdraw from the ING GET Fund subaccount for that series. The value of dividends and distributions made by the ING GET Fund series throughout the guarantee period is taken into account in determining whether, for purposes of the guarantee, the value of your ING GET Fund investment on the maturity date is no less than its value as of the last day of the offering period. If you withdraw or transfer funds from an ING GET Fund series prior to the maturity date, we will process the transactions at the actual unit value next determined after we receive your request. The ING GET Fund subaccount is not available for dollar cost averaging, automatic rebalancing, or for income phase payments.

Before the maturity date, we will send a notice to each participant who has allocated amounts to the ING GET Fund series. This notice will remind you that the maturity date is approaching and that you must choose other investment options for your ING GET Fund series amounts. If you do not make a choice, on the maturity date we will transfer your ING GET Fund series amounts to another available series of the ING GET Fund that is then accepting deposits under your contract or plan. If no ING GET Fund is then available under your contract or plan, we will transfer your ING GET Fund series amounts to a balanced fund advised by ING Investments, LLC (or another adviser affiliated with the Company) available under the contract that has the best 5-year standardized performance. If there are no such balanced funds available under the contract, we will transfer your ING GET Fund series amounts to a core U.S. equity fund advised by ING Investments, LLC (or another adviser affiliated with the Company) available under the contract that has the best 5-year standardized performance. All amounts not transferred to a new ING GET Fund series, as outlined above, will be subject to market risk including the possible loss of principal.

Please see the ING GET U.S. Core Portfolio prospectus for a complete description of the ING GET Fund investment option, including charges and expenses.

Selecting Investment Options

- **Choose options appropriate for you.** Your sales representative can help you evaluate which investment options may be appropriate for your financial goals.
- **Understand the risks associated with the options you choose.** Some subaccounts invest in funds that are considered riskier than others. Funds with additional risks are expected to have values that rise and fall more rapidly and to a greater degree than other funds. For example, funds investing in foreign or international securities are subject to risks not associated with domestic investments, and their investment performance may vary accordingly. Also, funds using derivatives in their investment strategy may be subject to additional risks.
- **Be informed.** Read this prospectus, the fund prospectuses, the Guaranteed Interest Account, Fixed Account and Guaranteed Accumulation Account appendices and the Guaranteed Accumulation Account prospectus.

Limits on Availability of Options. Some funds or fixed interest options may be unavailable through your contract or in your state. We may add, withdraw or substitute funds, subject to the conditions in your contract and compliance with regulatory requirements. In the case of a substitution, the new fund may have different fees and charges than the fund it replaced.

Limits on How Many Investment Options You May Select. You may select no more than 18 investment options during the accumulation phase. Each subaccount, the Fixed Account, and each classification of the Guaranteed Interest Account and Guaranteed Accumulation Account that you select is considered an investment option, even if you no longer have amounts allocated to it. For 2004 and 1994 contracts, you may select no more than ten investment options at any one time.

Limits Imposed by Underlying Funds. Orders for the purchase of fund shares may be subject to acceptance or rejection by the underlying fund. We reserve the right to reject, without prior notice, any allocation of a purchase payment to a subaccount if the subaccount's investment in its corresponding fund is not accepted by the fund for any reason.

Additional Risks of Investing in the Funds (*Mixed and Shared Funding*)

"Mixed funding" occurs when shares of a fund, which the subaccounts buy for variable annuity contracts, are bought for variable life insurance contracts issued by us or other insurance companies.

"Shared funding" occurs when shares of a fund, which the subaccounts buy for variable annuity contracts, are also bought by other insurance companies for their variable annuity contracts.

- ▷ Mixed-bought for annuities and life insurance.
- ▷ Shared-bought by more than one company.

It is possible that a conflict of interest may arise due to mixed and/or shared funding, which could adversely impact the value of a fund. For example, if a conflict of interest occurred and one of the subaccounts withdrew its investment in a fund, the fund may be forced to sell its securities at disadvantageous prices, causing its share value to decrease. Each fund's Board of Directors or Trustees will monitor events to identify any conflicts which may arise and to determine what action, if any, should be taken to address such conflicts.

Transfers Among Investment Options

During the accumulation phase, you may transfer amounts among the available subaccounts. We allow you 12 free transfers each calendar year. We reserve the right to charge \$10.00 for each additional transfer. We currently do not impose this charge. Transfers to an ING GET Fund series may only be made during the offering period for that ING GET Fund series.

Transfers from fixed interest options are restricted as outlined in Appendices I, II and III. Transfers must be made in accordance with the terms of the contract. You may not make transfers once you enter the income phase. See "The Income Phase."

Transfer Requests. Requests may be made in writing, by telephone or, where applicable, electronically.

Limits on Frequent or Disruptive Transfers. The contract is not designed to serve as a vehicle for frequent trading. Frequent trading can disrupt management of a fund and raise its expenses through: 1) increased trading and transaction costs; 2) forced and unplanned portfolio turnover; 3) lost opportunity costs; and 4) large asset swings that decrease the fund's ability to provide maximum investment return to all contract holders. This in turn can have an adverse effect on fund performance. Accordingly, individuals or organizations that use market-timing investment strategies and make frequent transfers should not purchase the contract.

We monitor transfer activity. With regard to frequent transfers, in the event that an individual's or organization's transfer activity:

- 1) exceeds our then-current monitoring standard for frequent trading;
- 2) is identified as problematic by an underlying fund even if the activity does not exceed our monitoring standard for frequent trading; or
- 3) if we determine in our sole discretion that such transfer activity may not be in the best interests of other contract holders, we will take the following actions to deter such transfer activity. Upon the first violation, we will send a one time warning letter. A second violation will result in the suspension of trading privileges via facsimile, telephone, email and internet, and limit trading privileges to submission by regular U.S. mail for a period of six months. At the end of that period, trading privileges will be reinstated. If there is another violation after such rights are reinstated, we will suspend such privileges permanently. We will notify you in writing if we take any of these actions.

Additionally, if such transfer activity is initiated by a market-timing organization or individual or other party authorized to give transfer instructions on behalf of multiple contract owners, we will also take the following actions, without prior notice: (1) not accepting transfer instructions from an agent acting on behalf of more than one contract holder or participant; and (2) not accepting preauthorized transfer forms from market timers or other entities acting on behalf of more than one contract holder or participant at a time.

Our current definition of frequent trading is more than one purchase and sale of the same underlying fund within a 30-day period. We do not count transfers associated with scheduled dollar cost averaging or automatic rebalancing programs and transfers involving certain de minimis amounts when determining whether trading activity is excessive. We reserve the right to modify our general standard, or the standard as it may apply to a particular fund, at any time without prior notice, depending on, among other factors, the needs of the underlying fund(s), the best interests of contract holders and fund investors and/or state or federal regulatory requirements. If we modify such standard, it will be applied uniformly to all contract holders or, as applicable, to all contract holders investing in the underlying fund.

In addition, if, due to the excessive dollar amounts of trades, even though not within our then current definition of frequent trading, an individual's or organization's transfer activity is determined, in our sole discretion, to be disruptive, we will take the same actions as are described above to limit frequent transfers.

The Company does not allow waivers to the above policy. Our excessive trading policy may not be completely successful in preventing market timing or excessive trading activity. If it is not completely successful, fund performance and management may be adversely affected, as noted above.

Limits Imposed by Underlying Funds. Orders for the purchase of fund shares may be subject to acceptance or rejection by the underlying fund. We reserve the right to reject, without prior notice, any allocation of a purchase payment to a subaccount if the subaccount's investment in its corresponding fund is not accepted by the fund for any reason.

Value of Transferred Dollars. The value of amounts transferred into or out of the funds will be based on the subaccount unit values next determined after we receive your transfer request in good order at our Home Office, or if you are participating in the dollar cost averaging program, after your scheduled transfer or reallocation.

Telephone and Electronic Transactions: Security Measures. To prevent fraudulent use of telephone and electronic transactions (including, but not limited to, Internet transactions), we have established security procedures. These include recording calls on our toll-free telephone lines and requiring use of a personal identification number (PIN) to execute transactions. You are responsible for keeping your PIN and account information confidential. If we fail to follow reasonable security procedures, we may be liable for losses due to unauthorized or fraudulent telephone or other electronic transactions. We are not liable for losses resulting from telephone or electronic instructions we believe to be genuine. If a loss occurs when we rely on such instructions, you will bear the loss.

The Dollar Cost Averaging Program. The 2004 and 1994 contracts permit participation in our dollar cost averaging program. Dollar cost averaging is an investment strategy whereby you purchase fixed dollar amounts of an investment at regular intervals, regardless of price. Under this program a fixed dollar amount is automatically transferred from certain variable investment options to one or more of the subaccounts you select. The amount applied must be no less than \$100 per month over a period of at least 12 months. Allocations for periods of longer than 24 months must be consented to by the Company. Dollar cost averaging is not permitted into the ING GET Fund subaccount and is not available for fixed interest options (the Fixed Account, the Guaranteed Interest Account or the Guaranteed Accumulation Account).

Dollar cost averaging neither ensures a profit nor guarantees against loss in a declining market. You should consider your financial ability to continue purchases through periods of low price levels. There is no additional charge for this program and transfers made under this program do not count as transfers when determining the number of free transfers that may be made each calendar year. For additional information about this program, contact your sales representative or call us at the number listed in the "Contract Overview-Questions: Contacting the Company" section.

Dollar cost averaging is not available if you elect to participate in the account rebalancing program.

The Account Rebalancing Program. Under the 2004 contracts you may participate in account rebalancing. Account rebalancing allows you to reallocate your account value to match the investment allocations you originally selected. Only account values invested in the subaccounts (excluding the ING GET Fund subaccount) may be rebalanced. We automatically reallocate your account value annually (or more frequently as we allow). Account rebalancing neither ensures a profit nor guarantees against loss in a declining market. There is no additional charge for this program. If available under your contract, you may participate in this program by completing the account rebalancing election form or by contacting the Company at: ING, USFS Customer Service, Defined Contribution Administration, ATTN: Central Rollover Unit TN21, 151 Farmington Avenue, Hartford, CT 06156-1258, phone: 1-800-262-3862, fax: 860-723-9730.

Account rebalancing is not available if you elect to participate in the dollar cost averaging program.

Purchase

Contracts Available for Purchase. The contracts available for purchase are intended to qualify under the Tax Code as one of the following:

- ▷ A traditional Individual Retirement Annuity (IRA) under Tax Code section 408(b); or
- ▷ A Roth IRA under Tax Code section 408A.

The traditional IRA may be used as a funding option for a Simplified Employee Pension (SEP) plan under Tax Code section 408(k). The contract is not available as a "Simple IRA" as defined in Tax Code section 408(p).

Eligibility. Eligibility to contribute to a traditional IRA on a pre-tax basis or to establish a Roth IRA or to rollover or transfer from a traditional IRA to a Roth IRA depends upon your adjusted gross income.

How to Purchase. Complete the application and submit it and your initial purchase payment to the Company directly or through your sales representative. An account will not be set up until payment is received.

Acceptance or Rejection of your Application. We must accept or reject your application within two business days of receipt. If the application is incomplete, we may hold any forms and accompanying purchase payment(s) for five business days. We may hold purchase payments for longer periods, pending acceptance of the application only with your permission. If the application is rejected, the application and any purchase payments will be returned to you.

Purchase Payment Methods. The following purchase payment methods are allowed:

- ▷ Annual contributions. The initial purchase payment must be at least \$1,000 and subsequent payments may be added as long as they meet our minimum requirements in place at that time. Installment purchase payments are allowed, provided that each installment purchase payment must be at least \$85 (or \$1,000 annually). Monthly installments must be made via automatic bank check plan (Pre-authorized Payment Plan Agreement). The first payment must be received with the application.
- ▷ Rollovers or transfers from one or more of the following sources:
 - A traditional IRA under Tax Code section 408(b);
 - A Roth IRA under Tax Code section 408A;
 - An individual retirement account under Tax Code section 408(a) or 403(a);
 - A tax-deferred annuity or custodial account under Tax Code section 403(b);
 - A qualified pension or profit sharing plan under Tax Code section 401(a) or 401(k); or
 - A governmental plan that qualifies under Tax Code section 457(b).

Rollovers or transfers must be a minimum of \$1,500, and subsequent rollovers or payments may be added as long as they meet our minimum requirements in place at that time.

Rollovers and direct transfers are permitted from a 401, 403(a) 403(b) or governmental 457(b) arrangement to a traditional IRA. Distributions from these arrangements are not permitted to be transferred or rolled over to a Roth IRA. A Roth IRA can accept transfers/rollovers only from a traditional IRA, subject to payment of ordinary income tax, or from another Roth IRA.

Factors to Consider in the Purchase Decision. The decision to purchase the contract should be discussed with your financial representative, making sure that you understand the investment options it provides, its other features, the risks and potential benefits you will face, and the fees and expenses you will incur. You should pay attention to the following issues, among others:

- (1) **Long-Term Investment** - This contract is a long-term investment, and is typically most useful as part of a personal retirement plan. Early withdrawals may be restricted by the Tax Code or your plan or may expose you to early withdrawal charges or tax penalties. The value of deferred taxation on earnings grows with the amount of time funds are left in the contract. You should not participate in this contract if you are looking for a short-term investment or expect to need to make withdrawals before you are 59 1/2.
- (2) **Investment Risk** - The value of investment options available under this contract may fluctuate with the markets and interest rates. You should not participate in this contract in order to invest in these options if you cannot risk getting back less money than you put in.
- (3) **Features and Fees** - The fees for this contract reflect costs associated with the features and benefits it provides. As you consider this contract, you should determine the value that these various benefits and features have for you, given your particular circumstances, and consider the charges for those features.
- (4) **Exchanges** - If this contract will be a replacement for another annuity contract, you should compare the two contracts carefully, compare the costs associated with each, and identify additional benefits available under this contract. You should consider whether these additional benefits justify incurring a new schedule of early withdrawal charges or any increased charges that might apply under this contract. Also, be sure to talk to your financial professional or tax adviser to make sure that the exchange will be handled so that it is tax-free.

Purchase in the State of New York. The 1994 contract is not available in the State of New York.

Allocating Purchase Payments to the Investment Options. We will allocate your purchase payments among the investment options you select. Allocations must be in whole percentages and there may be limits on the number of investment options you may select. When selecting investment options, you may find it helpful to review the "Investment Options" section.

Other Products. We and our affiliates offer various other products with different features and terms than these contracts that may offer some or all of the same funds. These products have different benefits, fees and charges, and may offer different share classes of the funds offered in this contract that are less expensive. These other products may or may not better match your needs. You should be aware that there are alternative options available, and, if you are interested in learning more about these other products, contact your registered representative.

Right to Cancel

When and How to Cancel. You may cancel your contract within ten days of receipt (some states require more than ten days) by returning it to our Home Office along with a written notice of cancellation.

Refunds. We will issue you a refund within seven calendar days of our receipt of your contract and notice of cancellation. Your refund will equal all purchase payments made.

If the purchase payments for your cancelled contract came from a rollover from another contract issued by us or one of our affiliates where an early withdrawal charge was reduced or eliminated, the purchase payments will be restored to your prior contract.

Replacement Contracts Issued After April 1, 2004. Subject to regulatory approval of the 2004 contracts, you may cancel your contract within ten days of receipt (some states require more than ten days) by returning it to our Home Office along with a notice of cancellation. Your refund will equal all purchase payments made if canceled within 10 days. After 10 days, your refund will equal amounts contributed to the contract or account(s), as applicable, plus any earnings or less any losses attributable to the investment options in which amounts were invested, except in states that require return of premium throughout the free look period.

Fees

The following repeats and adds to information provided in the "Fee Table" section. Please review both sections for information on fees.

Transaction Fees

Early Withdrawal Charge

Withdrawals of all or a portion of your account value may be subject to a charge. In the case of a partial withdrawal, the amount withdrawn from your account will be the amount you specified plus adjustment for any applicable early withdrawal charge.

Amount. The charge is a percentage of the amount that you withdraw. The percentage will be determined by the early withdrawal charge schedule that applies to your contract. The schedules are listed below and appear on your contract schedule page. The charge will never be more than 8 1/2% of your total purchase payments to the contract.

Purpose. This is a deferred sales charge. It reimburses us for some of the sales and administrative expenses associated with the contract. If our expenses are greater than the amount we collect for the early withdrawal charge, we may use any of our corporate assets, including potential profit that may arise from the mortality and expense risk charge, to make up any difference.

Early Withdrawal Charge Schedules

(Your contract schedule page shows which of the following early withdrawal charge schedules applies to you.)

Schedule A	
Contract Years	Early Withdrawal Charge
Fewer than 1	1%
1 or more	0%

Schedule A applies to 2004 and 1994 contracts established with amounts that were transferred or rolled over from the Company's unregistered contracts, including amounts rolled over into a Roth IRA in connection with a conduit traditional IRA and Company general account contracts issued in connection with Tax Code sections 401, 403 and governmental 457 plans. It also applies to previously-issued 1992 contracts established with amounts transferred from certain contracts issued by the Company under certain pension or profit sharing retirement plans only where you were not subject to an early withdrawal charge (deferred sales charge) under the prior contract at the time of transfer. The early withdrawal charge is based on the number of completed contract years since the date of initial payment to the new contract.

Types of Fees

There are five types of fees or deductions which may affect your account:

- ▷ **Transaction Fees**
 - Early Withdrawal Charge
 - Annual Maintenance Fee
 - Transfer Charge
 - Redemption Fees
- ▷ **Fees Deducted from Investments in the Separate Account**
 - Mortality and Expense Risk Charge
 - Administrative Expense Charge
 - Reduction or Elimination of Certain Fees
- ▷ **Fund Fees and Expenses**
- ▷ **Premium and Other Taxes**
- ▷ **ING GET Fund Guarantee Charge**

Schedule B	
Contract Years	Early Withdrawal Charge
Less than 5	5%
5 or more but fewer than 6	4%
6 or more but fewer than 7	3%
7 or more but fewer than 8	2%
8 or more but fewer than 9	1%
9 or more	0%

Schedule B applies to 1992 contracts established with amounts that were transferred from certain existing contracts issued by the Company where the contract holder had been subject to an early withdrawal charge (deferred sales charge). The beginning early withdrawal charge is based on the number of completed contract years since the initial payment to the predecessor contract.

Schedule C	
Contract Years	Early Withdrawal Charge
Less than 2	6%
2 or more but fewer than 3	5%
3 or more but fewer than 4	4%
4 or more but fewer than 5	3%
5 or more but fewer than 6	2%
6 or more but fewer than 7	1%
7 or more	0%

Schedule C applies to 2004 and 1994 contracts established with amounts that were transferred from contracts or arrangements offered by the Company in connection with Tax Code sections 401, 403 and 457 plans, (other than those contracts described above under Schedule A), and rollovers from IRAs under Tax Code sections 408 and 408A (to the extent such rollovers are allowed by the Company). Rather than assessing an early withdrawal charge on the predecessor contract, the early withdrawal charge is based on the number of completed contract years since the date of initial payment to the predecessor contract. We may also apply this early withdrawal charge schedule on this basis to certain external rollovers in a non-discriminatory manner. See "Fees - Reduction or Elimination of Certain Fees." For amounts rolled over from non-annuity contract arrangements offered by the Company in connection with Tax Code Sections 401, 403, and 457 plans, this will normally result in there being no early withdrawal charge applicable to the new contract. Schedule C also applies to all new purchases that are not connected with an internal transfer (e.g., external rollovers or contracts established with at least a \$1,000 annual contribution), and to internal rollovers from certain variable life insurance contracts funding Tax Code section 401 qualified plans.

Waiver. The early withdrawal charge is waived if the amount withdrawn is due to one or more of the following:

- Used to provide income phase payments to you;
- Paid due to your death;
- Withdrawn under a systematic distribution option (See "Systematic Distribution Options");

- ▷ Paid upon a full withdrawal where your account value is \$2,500 or less and no part of the account has been withdrawn during the prior 12 months; or
- ▷ Withdrawn in an amount of 10% or less of your account value, provided you are at least age 59 1/2. This applies only to the first partial withdrawal in each calendar year and does not apply to full withdrawals, unless your contract is issued in the states of Washington, Florida or New Jersey. The 10% amount will be calculated using your account value as of the date the request is received in good order at our Home Office. When a systematic distribution option is selected, this provision includes any amounts paid under that election.

Annual Maintenance Fee

Maximum Amount. \$25.00

When/How. Each year during the accumulation phase we deduct this fee on your contract anniversary. It is deducted on a pro rata basis from each subaccount and fixed interest option in which you have an allocation.

Purpose. This fee reimburses us for our administrative expenses related to establishing and maintaining your account.

Reduction or Elimination. We will eliminate the maintenance fee if your account value is \$10,000 or greater on the day before the maintenance fee is deducted. For 1992 contracts, the maintenance fee is also eliminated if your initial purchase payment was \$10,000 or greater.

Additionally, we may reduce or eliminate the maintenance fee if we anticipate savings on our administrative expenses for the sale because of one or more of the following:

- ▷ The size and type of group to whom the contract is offered; or
- ▷ The amount of expected purchase payments.

We will not unfairly discriminate against any person if we reduce or eliminate the maintenance fee. Any reduction or elimination of this fee will be done according to our own rules in effect at the time an application for a contract is approved. We reserve the right to change these rules from time to time.

Transfer Charge

Amount. \$0.00

During the accumulation phase, we currently allow you 12 free transfers each calendar year. We reserve the right, however, to charge \$10 for each additional transfer. We currently do not impose this charge.

Purpose. This charge reimburses us for administrative expenses associated with transferring your dollars among investment options.

Redemption Fees

If applicable, we may deduct the amount of any redemption fees imposed by the underlying mutual funds as a result of withdrawals, transfers or other fund transactions you initiate. Redemption fees, if any, are separate and distinct from any transaction charges or other charges deducted from your contract value.

Fees Deducted from Investments in the Separate Account

Mortality and Expense Risk Charge

Maximum Amount. This charge, on an annual basis, is equal to 1.25% of your account value invested in the subaccounts.

When/How. We deduct this charge daily from the subaccounts corresponding to the funds you select. We do not deduct this fee from any fixed interest option. This charge is deducted during the accumulation phase and the income phase.

Purpose. This charge compensates us for the mortality and expense risks we assume under the contracts.

- ▷ The mortality risks are those risks associated with our promise to make lifetime income phase payments based on annuity rates specified in the contract.
- ▷ The expense risk is the risk that the actual expenses we incur under the contract will exceed the maximum costs that we can charge.

If the amount we deduct for this charge is not enough to cover our mortality costs and expenses under the contract, we will bear the loss. We may use any excess to recover distribution costs relating to the contract and as a source of profit. We expect to make a profit from this charge.

Reduction. For 2004 and 1994 contracts, which we currently sell, we will reduce this charge to 1.15% provided one or more of the following conditions are met:

- (1) The contract has remained in the accumulation phase for ten years following the initial payment;
- (2) The initial payment is \$250,000 or more; or
- (3) The value of the contract is \$250,000 or more on any anniversary of the date the initial purchase payment was applied.

Administrative Expense Charge

Amount. 0%

We currently do not impose this charge. We reserve the right, however, to charge up to 0.25% annually of your account value invested in the subaccounts.

When/How. If imposed, we deduct this charge daily from the subaccounts corresponding to the funds you select. We do not deduct this charge from the fixed interest options. This charge may be assessed during the accumulation phase and/or the income phase. If we are imposing this charge when you enter the income phase, the charge will apply to you during the entire income phase.

Purpose. This charge helps defray our administrative expenses that cannot be covered by the mortality and expense risk charge described above. The charge is not intended to exceed the average expected cost of administering the contract. We do not expect to make a profit from this charge.

Reduction or Elimination of Certain Fees

When sales of the contract are made to individuals or a group of individuals in a manner that results in savings of sales or administrative expenses, we may reduce or eliminate the early withdrawal charge, the annual maintenance fee, the expense risk charge or the administrative expense charge. Our decision to reduce or eliminate any of these fees will be based on one or more of the following:

- ▷ The size and type of group to whom the contract is offered;
- ▷ The type and frequency of administrative and sales services provided;
- ▷ The use by an employer of automated techniques in submitting purchase payments or information related to purchase payments on behalf of its employees; or
- ▷ Any other circumstances which reduce distribution or administrative expenses.

The reduction or elimination of any of these fees will not be unfairly discriminatory against any person and will be done according to our rules in effect at the time the contract is issued. We reserve the right to change these rules from time to time. The right to reduce or eliminate any of these fees may be subject to state approval. The exact amount of contract charges applicable to a particular contract will be stated in that contract.

Fund Fees and Expenses

As shown in the Fund Expense Table which begins on page 7 of this prospectus, each fund deducts management fees from the amounts allocated to the fund. In addition, each fund deducts other expenses which may include service fees that may be used to compensate service providers, including the Company and its affiliates, for administrative and contract owner or participant services provided on behalf of the fund. Furthermore, certain funds deduct a distribution or 12b-1 fee, which is used to finance any activity that is primarily intended to result in the sale of fund shares. **For a more complete description of the funds' fees and expenses, review each fund's prospectus.**

The Company or its U.S. affiliates receive varying levels of revenue from each of the funds available through the contract. In terms of total dollar amounts received, the greatest amount of revenue generally comes from assets allocated to funds managed by the Company or other Company affiliates (including but not limited to ING Investments, LLC and Directed Services, Inc.), which funds may or may not also be subadvised by a Company affiliate. Assets allocated to funds managed by the Company or a Company affiliate but subadvised by unaffiliated third parties generally generate the next greatest amount of revenue. Finally, assets allocated to unaffiliated funds generally generate the least amount of revenue.

Types of Revenue Received from Affiliated Funds

Affiliated funds are (a) funds managed by the Company, ING Investments, LLC, Directed Services, Inc. or other Company affiliates, which may or may not also be subadvised by another Company affiliate; and (b) funds managed by the Company or a Company affiliate but which are subadvised by unaffiliated third parties.

Revenues received by the Company from affiliated funds include:

- For those funds which the Company serves as investment adviser, a share of the management fee deducted from fund assets and included within the "Management (Advisory) Fees" column of the Fund Expense Table that begins on page 7 of this prospectus;

- Service fees that are deducted from fund assets and included within the "Other Expenses" column of the Fund Expense Table; and
- For certain share classes, the Company or its affiliates may also receive compensation paid out of 12b-1 fees that are deducted from fund assets and disclosed in the "12b-1 Fees" column of the Fund Expense Table.

Additionally, the Company receives other revenues from affiliated funds which may be based either on an annual percentage of average net assets held in the fund by the Company or a percentage of the management fees shown in the Fund Expense Table. These revenues may be received as cash payments or according to a variety of financial accounting techniques which are used to allocate revenue and profits across the organization. In the case of affiliated funds subadvised by unaffiliated third parties, any sharing of the management fee between the Company and the affiliated investment adviser is based on the amount of such fee remaining after the subadvisory fee has been paid to the unaffiliated subadviser. Because subadvisory fees vary by subadviser, varying amounts of revenue are retained by the affiliated investment adviser and ultimately shared with the Company.

Types of Revenue Received from Unaffiliated Funds

Revenues received from each of the unaffiliated funds or their affiliates is based on an annual percentage of the average net assets held in that fund by the Company. Some unaffiliated funds or their affiliates pay us more than others and some of the amounts we receive may be significant.

Revenues received by the Company or its affiliates from unaffiliated funds include:

- For certain funds, compensation paid from 12b-1 fees or service fees that are deducted from fund assets. Any such fees deducted from fund assets are disclosed in the Fund Expense Table; and
- Additional payments for administrative, recordkeeping or other services which we provide to the funds or their affiliates or as an incentive for us to make the funds available through the contract. These additional payments are not disclosed in the Fund Expense Table and do not increase directly or indirectly the fees and expenses shown in the Fund Expense Table. These additional payments may be used by us to finance distribution of the contract.

The following table shows the ten unaffiliated fund families and/or investment management groups which have funds currently offered through the contract, ranked according to the total amount they paid to the Company or its affiliates in 2004, in connection with the registered variable annuity contracts issued by the Company:

- 1) Fidelity Investments
- 2) OppenheimerFunds
- 3) AIM Investments
- 4) Lord Abbett Funds
- 5) Calvert Funds
- 6) Franklin Templeton Investments
- 7) Pioneer Investments
- 8) Alliance Capital Management L.P.
- 9) PIMCO Funds
- 10) Columbia Wanger Asset Management, L.P.

If the revenues received from affiliated funds were included in the table above, payments from ING Investments, LLC and other Company affiliates would be at the top of the list.

Please note certain management personnel and other employees of the Company or its affiliates may receive a portion of their total employment compensation based on the amount of net assets allocated to affiliated funds.

Certain funds may be structured as "fund of funds" (including the ING Solutions portfolios). These funds may have higher fees and expenses than a fund that invests directly in debt and equity securities. The Fund Expense Table included in the "Fee Table" section reflects the aggregate annual operating expenses of each portfolio and its corresponding underlying fund or funds. These funds are identified in the "Fund Expense Table" and on the front of this prospectus.

Premium and Other Taxes

Maximum Amount. Some states and municipalities charge a premium tax on annuities. These taxes currently range from 0% to 4%, depending upon the jurisdiction.

When/How. We reserve the right to deduct premium taxes from your account value or from your purchase payments to the account at any time, but not before there is a tax liability under state law. For example, we may deduct premium taxes at the time of a complete withdrawal or we may reflect the cost of premium taxes in our income phase payment rates when you commence income phase payments. We will not deduct a charge for any municipal premium tax of 1% or less, but we reserve the right to reflect such an expense in our annuity purchase rates.

In addition, we reserve the right to assess a charge for any federal taxes due against the separate account. See "Taxation."

ING GET Fund Guarantee Charge

Various series of the ING GET Fund may be offered from time to time, and additional charges may apply if you elect to invest in one of these series. The ING GET Fund guarantee charge is deducted each business day during the guarantee period if you elect to invest in the ING GET Fund. The amount of the ING GET Fund guarantee charge is 0.25% and is deducted from amounts allocated to the ING GET Fund investment option. This charge compensates us for the cost of providing a guarantee of accumulation unit values of the ING GET Fund subaccount. See "Investment Options - ING GET U.S. Core Portfolio."

Your Account Value

During the accumulation phase, your account value at any given time equals:

- ▷ The current dollar value of amounts held in the subaccounts which takes into account investment performance and fees deducted from the subaccounts; plus
- ▷ The current dollar value of amounts invested in the fixed interest options, including interest earnings to date.

Subaccount Accumulation Units. When you select a fund as an investment option, your account dollars invest in "accumulation units" of the Variable Annuity Account C subaccount corresponding to that fund. The subaccount invests directly in the fund shares. The value of your interests in a subaccount is expressed as the number of accumulation units you hold multiplied by an "Accumulation Unit Value," as described below, for each unit.

Accumulation Unit Value (AUV). The value of each accumulation unit in a subaccount is called the accumulation unit value or AUV. The AUV varies daily in relation to the underlying fund's investment performance. The value also reflects deductions for fund fees and expenses, the mortality and expense risk charge and the administrative expense charge (if any). We discuss these deductions in more detail in "Fee Table" and "Fees."

Valuation. We determine the AUV every normal business day after the close of the New York Stock Exchange (normally at 4:00 p.m. Eastern Time). At that time we calculate the current AUV by multiplying the AUV last calculated by the net investment factor of the subaccount. The net investment factor measures the investment performance of the subaccount from one valuation to the next.

$$\text{Current AUV} = \text{Prior AUV} \times \text{Net Investment Factor}$$

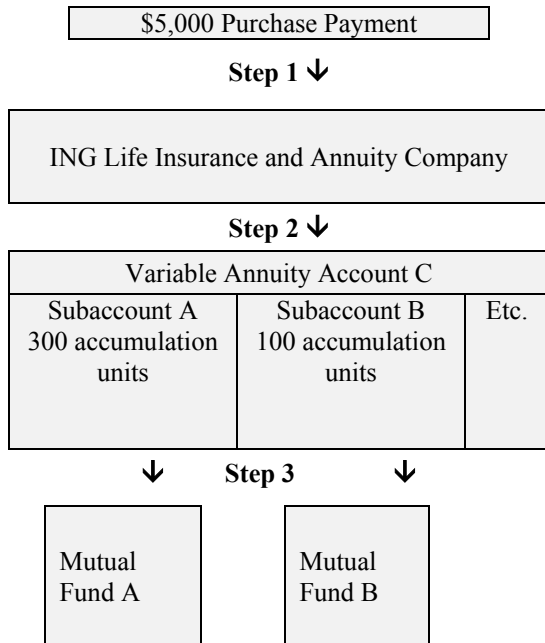

Net Investment Factor. The net investment factor for a subaccount between two consecutive valuations equals the sum of 1.0000 plus the net investment rate.

Net Investment Rate. The net investment rate is computed according to a formula that is equivalent to the following:

- ▷ The net assets of the fund held by the subaccount as of the current valuation; minus
- ▷ The net assets of the fund held by the subaccount at the preceding valuation; plus or minus
- ▷ Taxes or provisions for taxes, if any, due to subaccount operations (with any federal income tax liability offset by foreign tax credits to the extent allowed); divided by
- ▷ The total value of the subaccount's units at the preceding valuation; minus
- ▷ A daily deduction for the mortality and expense risk charge, the administrative expense charge, if any, and any other fees, such as guarantee charges for the ING GET Fund, deducted from investments in the separate account. See "Fees."

The net investment rate may be either positive or negative.

Hypothetical Illustration. As a hypothetical illustration, assume that your initial purchase payment to a contract is \$5,000 and you direct us to invest \$3,000 in Fund A and \$2,000 in Fund B. Also assume that on the day we receive the purchase payment the applicable AUVs after the next close of business of the New York Stock Exchange (normally at 4:00 p.m. Eastern Time) are \$10 for Subaccount A and \$20 for Subaccount B. Your account is credited with 300 accumulation units of Subaccount A and 100 accumulation units of Subaccount B.

Step 1: You make an initial purchase payment of \$5,000.

Step 2:

A. You direct us to invest \$3,000 in Fund A. The purchase payment purchases 300 accumulation units of Subaccount A (\$3,000 divided by the current \$10 AUV).

B. You direct us to invest \$2,000 in Fund B. The purchase payment purchases 100 accumulation units of Subaccount B (\$2,000 divided by the current \$20 AUV).

Step 3: The separate account purchases shares of the applicable funds at the current market value (net asset value or NAV).

Each fund's subsequent investment performance, expenses and charges, and the daily charges deducted from the subaccount, will cause the AUV to move up or down on a daily basis.

Purchase Payments to Your Account. If all or a portion of your initial purchase payment is directed to the subaccounts, it will purchase subaccount accumulation units at the AUV next computed after our acceptance of your application as described in "Purchase." Subsequent purchase payments or transfers directed to the subaccounts will purchase subaccount accumulation units at the AUV next computed following our receipt of the purchase payment or transfer request in good order. The value of subaccounts may vary day to day.

Taxes, Fees and Other Deductions

Amounts withdrawn may be subject to one or more of the following:

- ▷ **Early Withdrawal Charge** (see "Fees-Early Withdrawal Charge")
- ▷ **Annual Maintenance Fee** (see "Fees-Annual Maintenance Fee")
- ▷ **Market Value Adjustment** (see Appendix III and the Guaranteed Accumulation Account prospectus)
- ▷ **Redemption Fees** (see "Fees - Redemption Fees")
- ▷ **Tax Penalty** (see "Taxation")
- ▷ **Tax Withholding** (see "Taxation")

To determine which may apply to you, refer to the appropriate sections of this prospectus, contact your sales representative or call us at the number listed in "Contract Overview-Questions: Contacting the Company."

Withdrawals

You may withdraw all or a portion of your account value at any time during the accumulation phase.

Steps for Making a Withdrawal

- ▷ Select the withdrawal amount.
 - (1) **Full Withdrawal:** You will receive, reduced by any required withholding tax, your account value allocated to the subaccounts, the Guaranteed Interest Account (with reduced interest yield), the Fixed Account, and the Guaranteed Accumulation Account (plus or minus any applicable market value adjustment), minus any applicable early withdrawal charge and annual maintenance fee.
 - (2) **Partial Withdrawal (Percentage or Specified Dollar Amount):** You will receive, reduced by any required withholding tax, the amount you specify, subject to the value available in your account. However, the amount actually withdrawn from your account will be adjusted by any applicable early withdrawal charge and any positive or negative market value adjustment for amounts withdrawn from the Guaranteed Accumulation Account or a reduced interest yield from the Guaranteed Interest Account.
- ▷ Select investment options. If you do not specify, we will withdraw dollars proportionally from each of your investment options.
- ▷ Properly complete a disbursement form and submit it to our Home Office.

See Appendices I, II, III and the Guaranteed Accumulation Account prospectus for more information about withdrawals from the fixed interest options.

Calculation of Your Withdrawal. We determine your account value every normal business day after the close of the New York Stock Exchange (normally at 4:00 p.m. Eastern Time). We pay withdrawal amounts based on your account value as of the next valuation after we receive a request for withdrawal in good order at our Home Office, or on such later date as you specify on the disbursement form.

Delivery of Payment. Payments for withdrawal requests will be made in accordance with SEC requirements. Normally, your withdrawal amount will be sent no later than seven calendar days following our receipt of your disbursement form in good order.

Reinvesting a Full Withdrawal. Within 30 days after a full withdrawal, if allowed by law and the contract, you may elect to reinvest all or a portion of your withdrawal. We must receive any reinvested amounts within 60 days of the withdrawal. We reserve the right, however, to accept a reinvestment election received more than 30 days after the withdrawal and accept proceeds received more than 60 days after the withdrawal. We will credit your account for the amount reinvested based on the subaccount values next computed following our receipt of your request and the amount to be reinvested.

We will credit the amount reinvested proportionally for annual maintenance fees and early withdrawal charges imposed at the time of withdrawal. We will deduct from the amounts reinvested any annual maintenance fee which fell due after the withdrawal and before the reinvestment. We will reinvest in the same investment options and proportions in place at the time of withdrawal. If you withdraw amounts from a series of the ING GET Fund and then elect to reinvest them, we will reinvest them in a GET Fund series that is then accepting deposits, if one is available. If one is not available, we will reallocate your GET amounts among other investment options in which you invested, on a pro rata basis. The reinvestment privilege may be used only once. Special rules may apply to reinvestments of amounts withdrawn from the Guaranteed Interest Account and the Guaranteed Accumulation Account (see Appendices I and III). We will not credit your account for market value adjustments that we deducted at the time of your withdrawal from the Guaranteed Accumulation Account. Seek competent advice regarding the tax consequences associated with reinvestment.

Systematic Distribution Options

Features of a Systematic Distribution Option

A systematic distribution option allows you to receive regular payments from the contract, without moving into the income phase.

By remaining in the accumulation phase, you retain certain rights and investment flexibility not available during the income phase. Because the account remains in the accumulation phase, all accumulation phase charges continue to apply.

These options may be exercised at any time during the accumulation phase of the contract. The following systematic distribution options may be available:

- ▷ **SWO-Systematic Withdrawal Option.** SWO is a series of automatic partial withdrawals from your account based on a payment method you select. Consider this option if you would like a periodic income while retaining investment flexibility for amounts accumulated in the account. We will not deduct an early withdrawal charge from amounts paid under SWO; however, a market value adjustment may apply to amounts paid from the Guaranteed Accumulation Account. See Appendix III and the Guaranteed Accumulation Account prospectus for more information about the market value adjustment.
- ▷ **ECO-Estate Conservation Option.** ECO offers the same investment flexibility as SWO, but is designed for those who want to receive only the minimum distribution that the Tax Code requires each year. Under ECO, we calculate the minimum distribution amount required by law, beginning generally at age 70 1/2, and pay you that amount once a year. ECO is not available under Roth IRA contracts. We will not deduct an early withdrawal charge nor apply a market value adjustment to any part of your account value paid under an ECO.

Other Systematic Distribution Options. We may add additional systematic distribution options from time to time. You may obtain additional information relating to any of the systematic distribution options from your sales representative or by calling us at the number listed in "Contract Overview-Questions: Contacting the Company."

Systematic Distribution Option Availability. If allowed by applicable law, we may discontinue the availability of one or more of the systematic distribution options for new elections at any time, and/or change the terms of future elections.

Eligibility for a Systematic Distribution Option. To determine if you meet the age and account value criteria and to assess terms and conditions that may apply, contact your sales representative or call us at the number listed in "Contract Overview-Questions: Contacting the Company."

Terminating a Systematic Distribution Option. You may revoke a systematic distribution option at any time by submitting a written request to our Home Office. ECO, once revoked, may not, unless allowed under the Tax Code, be elected again.

Charges and Taxation. When you elect a systematic distribution option, your account value remains in the accumulation phase and subject to the charges and deductions described in "Fees" and "Fee Table" sections. Taking a withdrawal under a systematic distribution option may have tax consequences. If you are concerned about tax implications, consult a qualified tax adviser before electing an option.

Death Benefit

During the Accumulation Phase. The contract provides a death benefit in the event of your death during the accumulation phase.

Who Receives the Death Benefit Proceeds? If you would like certain individuals to receive the death benefit when it becomes payable, you may name them as your beneficiaries. If you die and no beneficiary exists, the death benefit will be paid in a lump sum to your estate.

Designating Your Beneficiary. You may designate a beneficiary on your application or by contacting your sales representative or by calling us at the number listed in "Contract Overview-Questions: Contacting the Company."

Death Benefit Amount. The amount of the death benefit is equal to your account value as of the next time we value your account following the date on which we receive proof of your death and a payment request in good order. In addition to this amount, some states require we pay interest on amounts invested in fixed interest options, calculated from date of death at a rate specified by state law.

Subject to state regulatory approval, the 2004 Contracts provide a guaranteed death benefit if the contract beneficiary elects a lump-sum distribution or an income phase payment option. For those contracts, the guaranteed death benefit is the greater of:

- (a) Your account value on the day that notice of death and request for payment are received in good order at our Home Office, plus any positive aggregate market value adjustment that applies to amounts allocated to the Guaranteed Accumulation Account; or
- (b) The sum of payments (minus any applicable premium tax) made to your account, minus withdrawals made from your account on the day the notice of death and request for payment are received in good order at our Home Office.

For amounts held in the Guaranteed Interest Account, the full annual Guaranteed Interest Rate will be credited. For amounts held in the Guaranteed Accumulation Account, any positive aggregate market value adjustment (the sum of all market value adjustments calculated due to a withdrawal) will be included in your account value. If a negative aggregate market value adjustment applies, it would be deducted only if the death benefit is paid more than six months after your death. We describe the market value adjustment in Appendix III and in the Guaranteed Accumulation Account prospectus.

This section provides information about the death benefit during the accumulation phase.

For death benefit information applicable to the income phase, see "The Income Phase."

Death Benefit Payment Options. Unless otherwise requested, we will mail payment to the beneficiary within seven calendar days after we receive proof of death and payment request acceptable to us. If allowed by the Tax Code, and not otherwise restricted by the contractholder, the designated beneficiary may elect to have the death benefit proceeds paid in any one of the following ways:

- ▷ Lump-sum payment;
- ▷ Payment in accordance with any of the available income phase payment options (see "The Income Phase"); or
- ▷ If the beneficiary is your spouse, payment in accordance with any of the available systematic distribution options (see "Systematic Distribution Options").

Unless the beneficiary elects otherwise, lump-sum payments will generally be made into an interest bearing account that is backed by our general account. This account can be accessed by the beneficiary through a checkbook feature. The beneficiary may access death benefit proceeds at any time through the checkbook without penalty. Interest credited on this account may be less than under other settlement options under the contract.

The following options are also available to the beneficiary; however, the Tax Code limits how long the death benefit proceeds may be left in these options:

- ▷ Leave the account value invested in the contract; or
- ▷ For certain contracts, leave the account value on deposit in the Company's general account, and receive monthly, quarterly, semi-annual or annual interest payments at the interest rate then being credited on such deposits. The beneficiary can withdraw the balance on deposit at any time or request to receive income payments in accordance with any of the available income phase payment options. See "The Income Phase."

Unless otherwise restricted by the contract holder, the beneficiary may choose to apply any portion of the death benefit to an annuity option or to receive a lump-sum payment

Taxation. The Tax Code requires distribution of death benefit proceeds within a certain period of time. Failure to begin receiving death benefit payments within those time periods can result in tax penalties. Regardless of the method of payment, death benefit proceeds will generally be taxed to the beneficiary in the same manner as if you had received those payments. See "Taxation" for additional information.

The Income Phase

During the income phase you stop contributing dollars to the contract and start receiving payments from your accumulated account value.

Initiating Income Phase Payments. At least 30 days prior to the date you want to start receiving income phase payments, you must notify us in writing of the following:

- ▷ Payment start date;
- ▷ Payment option (see the income phase payment options table in this section);
- ▷ Payment frequency (i.e., monthly, quarterly, semi-annually or annually);
- ▷ Choice of fixed, variable or a combination of both fixed and variable payments; and
- ▷ Selection of subaccounts and an assumed net investment rate (only if variable payments are elected).

Your account will continue in the accumulation phase until you properly initiate income phase payments. Once an income phase payment option is selected, it may not be changed.

What Affects Payment Amounts? Some of the factors that may affect the amount of your income phase payments include your age (or adjusted age under some contracts), gender, account value, the income phase payment option selected, the number of guaranteed payments selected (if any), and whether you select fixed, variable or a combination of both fixed and variable income phase payments and, for variable payments, the assumed net investment rate selected.

Fixed Payments. Amounts funding fixed income phase payments will be held in the Company's general account. The amount of fixed payments does not vary with investment performance over time.

Variable Income Phase Payments. Amounts funding your variable income phase payments will be held in the subaccount(s) you select, based on what subaccounts are available during the income phase at the time you make your selection. Not all subaccounts available during the accumulation phase may be available during the income phase. We currently allow you to choose up to 18 subaccounts at any one time and we allow 12 free transfers per calendar year. We reserve the right to allow additional transfers in excess of 12 per calendar year. For variable payments, an assumed net investment rate must be selected.

Assumed Net Investment Rate. If you select variable income phase payments, you must also select an assumed net investment rate of either 5% or 3 1/2%. If you select a 5% rate, your first income phase payment will be higher, but subsequent payments will increase only if the investment performance of the subaccounts you selected is greater than 5% annually after deduction of fees. Payment amounts will decline if the investment performance is less than 5% after deduction of fees.

If you select a 3 1/2% rate, your first income phase payment will be lower and subsequent payments will increase more rapidly or decline more slowly depending upon the investment performance of the subaccounts selected. For more information about selecting an assumed net investment rate, call us for a copy of the SAI. See "Contract Overview-Questions: Contacting the Company."

We may have used the following terms in prior prospectuses:

Annuity Phase-Income Phase

Annuity Option-Income Phase Payment Option

Annuity Payment-Income Phase Payment

Annuitization-Initiating Income Phase Payments

Minimum Payment Amounts for 2004 Contracts (subject to regulatory approval):

The income phase payment option you select must result in one of the following:

- ▷ A first income phase payment of at least \$100; or
- ▷ Total yearly income phase payments of at least \$500.

If your account value is too low to meet these minimum payment amounts, you will receive one lump-sum payment.

In New York, the income phase payment option you select must result in one of the following:

- ▷ A first income phase payment of at least \$20; or
- ▷ Total yearly income phase payments of at least \$100.

If your account value is too low to meet these minimum payment amounts, you will receive one lump-sum payment.

Minimum Payment Amounts for 1994 Contracts:

The income phase payment option you select must result in one of the following:

- ▷ A first income phase payment of at least \$50; or
- ▷ Total yearly income phase payments of at least \$250.

If your account value is too low to meet these minimum payment amounts, you will receive one lump-sum payment.

Minimum Payment Amounts for 1992 Contracts:

The payment option you select must result in one of the following:

- ▷ A first payment of at least \$20; or
- ▷ Total yearly payments of at least \$100.

If your account value is too low to meet these minimum payment amounts, you will receive one lump-sum payment.

Restrictions on Start Dates and the Duration of Payments. When income phase payments start, the age of the annuitant plus the number of years for which income phase payments are guaranteed must not exceed 95. Certain tax rules may also limit the length of income phase payments. For Roth IRAs those minimum distribution rules do not apply. See "Taxation."

Regardless of your income phase payment start date, your income phase payments will not begin until you have selected an income phase payment option. Failure to select an income phase payment option may have adverse tax consequences. You should consult with a qualified tax adviser if you are considering this course of action.

Charges Deducted. When you select an income phase payment option (one of the options listed in the tables immediately below), a mortality and expense risk charge, consisting of a daily deduction of 1.25% on an annual basis, will be deducted from amounts held in the subaccounts. This charge compensates us for mortality and expense risks we assume under variable income phase payout options and is applicable to all variable income phase payout options, including variable nonlifetime options under which we do not assume mortality risk. In this situation, this charge will be used to cover expenses. Although we expect to make a profit from this fee, we do not always do so. For variable options under which we do not assume a mortality risk, we may make a larger profit than under other options. We may also deduct a daily administrative expense charge from amounts held in the subaccounts. See "Fees."

Death Benefit During the Income Phase. The death benefits that may be available to a beneficiary are outlined in the Income Phase Payment Options table below. If a lump-sum payment is due as a death benefit, payment will be sent within seven calendar days following our receipt of proof of death and the payment request in good order at our Home Office. Any death benefit payable must be distributed to the beneficiary at least as rapidly as under the method of distribution in effect on the date of death.

Unless the beneficiary elects otherwise, lump-sum payments will generally be made into an interest bearing account that is backed by our general account. This account can be accessed by the beneficiary through a checkbook feature. The beneficiary may access death benefit proceeds at any time through the checkbook without penalty. Interest credited on this account may be less than under other settlement options under the contract.

Beneficiary Rights. A beneficiary's right to elect an income phase payment option or receive a lump-sum payment may be restricted by the contract holder. If so, such rights or options will not be available to the beneficiary.

Calculation of Death Benefit. We will calculate the value of any death benefit at the next valuation after we receive proof of death acceptable to us and the payment request in good order. Such value will be reduced by any payments made after the date of death.

Taxation. To avoid certain tax penalties, you or your beneficiary must meet the distribution rules imposed by the Tax Code. Additionally, when selecting an income phase payment option, the Tax Code requires that your expected payments will not exceed certain durations. See "Taxation" for additional information.

Income Phase Payment Options

The following table lists the income phase payment options and accompanying death benefits available during the income phase. We may offer additional income phase payment options under the contract from time to time. Once income phase payments begin, the income phase payment option selected may not be changed.

Terms to Understand:

Annuitant(s): The person(s) on whose life expectancy(ies) the income phase payments are based.

Beneficiary(ies): The person(s) or entity(ies) entitled to receive a death benefit under the contract.

Lifetime Payment Options	
Life Income	<p>Length of Payments: For as long as the annuitant lives. It is possible that only one payment will be made if the annuitant dies prior to the second payment's due date.</p> <p>Death Benefit-None: All payments end upon the annuitant's death.</p>
Life Income-Guaranteed Payments*	<p>Length of Payments: For as long as the annuitant lives, with payments guaranteed for your choice of 5, 10, 15 or 20 years or as otherwise specified in the contract.</p> <p>Death Benefit-Payment to the Beneficiary: If the annuitant dies before we have made all the guaranteed payments, we will continue to pay the beneficiary the remaining payments, unless the beneficiary elects to receive a lump-sum payment equal to the present value of the remaining guaranteed payments.</p>
Life Income-Two Lives	<p>Length of Payments: For as long as either annuitant lives. It is possible that only one payment will be made if both annuitants die before the second payment's due date.</p> <p>Continuing Payments: When you select this option you choose for either: (a) 100%, 66 ²/₃ % or 50% of the payment to continue to the surviving annuitant after the first death; or (b) 100% of the payment to continue to the annuitant on the second annuitant's death, and 50% of the payment will continue to the second annuitant on the annuitant's death.</p> <p>Death Benefit-None: All payments end upon the deaths of both annuitants.</p>
Life Income-Two Lives-Guaranteed Payments*	<p>Length of Payments: For as long as either annuitant lives, with payments guaranteed for ten or more years as specified in the contract.</p> <p>Continuing Payments: 100% of the payment to continue to the surviving annuitant after the first death.</p> <p>Death Benefit-Payment to the Beneficiary: If both annuitants die before the guaranteed payments have all been paid, we will continue to pay the beneficiary the remaining payments, unless the beneficiary elects to receive a lump-sum payment equal to the present value of the remaining guaranteed payments.</p>
Nonlifetime Payment Option	
Nonlifetime-Guaranteed Payments*	<p>Length of Payments: You may select payments for 3 through 30 years under 1992 contracts or 5 through 30 years under 2004 and 1994 contracts. In certain cases a lump-sum payment may be requested at any time (see below).</p> <p>Death Benefit-Payment to the Beneficiary: If the annuitant dies before we make all the guaranteed payments, we will continue to pay the beneficiary the remaining payments, unless the beneficiary elects to receive a lump-sum payment equal to the present value of the remaining guaranteed payments. We will not impose any early withdrawal charge.</p>
<p>Lump-Sum Payments: If the "Nonlifetime-Guaranteed Payments" option is elected with variable payments, you may request at any time that all or a portion of the present value of the remaining payments be paid in one lump sum. A lump sum elected before five years (for 2004 and 1994 contracts) or three years (for 1992 contracts) of payments have been completed will be treated as a withdrawal during the accumulation phase and we will charge any applicable early withdrawal charge. See "Fees-Early Withdrawal Charge."</p> <p>Calculation of Lump-Sum Payments. If a lump-sum payment is available to a beneficiary or to you under the income phase payment options listed in the table above, the rate we use to calculate the present value of the remaining guaranteed payments is the same rate we use to calculate the income payments (i.e., the actual fixed rate used for the fixed payments, or the 3 1/2% or 5% assumed net investment rate for variable payments.)</p>	

* Guaranteed period payments may not extend beyond the shorter of your life expectancy or until your age 95.

Taxation

Introduction

This section discusses our understanding of current federal income tax laws affecting the contract. You should keep the following in mind when reading it:

- ▷ Your tax position (or the tax position of the designated beneficiary, as applicable) determines federal taxation of amounts held or paid out under the contract;
- ▷ Tax laws change. It is possible that a change in the future could affect contracts issued in the past;
- ▷ This section addresses federal income tax rules and does not discuss federal estate and gift tax implications, state and local taxes or any other tax provisions; and
- ▷ We do not make any guarantee about the tax treatment of the contract or any transactions involving the contract.

We do not intend this information to be tax advice. For advice about the effect of federal income taxes or any other taxes on amounts held or paid out under the contract, consult a tax adviser. For more comprehensive information, contact the Internal Revenue Service. No attempt is made to provide more than general information about the use of the contract with tax-qualified retirement arrangements.

Taxation of Gains Prior to Distribution

You generally will not pay taxes on any earnings from the annuity contracts described in this prospectus until they are withdrawn. Traditional IRAs under Tax Code section 408(b) and SEP IRAs under Tax Code section 408(k) also generally defer payment of taxes until there is a withdrawal or distribution, while earnings on qualified distributions from Roth IRAs under Tax Code section 408A are generally not subject to federal income tax. (See "Withdrawals and Other Distributions" later in this section for a discussion of how distributions under the various types of arrangements are taxed.) Because you are considering an annuity for your IRA, you should know that the annuity contract does not provide any additional tax deferral of earnings beyond the tax deferral provided by the IRA itself. However, annuities do provide other features and benefits which may be valuable to you. You should discuss your decision with your financial representative.

Investor Control

Although earnings under the contracts are generally not taxed until withdrawn, the Internal Revenue Service (IRS) has stated in published rulings that a variable contract owner will be considered the owner of separate account assets if the contract owner possesses incidents of investment control over the assets. In these circumstances, income and gains from the separate account assets would be currently includible in the variable contract owner's gross income. Future guidance regarding the extent to which owners could direct their investments among subaccounts without being treated as owners of the underlying assets of the separate account may adversely affect the tax treatment of existing contracts. The Company therefore reserves the right to modify the contract as necessary to attempt to prevent the contract holder from being considered the federal tax owner of a pro rata share of the assets of the separate account.

When consulting a tax adviser, be certain that he or she has expertise in the Tax Code sections applicable to your tax concerns.

Contract Type

The contract is designed for use with certain retirement arrangements that qualify under Tax Code sections 408(b), 408(k) or 408A. Tax Code section 408(b) permits eligible individuals to contribute to a traditional IRA on a pre-tax (deductible) basis. Employers may establish SEP plans under Tax Code section 408(k) and contribute to a traditional IRA owned by the employee. Tax Code section 408A permits eligible individuals to contribute to a Roth IRA on an after-tax (nondeductible) basis.

The Contract. You are responsible for determining that contributions, distributions and other transactions satisfy applicable laws. Legal counsel and a tax adviser should be consulted regarding the suitability of the contract. If the contract is purchased in conjunction with a retirement plan, the plan is not a part of the contract and we are not bound by the plan's terms or conditions.

Withdrawals and Other Distributions

Certain tax rules apply to distributions from the contract. A distribution is any amount taken from the contract including withdrawals, income phase payments, rollovers, exchanges and death benefit proceeds. We report the taxable portion of all distributions to the IRS.

Taxation of Distributions

408(b) IRAs. Generally, all distributions from a traditional IRA, including a SEP under section 408(k), are taxed as received unless either one of the following is true:

- ▷ The distribution is rolled over to a plan eligible to receive rollovers or to another traditional IRA in accordance with the Tax Code; or
- ▷ You made after-tax contributions to the IRA. In this case, the distribution will be taxed according to rules detailed in the Tax Code.

408A Roth IRAs. A qualified distribution from a Roth IRA is not taxed when it is received. A qualified distribution is a distribution:

- ▷ Made after the five-taxable year period beginning with the first taxable year for which a contribution was made to a Roth IRA of the Owner; and
- ▷ Made after you attain age 59 1/2, die, become disabled as defined in the Tax Code, or for a qualified first-time home purchase

If a distribution is not qualified, it will be taxable to the extent of the accumulated earnings. A partial distribution will first be treated as a return of contributions which is not taxable and then as taxable accumulated earnings.

Taxation of Death Benefit Proceeds. In general, payments received by your beneficiaries after your death are taxed in the same manner as if you had received those payments.

10% Penalty Tax

Under certain circumstances, the Tax Code may impose a 10% penalty tax on the taxable portion of any distribution from a 408(b), 408(k) or 408A arrangement.

The 10% penalty tax applies to the taxable portion of a distribution unless certain exceptions apply, including one or more of the following:

- ▷ You have attained age 59 1/2 ;
- ▷ You have become disabled as defined in the Tax Code;
- ▷ You have died and the distribution is made to your beneficiary;
- ▷ The distribution is rolled over in accordance with the Tax Code;
- ▷ The distribution is made in substantially equal periodic payments (at least annually) over your life or life expectancy or the joint lives or joint life expectancies of you and your designated beneficiary;
- ▷ The distribution equals unreimbursed medical expenses that qualify for a deduction as specified in the Tax Code;
- ▷ The distribution is used to pay for health insurance premiums for certain unemployed individuals;
- ▷ The amount withdrawn is for a qualified first-time home purchase; or
- ▷ The amount withdrawn is for qualified higher education expenses.

These exceptions also apply to a distribution from a Roth IRA that is not a qualified distribution or a rollover to a Roth IRA that is not a qualified rollover contribution.

Withholding for Federal Income Tax Liability

Any taxable distributions under the contract are generally subject to withholding. Federal income tax liability rates vary according to the type of distribution and the recipient's tax status. Generally, you or your designated beneficiary may elect not to have tax withheld from distributions.

Non-resident Aliens. If you or your designated beneficiary are a non-resident alien, then any withholding is governed by Tax Code section 1441 based on the individual's citizenship, the country of domicile and treaty status.

Required Minimum Distributions

To avoid certain tax penalties, you and any designated beneficiary must meet the required minimum distributions imposed by the Tax Code. The requirements do not apply to Roth IRA contracts except with regard to death benefits. These rules dictate the following:

- ▷ Start date for distributions;
- ▷ The time period in which all amounts in your account(s) must be distributed; and
- ▷ Distribution amounts.

Start Date. Generally, you must begin receiving distributions from a traditional IRA or SEP IRA by April 1 of the calendar year following the calendar year in which you attain age 70 1/2.

Time Period. We must pay out the entire interest by the state date or begin paying out distributions from the contract over a period not extending beyond one of the following time periods:

- Over your life or the joint lives of you and your designated beneficiary; or
- Over a period not greater than your life expectancy or the joint life expectancies of you and your designated beneficiary.

Distribution Amounts. The amount of each periodic distribution must be calculated in accordance with IRS regulations.

50% Excise Tax. If you fail to receive the minimum required distribution for any tax year, a 50% excise tax may be imposed on the required amount that was not distributed.

Minimum Distribution of Death Benefit Proceeds. The following rules apply to 408(b), 408A and 408(k) arrangements. Different distribution requirements apply if your death occurs:

- On or after the date you begin receiving minimum distributions under the contract; or
- Before you begin receiving such distributions.

If your death occurs on or after the date you begin receiving minimum distributions under the contract, distributions must be made at least as rapidly as under the method in effect at the time of your death. Tax Code section 401(a)(9) provides specific rules for calculating the required minimum distributions at your death.

If your death occurs before you begin receiving minimum distributions under the contract, your entire balance must be distributed by December 31 of the calendar year containing the fifth anniversary of the date of your death. For example, if you die on September 1, 2005, your entire balance must be distributed to the designated beneficiary by December 31, 2010. However, if the distributions begin by December 31 of the calendar year following the calendar year of your death, and you have named a designated beneficiary, then payments may be made over either of the following time-frames:

- Over the life of the designated beneficiary; or
- Over a period not extending beyond the life expectancy of the designated beneficiary.

Start Dates for Spousal Beneficiaries. If the designated beneficiary is your spouse, distributions must begin by the later of the following:

- ▷ December 31 of the calendar year following the calendar year of your death; or
- ▷ December 31 of the calendar year in which you would have attained age 70 1/2.

Special Rule for IRA Spousal Beneficiaries. In lieu of taking a distribution under these rules, a spousal beneficiary may elect to treat the account as his or her own IRA. In such case, the surviving spouse will be able to make contributions to the account, make rollovers from the account, and defer taking a distribution until his or her own start date. The surviving spouse is deemed to have made such an election if the surviving spouse makes a rollover to or from the account, makes additional contributions to the account, or fails to take a distribution within the required time period.

Assignment or Transfer of Contracts

Adverse tax consequences may result if you assign or transfer your interest in the contract to persons other than your spouse incident to a divorce or separate maintenance decree. Anyone contemplating such an assignment or transfer should contact a qualified tax adviser regarding the potential tax effects of such a transaction.

Possible Changes in Taxation

Although the likelihood of legislative change is uncertain, there is always the possibility that the tax treatment of the contracts could change by legislation or other means. It is also possible that any change could be retroactive (that is, effective before the date of the change). You should consult a tax adviser with respect to legislative developments and their effect on the contract.

Taxation of the Company

We are taxed as a life insurance company under the Tax Code. Variable Annuity Account C is not a separate entity from us. Therefore, it is not taxed separately as a "regulated investment company," but is taxed as part of the Company.

We automatically apply investment income and capital gains attributable to the separate account to increase reserves under the contracts. Because of this, under existing federal tax law we believe that any such income and gains will not be taxed. In addition, any foreign tax credits attributable to the separate account will be first used to reduce any income taxes imposed on the separate account before being used by the Company.

In summary, we do not expect that we will incur any federal income tax liability attributable to the separate account and we do not intend to make any provision for such taxes. However, changes in federal tax laws and/or their interpretation may result in our being taxed on income or gains attributable to the separate account. In this case, we may impose a charge against the separate account (with respect to some or all of the contracts) to set aside provisions to pay such taxes. We may deduct this amount from the separate account, including from your account value invested in the subaccounts.

CONTRACT DISTRIBUTION

General. Our subsidiary, ING Financial Advisers, LLC serves as the principal underwriter for the contracts. ING Financial Advisers, LLC, a Delaware limited liability company, is registered as a broker-dealer with the SEC. ING Financial Advisers, LLC is also a member of the National Association of Securities Dealers, Inc. (NASD) and the Securities Investor Protection Corporation. ING Financial Advisers, LLC's principal office is located at 151 Farmington Avenue, Hartford, Connecticut 06156.

The contracts are offered to the public by individuals who are registered representatives of ING Financial Advisers, LLC or other broker-dealers which have entered into a selling arrangement with ING Financial Advisers, LLC. We refer to ING Financial Advisers, LLC and the other broker-dealers selling the contracts as "distributors."

All registered representatives selling the contracts must also be licensed as insurance agents for the Company.

Broker-dealers which have or may enter into selling agreements with ING Financial Advisers, LLC include the following broker-dealers which are affiliated with the Company:

Banknorth Investment Group, Inc.	ING Barings Corp
Baring Investment Services, Inc.	ING Direct Funds Limited
Compulife Investor Services, Inc.	ING DIRECT Securities, Inc.
Directed Services, Inc.	ING Financial Partners, Inc.
Financial Network Investment Corporation	ING Funds Distributor, Inc.
Granite Investment Services, Inc.	Multi-Financial Securities Corporation
Guaranty Brokerage Services, Inc.	PrimeVest
ING America Equities, Inc.	Financial Services, Inc.
	Systematized Benefits Administrators, Inc.

Registered representatives of distributors who solicit sales of the contracts typically receive a portion of the compensation paid to the distributor in the form of commissions or other compensation, depending upon the agreement between the distributor and the registered representative. This compensation, as well as other incentives or payments, is not paid directly by contract owners or the separate account. We intend to recoup this compensation and other sales expenses paid to distributors through fees and charges imposed under the contracts.

Commission Payments. Persons who offer and sell the contracts may be paid a commission. The commissions paid range up to 7% of all amounts contributed to a contract. The Company may also pay asset-based service fees ranging up to 0.50%.

Individual registered representatives may receive all or a portion of compensation paid to their distributor, depending upon the firm's practices. Commissions and annual payments, when combined, could exceed 7% of total premium payments. To the extent permitted by SEC and NASD rules and other applicable laws and regulations, we may also pay or allow other promotional incentives or payments in the form of cash payments or other compensation to distributors, which may require the registered representative to attain a certain threshold of sales of Company products.

We may also enter into special compensation arrangements with certain distributors based on those firms' aggregate or anticipated sales of the contracts or other criteria. These special compensation arrangements will not be offered to all distributors, and the terms of such arrangements may differ among distributors based on various factors. Any such compensation payable to a distributor will not result in any additional direct charge to you by us.

Some sales personnel may receive various types of non-cash compensation as special sales incentives, including trips, and we may also pay for some sales personnel to attend educational and/or business seminars. Any such compensation will be paid in accordance with SEC and NASD rules. Management personnel of the Company, and of its affiliated broker-dealers, may receive additional compensation if the overall amount of investments in funds advised by the Company or its affiliates meets certain target levels or increases over time. Compensation for certain management personnel, including sales management personnel, may be enhanced if the overall amount of investments in the contracts and other products issued or advised by the Company or its affiliates increases over time. Certain sales management personnel may also receive compensation that is a specific percentage of the commissions paid to distributors or of purchase payments received under the contracts.

In addition to direct cash compensation for sales of contracts described above, distributors may also be paid additional compensation or reimbursement of expenses for their efforts in selling contracts to you and other customers. These amounts may include:

- Wholesaling fees calculated as a percentage of the commissions paid to distributors or of purchase payments received under the contracts;
- Marketing allowances;
- Education and training allowances to facilitate our attendance at certain educational and training meetings to provide information and training about our products, including holding training programs at our expense;
- Sponsorship payments to support attendance at meetings by registered representatives who sell our products;
- Reimbursement for the cost of attendance by registered representatives at conventions that we sponsor;
- Loans or advances of commissions in anticipation of future receipt of premiums (a form of lending to registered representatives). These loans may have advantageous terms, such as reduction or elimination of the interest charged on the loan and/or forgiveness of the principal amount of the loan, which may be conditioned on contract sales.

We pay dealer concessions, wholesaling fees, overrides, bonuses, other allowances and benefits and the costs of all other incentives or training programs from our resources, which include the fees and charges imposed under the contracts.

The following is a list of the top 25 selling firms that, during 2004, received the most compensation, in the aggregate, from us in connection with the sale of registered variable annuity contracts issued by the Company, ranked by total dollars received.

- | | |
|---------------------------------------|--|
| 1) Lincoln Investment Planning Inc. | 13) Cadaret Grant & Co., Inc. |
| 2) Symetra Investment Services, Inc. | 14) Proequities, Inc. |
| 3) SunAmerica Securities, Inc. | 15) Investment Professionals, Inc. |
| 4) Securities America, Inc. | 16) Jefferson Pilot Securities Corporation |
| 5) ING Financial Partners, Inc. | 17) McGinn, Smith & Co., Inc. |
| 6) Financial Network Investment Corp. | 18) Linsco/Private Ledger Corp. |
| 7) Investacorp Inc. | 19) Queens Road Securities |
| 8) Huckin Financial Group | 20) A.G. Edwards & Sons |
| 9) National Planning Corporation | 21) Horan Securities, Inc. |
| 10) Walnut Street Securities, Inc. | 22) Lincoln Financial Advisors Corporation |
| 11) NIA Securities, L.L.C. | 23) Securities Service Network, Inc. |
| 12) MML Investors Services, Inc. | 24) Woodbury Financial Services, Inc. |
| | 25) M Holdings Securities, Inc. |

If the amounts paid to ING Financial Advisers, LLC, were included, ING Financial Advisers, LLC would be at the top of the list.

This is a general discussion of the types and levels of compensation paid by us for the sale of our variable annuity contracts. It is important for you to know that the payment of volume or sales-based compensation to a distributor or registered representative may provide that registered representative a financial incentive to promote our contracts over those of another Company, and may also provide a financial incentive to promote one of our contracts over another.

The names of the distributor and the registered representative responsible for your account are stated in your application materials.

Other Topics

The Company

We issue the contracts described in this prospectus and are responsible for providing each contract's insurance and annuity benefits.

We are a stock life insurance company organized under the insurance laws of the State of Connecticut in 1976 and an indirect subsidiary of ING Groep N.V. ("ING"), a global financial institution active in the fields of insurance, banking and asset management. Through a merger, our operations include the business of Aetna Variable Annuity Life Insurance Company (formerly known as Participating Annuity Life Insurance Company, an Arkansas life insurance company organized in 1954). Prior to May 1, 2002, the Company was known as Aetna Life Insurance and Annuity Company.

We are engaged in the business of issuing life insurance and annuities. Our principal executive offices are located at:

151 Farmington Avenue
Hartford Connecticut 06156

Variable Annuity Account C

We established Variable Annuity Account C (the separate account) under Connecticut Law in 1976 as a continuation of the separate account established in 1974 under Arkansas Law by Aetna Variable Annuity Life Insurance Company. The separate account was established as a segregated asset account to fund our variable annuity contracts. The separate account is registered as a unit investment trust under the Investment Company Act of 1940. It also meets the definition of "separate account" under the federal securities laws.

The separate account is divided into subaccounts. The subaccounts invest directly in shares of a pre-assigned fund.

Although we hold title to the assets of the separate account, such assets are not chargeable with the liabilities of any other business that we conduct. Income, gains or losses of the separate account are credited to or charged against the assets of the separate account without regard to other income, gains or losses of the Company. All obligations arising under the contracts are obligations of the Company.

Payment Delay or Suspension

We reserve the right to suspend or postpone the date of any payment of benefits or values under the following circumstances:

- ▷ On any valuation date when the New York Stock Exchange is closed (except customary holidays or weekends or when trading on the New York Stock Exchange is restricted);
- ▷ When an emergency exists as determined by the SEC so that disposal of the securities held in the subaccounts is not reasonably practicable or it is not reasonably practicable to determine the value of the subaccount's assets; or
- ▷ During any other periods the SEC permits for the protection of investors.

The conditions under which restricted trading or an emergency exists shall be determined by the rules and regulations of the SEC.

Performance Reporting

We may advertise different types of historical performance for the subaccounts including:

- ▷ Standardized average annual total returns; and
- ▷ Non-standardized average annual total returns.

We may also advertise certain ratings, rankings or other information related to the Company, the subaccounts or the funds.

Standardized Average Annual Total Returns. We calculate standardized average annual total returns according to a formula prescribed by the SEC. This shows the percentage return applicable to \$1,000 invested in the subaccount over the most recent month-end, one, five and ten-year periods. If the investment option was not available for the full period, we give a history from the date money was first received in that option under the separate account or from the date the fund was first available under the separate account. As an alternative to providing the most recent month-end performance, we may provide a phone number, website or both where these returns may be obtained. Standardized average annual total returns reflect deduction of all recurring charges during each period (i.e., maintenance fees (if any), mortality and expense risk charges, administrative expense charges (if any) ING GET Fund guarantee charges (if any) and any applicable early withdrawal charges).

Non-Standardized Average Annual Total Returns. We calculate non-standardized average annual total returns in a similar manner as that stated above, except we may include returns that do not reflect the deduction of any applicable early withdrawal charge. Some non-standardized returns may also exclude the effect of a maintenance fee. If we reflected these charges in the calculation, they would decrease the level of performance reflected by the calculation. Non-standardized returns may also include performance from the fund's inception date, if that date is earlier than the one we use for standardized returns.

Voting Rights

Each of the subaccounts holds shares in a fund and each is entitled to vote at regular and special meetings of that fund. Under our current view of applicable law, we will vote the shares for each subaccount as instructed by persons having a voting interest in the subaccount. We will vote shares for which instructions have not been received in the same proportion as those for which we received instructions. Each person who has a voting interest in the separate account will receive periodic reports relating to the funds in which he or she has an interest, as well as any proxy materials and a form on which to give voting instructions. Voting instructions will be solicited by a written communication at least 14 days before the meeting.

The number of votes (including fractional votes) you are entitled to direct will be determined as of the record date set by any fund you invest in through the subaccounts.

- ▷ During the accumulation phase the number of votes is equal to the portion of your account value invested in the fund, divided by the net asset value of one share of that fund.
- ▷ During the income phase the number of votes is equal to the portion of reserves set aside for the contract's share of the fund, divided by the net asset value of one share of that fund.

Contract Modification

We may modify the contract when we deem an amendment appropriate by providing you written notice 30 days before the effective date of the change. The most likely reason for a change to the contract would be to ensure compliance with applicable law. Certain changes will require the approval of appropriate state or federal regulatory authorities.

Involuntary Terminations

1992 and 1994 Contracts: Following the completion of two contract years in which no purchase payments have been made, the Company reserves the right to pay the contract's current value to you if that value is less than \$1,500, provided the Company gives you 90 days written notice. Such value paid may not utilize the reinvestment privilege. The full value payable to you will not be reduced by any early withdrawal charge, and amounts withdrawn from the Guaranteed Interest Account, if applicable, will not receive a reduced rate of interest. Amounts withdrawn from the Guaranteed Interest Account will receive a guaranteed effective annual yield to the date of contract termination as if the amounts had remained in the Guaranteed Interest Account until the end of a guaranteed term, see Appendix I. This provision does not apply if you have initiated income phase payments.

2004 Contracts: Subject to state regulatory approval, following the completion of three contract years in which no purchase payments have been made, the Company reserves the right to pay the contract's current value to you if that value is less than \$2,000, provided the Company gives you 90 days written notice. Such value paid may not utilize the reinvestment privilege. The full value payable to you will not be reduced by any early withdrawal charge. Amounts withdrawn from the Guaranteed Accumulation Account will receive the greater of (a) the aggregate MVA amount from all guaranteed terms prior to the end of those terms; or (b) the applicable portion of your account value in the Guaranteed Accumulation Account. This provision does not apply if you have initiated income phase payments.

Regulatory Matters

As with many financial services companies, the Company and its affiliates have received informal and formal requests for information from various state and federal governmental agencies and self-regulatory organizations in connection with inquiries and investigations of the products and practices of the financial services industry. In each case, the Company and its affiliates have been and are providing full cooperation.

Legal Matters and Proceedings

We are not aware of any pending legal proceedings which involve the separate account as a party

We are, or may be in the future, a defendant in various legal proceedings in connection with the normal conduct of our insurance operations. Some of these cases may seek class action status and may include a demand for punitive damages as well as for compensatory damages. In the opinion of management, the ultimate resolution of any existing legal proceeding is not likely to have a material adverse effect on our ability to meet our obligations under the contracts.

ING Financial Advisers, LLC, the principal underwriter and distributor of the contracts (the "distributor"), is a party to threatened or pending lawsuits/arbitration that generally arise from the normal conduct of business. Suits against the distributor sometimes include claims for substantial compensatory, consequential or punitive damages and other types of relief. In a number of pending cases, claims have been made that a former registered representative of the distributor converted client funds to the representatives' personal use. ING Financial Advisers, LLC is not involved in any legal proceeding which, in the opinion of management, is likely to have a material adverse effect on its ability to distribute the contracts.

Contents of the Statement of Additional Information

The Statement of Additional Information (SAI) contains more specific information on the separate account and the contract, as well as the financial statements of the separate account and the Company. A list of the contents of the SAI is set forth below:

General Information and History

Variable Annuity Account C

Offering and Purchase of Contracts

Income Phase Payments

Sales Material and Advertising

Independent Registered Public Accounting Firm

Financial Statements of the Separate Account

Consolidated Financial Statements of ING Life Insurance and Annuity Company

You may request an SAI by calling the Company at the number listed in "Contract Overview-Questions: Contacting the Company."

Appendix I

Guaranteed Interest Account

(Offered under 1992 and 1994 contracts only, subject to regulatory approval)

The Guaranteed Interest Account (GIA) is an investment option available during the accumulation phase. Amounts allocated to GIA are held in a nonunitized separate account of the Company, as described below.

General Disclosure. Interests in GIA have not been registered with the SEC in reliance on exemptions under the Securities Act of 1933, as amended. Disclosure in this prospectus regarding GIA, may, however, be subject to certain generally applicable provisions of the federal securities laws relating to the accuracy and completeness of such statements. Disclosure in this appendix regarding GIA has not been reviewed by the SEC.

Overview. Amounts that you invest in GIA will earn a guaranteed interest rate if amounts are left in GIA for the specified period of time. Interest is credited daily at a rate that will provide the guaranteed effective yield by the end of the stated period of time. If amounts are withdrawn or transferred before the end of a stated period of time (except if pursuant to the Company's termination of the contract, see "Other Topics - Involuntary Terminations"), we will pay a reduced rate of interest, but never less than the minimum stated in the contract.

During a stated period, you may apply all or a portion of your account value to any or all available guaranteed terms within the short-term and long-term classifications.

- ▷ Short-Term Classification-Three years or less
- ▷ Long-Term Classification-Ten years or less, but greater than three years

As a guaranteed term matures, assets accumulating under GIA may be (a) transferred to a new guaranteed term, (b) transferred to the other available investment options, or (c) withdrawn. Amounts withdrawn may be subject to an early withdrawal charge and/or tax liabilities.

Allocations to a Nonunitized Separate Account of the Company. Amounts allocated to long-term classifications of GIA and amounts allocated to short-term classifications of GIA will be deposited in a nonunitized separate account. To the extent provided in the contract, the assets of the separate account are not chargeable with liabilities resulting from any other business of the Company. Income, gains and losses of the separate account are credited to or charged against the separate account without regard to other income, gains or losses of the Company.

Mortality and Expense Risk Charge. We make no deductions from the credited interest rate for mortality and expense risks; these risks are considered in determining the credited interest rate.

Transfers. Transfers are permitted from guaranteed terms of one classification to available guaranteed terms of another classification. We will apply a reduced rate of interest to amounts transferred prior to the end of a guaranteed term. Transfers of GIA values due to a maturity are not subject to a reduced rate of interest.

Income Phase. By notifying us at least 30 days before income phase payments begin, you may elect to have amounts that have been accumulating under GIA transferred to one or more of the subaccounts currently available during the income phase to provide variable income phase payments. GIA cannot be used as an investment option during the income phase.

Reinvestment Privilege. Any amounts reinvested in GIA will be applied to the current deposit period. Amounts are proportionately reinvested to the classifications in the same manner as they were allocated before the withdrawal.

Appendix II

Fixed Account

General Disclosure.

- ▷ The Fixed Account is an investment option available during the accumulation phase under the contracts.
- ▷ Amounts allocated to the Fixed Account are held in the Company's general account which supports insurance and annuity obligations.
- ▷ Interests in the Fixed Account have not been registered with the SEC in reliance on exemptions under the Securities Act of 1933, as amended.
- ▷ Disclosure in this prospectus regarding the Fixed Account may be subject to certain generally applicable provisions of the federal securities laws relating to the accuracy and completeness of the statements.
- ▷ Disclosure in this appendix regarding the Fixed Account has not been reviewed by the SEC.
- ▷ Additional information about this option may be found in the contract.

Interest Rates.

- ▷ The Fixed Account guarantees that amounts allocated to this option will earn the minimum interest rate specified in the contract. We may credit a higher interest rate from time to time, but the rate we credit will never fall below the guaranteed minimum specified in the contract. Amounts applied to the Fixed Account will earn the interest rate in effect at the time money is applied. Amounts in the Fixed Account will reflect a compound interest rate as credited by us. The rate we quote is an annual effective yield. Among other factors, the safety of the interest rate guarantees depends upon the claims-paying ability of the Company.
- ▷ Our determination of credited interest rates reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets. Under this option, we assume the risk of investment gain or loss by guaranteeing the amounts you allocate to this option and promising a minimum interest rate and income phase payment.

Withdrawals. Under certain emergency conditions, we may defer payment of any withdrawal for up to six months or as provided by federal law. Additionally, if allowed by state law, we may pay withdrawals in equal payments with interest, over a period not to exceed 60 months when:

- (a) The Fixed Account withdrawal value exceeds \$100,000 (\$250,000 for 1992 contracts); or
- (b) The sum of the current Fixed Account withdrawal and total of all Fixed Account withdrawals within the past 12 calendar months exceeds 20% of the amount in the Fixed Account on the day before the current withdrawal.

During the payment period, the interest rate credited to amounts held in the Fixed Account will be determined in the manner set forth in the contract. In no event will the interest rate be less than the guaranteed minimum stated in the contract.

Charges. We do not make deductions from amounts in the Fixed Account to cover mortality and expense risks. We consider these risks when determining the credited rate. If you make a withdrawal from amounts in the Fixed Account, an early withdrawal charge may apply. See "Fees."

Transfers. During the accumulation phase, you may transfer account dollars from the Fixed Account to any other available investment option. We may vary the dollar amount that you are allowed to transfer, but it will never be less than 10% of your account value held in the Fixed Account. Under certain contracts, the 10% minimum is assessed on the account value as of January 1 of a calendar year.

Additionally, your account value remaining in the Fixed Account may be transferred in its entirety to any other investment option if one of the following applies:

- (a) Your account value in the Fixed Account is \$2,000 or less; or
- (b) You transferred the maximum amount allowed from the Fixed Account in the last four consecutive calendar years and no additional payments have been allocated to the Fixed Account during that same time period.

Income Phase. By notifying us at least 30 days before income phase payments begin, you may elect to have amounts transferred to one or more of the subaccounts available during the income phase to provide variable payments. The Fixed Account is not available as an investment option during the income phase.

Appendix III

Guaranteed Accumulation Account

(For contracts issued on or after April 1, 2004, subject to regulatory approval of the contract)

The Guaranteed Accumulation Account is a fixed interest option that may be available during the accumulation phase under the contracts. This appendix is only a summary of certain facts pertaining to the Guaranteed Accumulation Account. Review the Guaranteed Accumulation Account prospectus before investing in this option.

The Guaranteed Accumulation Account is not available in the states of Maryland and Washington.

General Disclosure. Amounts that you invest in the Guaranteed Accumulation Account will earn a guaranteed interest rate if amounts are left in the Guaranteed Accumulation Account for the specified period of time. If you withdraw or transfer those amounts before the specified period of time has elapsed, we may apply a market value adjustment, which may be positive or negative.

When you decide to invest money in the Guaranteed Accumulation Account, you will want to contact your sales representative or our Home Office to learn:

- ▷ The interest rate we will apply to the amounts that you invest in the Guaranteed Accumulation Account. We change this rate periodically, so be certain that you know what rate we guarantee on the day your account dollars are invested into the Guaranteed Accumulation Account.
- ▷ The period of time your account dollars need to remain in the Guaranteed Accumulation Account in order to earn that rate. You are required to leave your account dollars in the Guaranteed Accumulation Account for a specified period of time (guaranteed term), in order to earn the guaranteed interest rate.

Deposit Periods. A deposit period is the time during which we offer a specific interest rate if you deposit dollars for a certain guaranteed term. To have a particular interest rate and guaranteed term apply to your account dollars, you must invest them during the deposit period for which that rate and term are offered.

Interest Rates. We guarantee different interest rates, depending upon when account dollars are invested in the Guaranteed Accumulation Account. The interest rate we guarantee is an annual effective yield; that means that the rate reflects a full year's interest. We credit interest daily at a rate that will provide the guaranteed annual effective yield over one year. The guaranteed interest rate will never be less than the rate stated in the contract.

Fees and Other Deductions. If all or a portion of your account value in the Guaranteed Accumulation Account is withdrawn, you may incur the following:

- ▷ Market Value Adjustment (MVA)-as described in this appendix and in the Guaranteed Accumulation Account prospectus;
- ▷ Tax Penalties and/or Tax Withholding. See "Taxation;"
- ▷ Early Withdrawal Charge. See "Fees;" or
- ▷ Maintenance Fee. See "Fees."

We do not make deductions from amounts in the Guaranteed Accumulation Account to cover mortality and expense risks. Rather, we consider these risks when determining the credited rate.

Market Value Adjustment (MVA). If you withdraw or transfer your account value from the Guaranteed Accumulation Account before the guaranteed term is completed, an MVA may apply. The MVA reflects the change in the value of the investment due to changes in interest rates since the date of deposit. The MVA may be positive or negative.

- ▷ If interest rates at the time of withdrawal have increased since the date of deposit, the value of the investment decreases and the MVA will be negative. This could result in your receiving less than the amount you paid into the Guaranteed Accumulation Account.
- ▷ If interest rates at the time of withdrawal have decreased since the date of deposit, the value of the investment increases and the MVA will be positive.

Guaranteed Terms. The guaranteed term is the period of time account dollars must be left in the Guaranteed Accumulation Account in order to earn the guaranteed interest rate specified for that guaranteed term. We offer different guaranteed terms at different times. Check with your sales representative or our Home Office to learn the details about the guaranteed term(s) currently being offered. In general we offer the following guaranteed terms:

- ▷ Short Term-three years or fewer; and
- ▷ Long Term-ten years or less, but greater than three years.

At the end of a guaranteed term you may:

- ▷ Transfer dollars to a new guaranteed term;
- ▷ Transfer dollars to other available investment options; or
- ▷ Withdraw dollars.

Deductions may apply to withdrawals. See "Fees and Other Deductions" in this appendix.

Transfers. Generally, account dollars invested in the Guaranteed Accumulation Account may be transferred among guaranteed terms offered through the Guaranteed Accumulation Account, and/or to other investment options offered through the contract. However, transfers may not be made during the deposit period in which your account dollars are invested in the Guaranteed Accumulation Account or for 90 days after the close of that deposit period. We will apply an MVA to transfers made before the end of a guaranteed term.

The Income Phase. The Guaranteed Accumulation Account can not be used as an investment option during the income phase, however, by making a request in good order to our Home Office at least 30 days in advance, you may elect to transfer your Guaranteed Accumulation Account dollars to any of the subaccounts available during the income phase.

Reinvestment Privilege. If amounts are withdrawn from the Guaranteed Accumulation Account and then reinvested in the Guaranteed Accumulation Account, we will apply the reinvested amount to the current deposit period. This means that the guaranteed annual interest rate and guaranteed terms available on the date of reinvestment will apply. Amounts will be reinvested proportionately in the same way as they were allocated before withdrawal. Your account value will not be credited for any negative MVA that was deducted at the time of withdrawal.

APPENDIX IV

Projected Schedule of ING GET U.S. Core Portfolio Offerings

	<i>Offering Dates</i>	<i>Guarantee Dates</i>
ING GET U.S. Core Portfolio - Series 8	03/09/05 - 06/07/05	06/08/05 - 06/07/12
ING GET U.S. Core Portfolio - Series 9	06/08/05 - 09/06/05	09/07/05 - 09/06/12
ING GET U.S. Core Portfolio - Series 10	09/07/05 - 12/05/05	12/06/05 - 12/05/12
ING GET U.S. Core Portfolio - Series 11	12/06/05 - 03/01/06	03/02/06 - 02/28/13
ING GET U.S. Core Portfolio - Series 12	03/02/06 - 05/31/06	06/01/06 - 05/30/13

Appendix V

Description of Underlying Funds

List of Fund Name Changes

Current Fund Name	Former Fund Name
ING American Century Large Company Value Portfolio	ING Salomon Brothers Investors Value Portfolio
ING Fundamental Research Portfolio	ING Aeltus Enhanced Index Portfolio
ING VP Intermediate Bond Portfolio	ING VP Bond Portfolio

The investment results of the mutual funds (funds) are likely to differ significantly and there is no assurance that any of the funds will achieve their respective investment objectives. You should consider the investment objectives, risks and charges, and expenses of the funds carefully before investing. Please refer to the fund prospectuses for additional information. Shares of the funds will rise and fall in value and you could lose money by investing in the funds. Shares of the funds are not bank deposits and are not guaranteed, endorsed or insured by any financial institution, the Federal Deposit Insurance Corporation or any other government agency. Except as noted, all funds are diversified, as defined under the Investment Company Act of 1940. Fund prospectuses may be obtained free of charge at the address and telephone number listed in "Contract Overview - Questions," by accessing the SEC's web site or by contacting the SEC Public Reference Room.

Certain funds offered under the contracts have investment objectives and policies similar to other funds managed by the fund's investment adviser. The investment results of a fund may be higher or lower than those of other funds managed by the same adviser. There is no assurance and no representation is made that the investment results of any fund will be comparable to those of another fund managed by the same investment adviser.

Fund Name	Investment Adviser/ Subadviser	Investment Objective(s)/Summary of Principal Investment Strategies
AIM Variable Insurance Funds - AIM V.I. Capital Appreciation Fund (Series I shares)	A I M Advisors, Inc.	Seeks growth of capital. Seeks to meet its objective by investing principally in common stocks of companies the portfolio managers believe are likely to benefit from new or innovative products, services or processes as well as those that have experienced above-average, long-term growth in earnings and have excellent prospects for future growth.
AIM Variable Insurance Funds - AIM V.I. Core Equity Fund (Series I shares)	A I M Advisors, Inc.	Seeks growth of capital. Seeks to meet its objective by investing, normally, at least 80% of net assets in equity securities, including convertible securities, of established companies that have long-term above-average growth in earnings, and growth companies that the portfolio managers believe have the potential for above-average growth in earnings.
AIM Variable Insurance Funds - AIM V.I. Growth Fund (Series I shares)	A I M Advisors, Inc.	Seeks growth of capital. Seeks to meet its investment objective by investing principally in seasoned and better capitalized companies considered to have strong earnings momentum. May also invest up to 25% of total assets in foreign securities.

Fund Name	Investment Adviser/ Subadviser	Investment Objective(s)/Summary of Principal Investment Strategies
AIM Variable Insurance Funds - AIM V.I. Premier Equity Fund (Series I shares)	A I M Advisors, Inc.	Seeks to achieve long-term growth of capital with a secondary objective of income. Seeks to meet its objectives by investing, normally, at least 80% of net assets, plus the amount of any borrowings for investment purposes, in equity securities, including convertible securities.
AllianceBernstein Variable Products Series Fund, Inc. – AllianceBernstein Growth and Income Portfolio (Class A Shares)	Alliance Capital Management L.P.	Seeks reasonable current income and reasonable opportunity for appreciation through investments primarily in dividend-paying common stocks of good quality. Invests primarily in dividend-paying common stocks of large, well-established "blue chip" companies.
Calvert Variable Series, Inc. – Calvert Social Balanced Portfolio	Calvert Asset Management Company, Inc. Subadviser: New Amsterdam Partners LLC and SsgA Funds Management, Inc.	Seeks to achieve a competitive total return through an actively managed portfolio of stocks, bonds and money market instruments which offer income and capital growth opportunity and which satisfy the investment and social criteria. Typically invests about 60% of its assets in stocks and 40% in bonds or other fixed-income investments. Stocks investments are primarily common stock in large-cap companies, while the fixed-income investments are primarily a wide variety of investment grade bonds.
Fidelity® Variable Insurance Products - Fidelity® VIP Contrafund® Portfolio (Initial Class)	Fidelity Management & Research Company Subadvisers: Fidelity Management & Research (U.K.) Inc.; Fidelity Management & Research (Far East) Inc.; Fidelity Investments Japan Limited; FMR Co., Inc.	Seeks long-term capital appreciation. Normally invests primarily in common stocks of companies whose value the Portfolio's investment adviser believes is not fully recognized by the public.
Fidelity® Variable Insurance Products - Fidelity® VIP Equity- Income Portfolio (Initial Class)	Fidelity Management & Research Company Subadviser: FMR Co., Inc.	Seeks reasonable income. Also considers the potential for capital appreciation. Seeks to achieve a yield which exceeds the composite yield on the securities comprising the Standard & Poor's 500 SM Index. Normally invests at least 80% of total assets in income-producing equity securities (which tends to lead to investments in large cap "value" stocks).
Fidelity® Variable Insurance Products – Fidelity® VIP Growth Portfolio (Initial Class)	Fidelity Management & Research Company Subadviser: FMR Co., Inc.	Seeks to achieve capital appreciation. Normally invests primarily in common stocks of companies the investment adviser believes have above-average growth potential (often called "growth" stocks).

Fund Name	Investment Adviser/ Subadviser	Investment Objective(s)/Summary of Principal Investment Strategies
Fidelity® Variable Insurance Products - Fidelity® VIP Overseas Portfolio (Initial Class)	Fidelity Management & Research Company Subadvisers: Fidelity Management & Research (U.K.) Inc.; Fidelity Management & Research (Far East) Inc.; Fidelity International Investment Advisors (U.K.) Limited; Fidelity Investments Japan Limited; FMR Co., Inc.	Seeks long-term growth of capital. Normally invests at least 80% of assets in non-U.S. securities, primarily in common stocks.
Franklin Templeton Variable Insurance Products Trust - Franklin Small Cap Value Securities Fund (Class 2 Shares)	Franklin Advisory Services, LLC	A <i>nondiversified</i> fund that seeks long-term total return. Normally invests at least 80% of net assets in investments of small capitalization companies that have market capitalization values not exceeding \$2.5 billion, at the time of purchase. Invests mainly in equity securities of companies that the fund's manager believes are selling below the underlying value of their assets or their private market value (what a sophisticated investor would pay for the entire company).
ING Partners, Inc. – ING American Century Large Company Value Portfolio (Service Class)	ING Life Insurance and Annuity Company Subadviser: American Century Investment Management, Inc. (American Century)	Seeks long-term capital growth; income is a secondary objective. Under normal market conditions, invests at least 80% of its assets in equity securities of large capitalization companies. American Century considers large capitalization companies to be companies in the Russell 1000 Index. Under normal market conditions, intends to keep at least 80% of assets in U. S. equity securities at all times, including common stock, preferred stock, and equity-equivalent securities, such as debt securities and preferred stock convertible into common stock, and stock or stock index futures contracts.
ING Partners, Inc. - ING American Century Select Portfolio (Initial Class)	ING Life Insurance and Annuity Company Subadviser: American Century Investment Management, Inc. (American Century)	Seeks long-term capital appreciation. Invests in securities of companies American Century believes will increase in value over time, using a growth investment strategy developed by American Century. Generally invests in larger companies, although may purchase securities of companies of any size. Can also invest in foreign companies.

Fund Name	Investment Adviser/ Subadviser	Investment Objective(s)/Summary of Principal Investment Strategies
ING Partners, Inc. – ING American Century Small Cap Value Portfolio (Service Class)	ING Life Insurance and Annuity Company Subadviser: American Century Investment Management, Inc. (American Century)	Seeks long-term growth of capital; income is a secondary objective. Under normal circumstances, invests at least 80% of net assets in equity securities of small-capitalization companies. American Century considers small-capitalization companies to include those with a market capitalization no larger than that of the largest company in the S&P SmallCap 600 Index or the Russell 2000 Index. Under normal market conditions, intends to keep at least 80% of assets in U. S. equity securities at all times, including common stock, preferred stock, and equity-equivalent securities, such as debt securities and preferred stock convertible into common stock, and stock or stock index futures contracts.
ING Partners, Inc. - ING Baron Small Cap Growth Portfolio (Service Class)	ING Life Insurance and Annuity Company Subadviser: BAMCO, Inc.	Seeks capital appreciation. Invests primarily (at least 80% of total assets under normal circumstances) in securities of smaller companies with market values under \$2.5 billion as measured at the time of purchase.
ING Partners, Inc. – ING Fundamental Research Portfolio (Service Class)	ING Life Insurance and Annuity Company Subadviser: ING Investment Management Co.	Seeks to maximize total return through investments in a diversified portfolio of common stocks and securities convertible into common stock. Prior to July 5, 2005, invests at least 80% of assets in stocks included in the S&P 500 Index. Effective July 5, 2005, will invest at least 65% of total assets in common stocks and securities convertible into common stocks. May invest principally in common stocks having significant potential for capital appreciation emphasizing stocks of larger companies. May also invest a portion of assets in stocks of mid-sized companies, and up to 25% of assets in stocks of foreign issuers, depending upon market conditions. May also invest in derivative instruments.

Fund Name	Investment Adviser/ Subadviser	Investment Objective(s)/Summary of Principal Investment Strategies
ING Variable Insurance Trust - ING GET U.S. Core Portfolio	ING Investments, LLC Subadviser: ING Investment Management Co.	Seeks to achieve maximum total return and minimal exposure of the Series' assets to a market value loss by participating, to the extent possible, in favorable equity market performance during the guarantee period. The Series will not implement an "investment strategy" in any conventional sense. Rather, the Series' asset allocation strategy seeks to optimize the exposure of the Series to the Equity Component while protecting Series' assets. The Series invests at least 80% of its assets in equities and fixed-income securities issued by U.S. companies or the U.S. government or its agencies. Assets allocated to the Equity Component may be reduced or eliminated in order to conserve assets at a level equal to or above the present value of the Guarantee. During the Guarantee Period, the Series' assets will be allocated between the: Equity Component , consisting of common stocks included in the Standard & Poor's 500 Composite Stock Price Index ("S&P 500 Index"), futures contracts on the S&P 500 Index, and when the Equity Component's market value is \$5 million or less, investments in exchange traded funds ("ETF"s) that can reasonably be expected to have at least a 95% correlation ratio with the S&P 500 Index, in S&P 500 Index futures, or in a combination of S&P 500 Index futures and ETFs, subject to any limitation on the Series' investments in such securities; and the Fixed Component , consisting primarily of short- to intermediate-duration U.S. government securities.
ING Partners, Inc. – ING Goldman Sachs® Capital Growth Portfolio* (Service Class) * Goldman Sachs® is a registered service mark of Goldman, Sachs & Co., and it is used by agreement with Goldman, Sachs & Co.	ING Life Insurance and Annuity Company Subadviser: Goldman Sachs Asset Management, L.P. (GSAM)	Seeks long-term growth of capital. Invests, under normal circumstances, at least 90% of total assets in equity investments that are considered by GSAM to have long-term capital appreciation potential.
ING Partners, Inc. - ING JPMorgan Fleming International Portfolio (Initial Class)	ING Life Insurance and Annuity Company Subadviser: J.P. Morgan Fleming Asset Management (London) Ltd.	Seeks long-term growth of capital. Invests primarily (at least 65% of total assets) in the equity securities of foreign companies that the subadviser believes have higher growth potential and which are attractively valued. Will normally invest in a number of issuers in several countries other than the U.S. and will invest in securities in both developed and developing markets. May invest in debt securities issued by foreign and U.S. companies, including non-investment grade debt securities.

Fund Name	Investment Adviser/ Subadviser	Investment Objective(s)/Summary of Principal Investment Strategies
ING Partners, Inc. – ING JPMorgan Mid Cap Value Portfolio (Service Class)	ING Life Insurance and Annuity Company Subadviser: J.P. Morgan Investment Management Inc.	Seeks growth from capital appreciation. A <i>nondiversified</i> Portfolio that invests primarily (at least 80% of net assets under normal circumstances) in a broad portfolio of common stocks of companies with market capitalizations of \$1 billion to \$20 billion at the time of purchase that the subadviser believes to be undervalued. May invest in other equity securities, which include preferred stocks, convertible securities and foreign securities, which may take the form of depository receipts. Also may use derivatives.
ING Investors Trust - ING Julius Baer Foreign Portfolio (Class S shares)	Directed Services, Inc. Subadviser: Julius Baer Investment Management, LLC	Seeks long-term growth of capital. Under normal conditions, invests in a wide variety of international equity securities issued through the world, normally excluding the United States. Normally invests at least 80% of its assets in equity securities tied economically to countries outside the United States.
ING Partners, Inc. - ING MFS Capital Opportunities Portfolio (Initial Class)	ING Life Insurance and Annuity Company Subadviser: Massachusetts Financial Services Company (MFS)	Seeks capital appreciation. Invests primarily (at least 65% of net assets) in common stocks and related securities, such as preferred stocks, convertible securities and depository receipts focusing on companies that MFS believes have favorable growth prospects and attractive valuations based on current and expected earnings or cash flows. May invest in foreign securities (including emerging market securities).
ING Investors Trust - ING MFS Total Return Portfolio (Class S shares)	Directed Services, Inc. Subadviser: Massachusetts Financial Services Company	Seeks above-average income (compared to a portfolio entirely invested in equity securities) consistent with the prudent employment of capital. Secondly seeks reasonable opportunity for growth of capital and income. Invests in a combination of equity and fixed income securities.
ING Partners, Inc. – ING OpCap Balanced Value Portfolio (Service Class)	ING Life Insurance and Annuity Company Subadviser: OpCap Advisors LLC	Seeks capital growth, and secondarily, investment income. Under normal market conditions, invests at least 25% of total assets in equity securities, including common stocks and preferred stocks and expects to have between 50% to 75% of total assets invested in equities. Also invests at least 25% of total assets in fixed-income senior securities including bonds, debentures, notes, participation interests in loans, convertible securities and U.S. government securities.

Fund Name	Investment Adviser/ Subadviser	Investment Objective(s)/Summary of Principal Investment Strategies
ING Partners, Inc. - ING Oppenheimer Global Portfolio (Initial Class)	ING Life Insurance and Annuity Company Subadviser: OppenheimerFunds, Inc.	Seeks capital appreciation. Invests mainly in common stocks of companies in the U.S. and foreign countries. Can invest without limit in foreign securities in any country, including countries with emerging markets. Currently emphasizes investments in developed markets such as the United States, Western European countries and Japan. May invest in companies of any size, but currently focuses its investments in mid- and large-cap companies. Normally will invest in at least three countries (one of which may be the United States).
ING Partners, Inc. - ING Oppenheimer Strategic Income Portfolio (Initial Class)	ING Life Insurance and Annuity Company Subadviser: OppenheimerFunds, Inc.	Seeks a high level of current income principally derived from interest on debt securities. Invests mainly in debt securities of issuers in three market sectors: foreign governments and companies; U.S. government securities; and lower-grade high-yield securities of U.S. and foreign companies. Debt securities typically include short, medium and long-term foreign government and U.S. government bonds and notes; collateralized mortgage obligations; other mortgage-related securities and asset-backed securities; participation interests in loans; "structured" notes; lower-grade, high-yield domestic and foreign corporate debt obligations; and "zero-coupon" or "stripped" securities.
ING Partners, Inc. - ING PIMCO Total Return Portfolio (Service Class)	ING Life Insurance and Annuity Company Subadviser: Pacific Investment Management Company LLC	Seeks maximum total return, consistent with capital preservation and prudent investment management. Invests under normal circumstances at least 65% of net assets plus borrowings for investment purposes in a diversified portfolio of fixed income instruments of varying maturities. Invests primarily in investment grade debt securities, but may invest up to 10% of its assets in high yield securities ("junk bonds") rated B or higher by Moody's or S&P, or, if unrated, determined by the subadviser to be of comparable quality. May invest up to 30% of assets in securities denominated in foreign currencies, and may invest beyond this limit in U.S. dollar-denominated securities of foreign issuers.
ING Partners, Inc. - ING Salomon Brothers Aggressive Growth Portfolio (Initial Class)	ING Life Insurance and Annuity Company Subadviser: Salomon Brothers Asset Management Inc	Seeks long-term growth of capital. Invests primarily (at least 80% of net assets under normal circumstances) in common stocks and related securities, such as preferred stock, convertible securities and depositary receipts, of emerging growth companies. May invest in foreign securities (including emerging market securities).

Fund Name	Investment Adviser/ Subadviser	Investment Objective(s)/Summary of Principal Investment Strategies
ING Partners, Inc. – ING Salomon Brothers Fundamental Value Portfolio (Service Class)	ING Life Insurance and Annuity Company Subadviser: Salomon Brothers Asset Management Inc	Seeks capital appreciation. A <i>nondiversified</i> Portfolio that invests primarily in common stocks and common stock equivalents, such as preferred stocks and securities convertible into common stocks, of companies the subadviser believes are undervalued in the marketplace. Generally invests in securities of large, well-known companies, but may also invest a significant portion of assets in securities of small to medium-sized companies when the subadviser believes smaller companies offer more attractive value opportunities.
ING Partners, Inc. - ING Salomon Brothers Large Cap Growth Portfolio (Initial Class)	ING Life Insurance and Annuity Company Subadviser: Salomon Brothers Asset Management Inc	Seeks long-term capital appreciation. Normally invests at least 80% of net assets in equity securities of large-cap companies and related investments. For this 80% policy, large cap companies are considered to be companies with market capitalizations at the time of purchase similar to companies in the Russell 1000 Index. Equity securities include U.S. exchange traded and over-the-counter common stocks, debt securities convertible into equity securities, and warrants and rights relating to equity securities.
ING Partners, Inc. – ING Solution 2015 Portfolio (Service Class)	ING Life Insurance and Annuity Company	Until the day prior to the Target Date, the Portfolio will seek to provide total return consistent with an asset allocation targeted at retirement in approximately 2015. On the Target Date, the investment objective will be to seek to provide a combination of total return and stability of principal consistent with an asset allocation targeted to retirement. Invests in a combination of Underlying Funds which are active and passive U.S. stock, international stock, U.S. bond and other fixed-income investments using asset allocation strategies designed for investors expecting to retire around the year 2015. Subject to SEC approval, may also invest a portion of its assets in insurance company fixed contracts.

Invests in a combination of Underlying Funds which are active and passive U.S. stock, international stock, U.S. bond and other fixed-income investments using asset allocation strategies designed for investors expecting to retire soon or are already retired. Subject to SEC approval, may also invest a portion of its assets in insurance company fixed contracts.
ING Partners, Inc. - ING T. Rowe Price Diversified Mid Cap Growth Portfolio (Initial Class)	ING Life Insurance and Annuity Company Subadviser: T. Rowe Price Associates, Inc.	Seeks long-term capital appreciation. Normally invests at least 80% of total assets in equity securities of companies having a market capitalization within the range of companies in the Russell MidCap Growth Index or the Standard & Poor's MidCap 400 Index focusing on mid-size companies whose earnings are expected to grow at a rate faster than the average company.

Fund Name	Investment Adviser/ Subadviser	Investment Objective(s)/Summary of Principal Investment Strategies
ING Investors Trust - ING T. Rowe Price Equity Income Portfolio (Class S shares)	Directed Services, Inc. Subadviser: T. Rowe Price Associates, Inc.	Seeks substantial dividend income as well as long-term growth of capital. Normally invests at least 80% of its assets in common stocks, with 65% in the common stocks of well-established companies paying above-average dividends. May also invest in convertible securities, warrants and preferred stocks, foreign securities, debt securities including high-yield debt securities and future and options.
ING Partners, Inc. - ING T. Rowe Price Growth Equity Portfolio (Initial Class)	ING Life Insurance and Annuity Company Subadviser: T. Rowe Price Associates, Inc.	Seeks long-term capital growth, and secondarily, increasing dividend income. Invests primarily (at least 80% of net assets under normal circumstances) in common stocks. Concentrates its investments in growth companies that have the ability to pay increasing dividends through strong cash flows and whose rates of earnings growth are considered above average. May also purchase foreign stocks, hybrid securities, futures and options. Investments in foreign securities are limited to 30% of total assets.
ING Partners, Inc. - ING UBS U.S. Large Cap Equity Portfolio (Initial Class)	ING Life Insurance and Annuity Company Subadviser: UBS Global Asset Management (Americas) Inc.	Seeks long-term growth of capital and future income. Under normal circumstances, invests at least 80% of net assets (plus borrowings for investment purposes, if any) in equity securities of U.S. large capitalization companies. Investments in equity securities may include dividend-paying securities, common stock and preferred stock.
ING Partners, Inc. - ING Van Kampen Comstock Portfolio (Service Class)	ING Life Insurance and Annuity Company Subadviser: Van Kampen* * Morgan Stanley Investment Management Inc. does business in certain instances (including in its role as subadviser to the Portfolio) under the name "Van Kampen"	Seeks capital growth and income. Invests in a portfolio of equity securities, including common stocks, preferred stocks and securities convertible into common and preferred stocks. May invest up to 25% of total assets in securities of foreign issuers and may purchase and sell certain derivative instruments, such as options, futures and options on futures, for various portfolio management purposes.

Fund Name	Investment Adviser/ Subadviser	Investment Objective(s)/Summary of Principal Investment Strategies

Fund Name	Investment Adviser/ Subadviser	Investment Objective(s)/Summary of Principal Investment Strategies
ING Variable Portfolios, Inc. - ING VP Global Science and Technology Portfolio (Class I Shares)	ING Investments, LLC Subadviser: BlackRock Advisors, Inc.	Seeks long-term capital appreciation. Normally invests at least 80% of net assets in equity securities issued by science and technology companies in all market capitalization ranges. Will invest primarily in equity securities of U.S. and non-U.S. companies selected for their rapid and sustainable growth potential from the development, advancement and use of science and/or technology. May invest up to 25% of its net assets in stocks of issuers in emerging market countries. May also invest in preferred stock, initial public offerings, Rule 144A securities and derivative instruments including foreign currency contracts. May from time to time invest more than 25% of its assets in securities whose issuers are located in a single foreign country.
ING Variable Funds - ING VP Growth and Income Portfolio (Class I Shares)	ING Investments, LLC Subadviser: ING Investment Management Co.	Seeks to maximize total return through investments in a diversified portfolio of common stocks and securities convertible into common stock. Under normal market conditions, invests at least 65% of total assets in common stocks that the subadviser believes have significant potential for capital appreciation or income growth or both. May invest up to 25% of its total assets in stocks of foreign issuers. May invest in derivatives.
ING Variable Portfolios, Inc. - ING VP Growth Portfolio (Class I Shares)	ING Investments, LLC Subadviser: ING Investment Management Co.	Seeks growth of capital through investment in a diversified portfolio consisting primarily of common stocks and securities convertible into common stocks believed to offer growth potential. Under normal market conditions, invests primarily in common stocks and securities convertible into common stock of large U.S. companies. May invest in derivatives and foreign securities.
ING Variable Portfolios, Inc. - ING VP Index Plus LargeCap Portfolio (Class I Shares)	ING Investments, LLC Subadviser: ING Investment Management Co.	Seeks to outperform the total return performance of the Standard & Poor's 500 Composite Stock Price Index (S&P 500 Index), while maintaining a market level of risk. Invests at least 80% of assets in stocks included in the S&P 500 Index. The subadviser's objective is to overweight those stocks in the S&P 500 Index that it believes will outperform the index and underweight (or avoid altogether) those stocks that it believes will underperform the index. May invest in derivatives.

Fund Name	Investment Adviser/ Subadviser	Investment Objective(s)/Summary of Principal Investment Strategies
ING Variable Portfolios, Inc. - ING VP Index Plus MidCap Portfolio (Class I Shares)	ING Investments, LLC Subadviser: ING Investment Management Co.	Seeks to outperform the total return performance of the Standard & Poor's MidCap 400 Index (S&P MidCap 400 Index), while maintaining a market level of risk. Invests at least 80% of assets in stocks included in the S&P MidCap 400 Index. The subadviser's objective is to overweight those stocks in the S&P MidCap 400 Index that it believes will outperform the index and underweight (or avoid altogether) those stocks that it believes will underperform the index. May invest in derivatives.
ING Variable Portfolios, Inc. - ING VP Index Plus SmallCap Portfolio (Class I Shares)	ING Investments, LLC Subadviser: ING Investment Management Co.	Seeks to outperform the total return performance of the Standard and Poor's SmallCap 600 Index (S&P SmallCap 600 Index), while maintaining a market level of risk. Invests at least 80% of assets in stocks included in the S&P SmallCap 600 Index. The subadviser's objective is to overweight those stocks in the S&P SmallCap 600 Index that it believes will outperform the index and underweight (or avoid altogether) those stocks that it believes will underperform the index. May invest in derivatives.
ING VP Intermediate Bond Portfolio (Class I Shares)	ING Investments, LLC Subadviser: ING Investment Management Co.	Seeks to maximize total return consistent with reasonable risk, through investment in a diversified portfolio consisting primarily of debt securities. It is anticipated that capital appreciation and investment income will both be major factors in achieving total return. Under normal market conditions, the Portfolio invests at least 80% of its assets in a portfolio of bonds, including but not limited to corporate, government and mortgage bonds, which, at the time of investment, are rated investment grade or have an equivalent rating by a nationally recognized statistical rating organization, or of comparable quality if unrated. May also invest in: preferred stocks; high quality money market instruments; municipal bonds; debt securities of foreign issuers; mortgage- and asset-backed securities; and options and futures contracts involving securities, securities indices and interest rates. Although the portfolio may invest in high yield debt securities rated below investment grade, it seeks to maintain a minimum average portfolio quality of at least investment grade.

Fund Name	Investment Adviser/ Subadviser	Investment Objective(s)/Summary of Principal Investment Strategies
ING Variable Portfolios, Inc. - ING VP International Equity Portfolio (Class I Shares)	ING Investments, LLC Subadviser: ING Investment Management Co.	Seeks long-term capital growth primarily through investment in a diversified portfolio of common stocks principally traded in countries outside of the United States. The Portfolio will not target any given level of current income. Under normal market conditions, invests at least 80% of assets in equity securities. At least 65% of assets will normally be invested in securities principally traded in three or more countries outside of the U.S and countries with emerging securities markets. These securities may include common stocks as well as securities convertible into common stock. May employ hedging strategies to protect it from adverse effects on the U.S. dollar. May invest in derivatives.
ING Variable Products Trust – ING VP International Value Portfolio (Class I shares)	ING Investments, LLC Subadviser: ING Investment Management Co.	Seeks capital appreciation. Under normal conditions, invests at least 65% of net assets in equity securities of issuers located in countries outside of the U.S. Invests primarily in companies with a large market capitalization, but may also invest in mid- and small-sized companies. Generally invests in common and preferred stocks, warrants and convertible securities. May invest in companies located in countries with emerging securities markets when the fund's subadviser believes they present attractive investment opportunities. May invest in government debt securities of developed foreign countries. Also may invest up to 35% of its assets in securities of U.S. issuers, including investment-grade government and corporate debt securities.
ING Variable Products Trust – ING VP MidCap Opportunities Portfolio (Class I shares) or (Class S shares)	ING Investments, LLC Subadviser: ING Investment Management Co.	Seeks long-term capital appreciation. Normally invests at least 80% of assets in the common stocks of mid-sized U.S. companies that the sub-adviser believes have above average prospects for growth. For this Portfolio, mid-size companies are those with market capitalizations that fall within the range of companies in the Russell MidCap Growth Index.
ING VP Money Market Portfolio (Class I Shares)	ING Investments, LLC Subadviser: ING Investment Management Co.	Seeks to provide high current return, consistent with preservation of capital and liquidity, through investment in high-quality money market instruments. Invests in a diversified portfolio of high-quality fixed income securities denominated in U.S. dollars, with short remaining maturities. May invest in certain obligations of foreign banks. There is no guarantee that the ING VP Money Market Subaccount will have a positive or level return.

Fund Name	Investment Adviser/ Subadviser	Investment Objective(s)/Summary of Principal Investment Strategies
ING Variable Products Trust - ING VP Real Estate Portfolio (Class I shares)	ING Investments, LLC Subadviser: ING Clarion Real Estate Securities L.P.	Seeks total return. Normally invests at least 80% of assets in common and preferred stock of U.S. real estate investment trusts (REITs) and real estate companies. May invest in companies of any market capitalization, but generally will not invest in companies with market capitalizations below \$100 million at the time of purchase. May invest in initial public offerings.
ING Variable Portfolios, Inc. - ING VP Small Company Portfolio (Class I Shares)	ING Investments, LLC Subadviser: ING Investment Management Co.	Seeks growth of capital primarily through investment in a diversified portfolio of common stocks and securities of companies with smaller market capitalizations. Under normal market conditions, invests at least 80% off assets in common stocks of small-capitalization companies. May invest in foreign securities and derivatives.
ING Variable Products Trust – ING VP SmallCap Opportunities Portfolio (Class I shares)	ING Investments, LLC Subadviser: ING Investment Management Co.	Seeks long-term capital appreciation. Normally invests at least 80% of assets in the common stock of smaller, lesser-known U.S. companies that the sub-adviser believes have above average prospects for growth. For this Portfolio, smaller companies are those with market capitalizations that fall within the range of companies in the Russell 2000 Growth Index.
ING Strategic Allocation Portfolios, Inc. - ING VP Strategic Allocation Balanced Portfolio (Class I Shares)	ING Investments, LLC Subadviser: ING Investment Management Co.	Seeks to provide total return (i.e., income and capital appreciation, both realized and unrealized). Managed for investors seeking a balance between income and capital appreciation who generally have an investment horizon exceeding 10 years and a moderate level of risk tolerance. Under normal market conditions, allocates assets among several classes of equities, fixed-income securities (including up to 15% of total assets in high-yield instruments) and money market instruments. The benchmark portfolio is 60% equities, 35% fixed income and 5% money market instruments under neutral market conditions.

Fund Name	Investment Adviser/ Subadviser	Investment Objective(s)/Summary of Principal Investment Strategies
ING Strategic Allocation Portfolios, Inc. - ING VP Strategic Allocation Growth Portfolio (Class I Shares)	ING Investments, LLC Subadviser: ING Investment Management Co.	Seeks to provide capital appreciation. Managed for investors seeking capital appreciation who generally have an investment horizon exceeding 15 years and a high level of risk tolerance. Under normal market conditions, allocates assets among several classes of equities, fixed-income securities (including up to 15% of total assets in high-yield instruments) and money market instruments. The benchmark portfolio is 80% equities and 20% fixed income under neutral market conditions.
ING Strategic Allocation Portfolios, Inc. - ING VP Strategic Allocation Income Portfolio (Class I Shares)	ING Investments, LLC Subadviser: ING Investment Management Co.	Seeks to provide total return consistent with preservation of capital. Managed for investors primarily seeking total return consistent with capital preservation who generally have an investment horizon exceeding 5 years and a low level of risk tolerance. Under normal market conditions, allocates assets among several classes of equities, fixed-income securities (including up to 15% of total assets in high-yield instruments) and money market instruments. The benchmark portfolio is 35% equities, 55% fixed income and 10% money market instruments under neutral market conditions.
ING Variable Portfolios, Inc. - ING VP Value Opportunity Portfolio (Class I Shares)	ING Investments, LLC Subadviser: ING Investment Management Co.	Seeks growth of capital primarily through investment in a diversified portfolio of common stocks. Under normal market conditions, invests at least 65% of total assets in common stocks and American Depositary Receipts (ADR's). May invest the remaining 35% of its assets in other types of securities including foreign securities and securities of smaller companies.
Lord Abbett Series Fund, Inc. – Growth and Income Portfolio (Class VC Shares)	Lord, Abbett & Co. LLC (Lord Abbett)	Seeks long-term growth of capital and income without excessive fluctuations in market value. Primarily purchases equity securities of large, seasoned, U.S. and multinational companies that Lord Abbett believes are undervalued. Under normal circumstances, will invest at least 80% of net assets in equity securities of large companies which are defined as companies having a market capitalization at the time of purchase that falls within the market capitalization range of companies in the Russell 1000 Index, a widely used benchmark for large-cap stock performance. Equity securities may include common stocks, preferred stocks, convertible securities, warrants, and similar instruments.

Fund Name	Investment Adviser/ Subadviser	Investment Objective(s)/Summary of Principal Investment Strategies
Lord Abbett Series Fund, Inc. - Mid-Cap Value Portfolio (Class VC Shares)	Lord, Abbett & Co. LLC (Lord Abbett)	Seeks capital appreciation through investments, primarily in equity securities, which are believed to be undervalued in the marketplace. Normally invests at least 80% of net assets, plus the amount of any borrowings for investment purposes, in equity securities of mid-sized companies which are defined as companies having a market capitalization at the time of purchase that falls within the market capitalization range of companies in the Russell Mid Cap Index, a widely used benchmark for mid-cap stock performance. The Fund will provide shareholders with at least 60 days' notice of any change in this policy. Equity securities may include common stocks, convertible bonds, convertible preferred stocks, warrants and similar instruments.
Oppenheimer Variable Account Funds – Oppenheimer Main Street Small Cap Fund[®]/VA	OppenheimerFunds, Inc.	Seeks capital appreciation. Invests mainly in common stocks of small-capitalization U.S. companies that the Fund's investment manager believes have favorable business trends or prospects. Under normal market conditions, will invest at least 80% of net assets (including any borrowings for investment purposes) in securities of companies having a small market capitalization.
PIMCO VIT - Real Return Portfolio (Administrative Class)	Pacific Investment Management Company LLC (PIMCO)	Seeks maximum real return, consistent with preservation of real capital and prudent investment management. Invests primarily in investment grade securities, but may invest up to 10% of its assets in high yield securities ("junk bonds") rated B or higher by Moody's or S&P, or, if unrated, determined by PIMCO to be of comparable quality.
Pioneer Variable Contracts Trust - Pioneer Equity Income VCT Portfolio (Class I Shares)	Pioneer Investment Management, Inc.	Seeks current income and long-term growth of capital from a portfolio consisting primarily of income producing equity securities of U.S. corporations. Normally, the portfolio invests at least 80% of its total assets in income producing equity securities of U.S. issuers. The income producing equity securities in which the portfolio may invest include common stocks, preferred stocks and interests in real estate investment trusts (REITs). The remainder of the portfolio may be invested in debt securities, most of which are expected to be convertible into common stocks.

Fund Name	Investment Adviser/ Subadviser	Investment Objective(s)/Summary of Principal Investment Strategies
Pioneer Variable Contracts Trust – Pioneer Fund VCT Portfolio (Class I Shares)	Pioneer Investment Management, Inc.	Seeks reasonable income and capital growth. Invests in a broad list of carefully selected, reasonably priced securities rather than in securities whose prices reflect a premium resulting from their current market popularity. The portfolio invests the major portion of its assets in equity securities, primarily of U.S. issuers. For purposes of the portfolio's investment policies, equity securities include common stocks, convertible debt and other equity instruments, such as depositary receipts, warrants, rights, interests in real estate investment trusts (REITs) and preferred stocks.
Pioneer Variable Contracts Trust – Pioneer High Yield VCT Portfolio (Class I Shares)	Pioneer Investment Management, Inc.	Seeks to maximize total return through a combination of income and capital appreciation. Normally, the portfolio invests at least 80% of its total assets in below investment grade (high yield) debt securities and preferred stocks.
Pioneer Variable Contracts Trust - Pioneer Mid Cap Value VCT Portfolio (Class I Shares)	Pioneer Investment Management, Inc.	Seeks capital appreciation by investing in a diversified portfolio of securities consisting primarily of common stocks. Normally, invests at least 80% of total assets in equity securities of mid-size companies, that is, companies with market values within the range of market values of companies included in the Russell Midcap [®] Value Index.
Wanger Advisors Trust - Wanger Select	Columbia Wanger Asset Management, L.P.	A nondiversified fund that seeks long-term growth of capital. Invests generally in the stocks of medium- to larger-size U.S. companies. Invests in a limited number of companies (between 20-40) with market capitalizations under \$20 billion, offering the potential to provide above-average growth over time.
Wanger Advisors Trust - Wanger U.S. Smaller Companies	Columbia Wanger Asset Management, L.P.	Seeks long-term growth of capital. Under normal circumstances, invests at least 80% of net assets (plus any borrowings for investment purposes), at market value at the time of investment, in companies with total stock market capitalizations of \$5 billion or less at the time of initial purchase. Under normal market conditions, invests at least 80% of its assets (plus any borrowings for investment purposes) in domestic securities.

APPENDIX VI

CONDENSED FINANCIAL INFORMATION

Except for subaccounts which did not commence operations as of December 31, 2004, the following tables give (1) the accumulation unit value (AUV) at the beginning of the period, (2) the AUV at the end of the period and (3) the total number of accumulation units outstanding at the end of the period for each subaccount of Variable Annuity Account C available under the contracts for the indicated periods. For those subaccounts that commenced operations during the period ended December 31, 2004 the "Value at beginning of period" shown is the value at first date of investment. For those subaccounts that ended operations during the period ended December 31, 2004 the "Value at end of period" shown is the value at the last date of investment.

GENERAL INFORMATION AND HISTORY

ING Life Insurance and Annuity Company (the Company, we, us, our) issues the contract described in the prospectus and is responsible for providing each contract's insurance and annuity benefits. We are a stock life insurance company organized under the insurance laws of the State of Connecticut in 1976 and an indirect subsidiary of ING Groep N.V., a global financial institution active in the fields of insurance, banking and asset management.

Through a merger, our operations include the business of Aetna Variable Annuity Life Insurance Company (formerly known as Participating Annuity Life Insurance Company, an Arkansas life insurance company organized in 1954). Our Home Office is located at 151 Farmington Avenue, Hartford, Connecticut 06156. Prior to May 1, 2002, the Company was known as Aetna Life Insurance and Annuity Company.

As of December 31, 2004, the Company and its subsidiary life company had \$53 billion invested through their products, including \$34 billion in their separate accounts (of which the Company or its management affiliates ING Investment Management Co. and ING Investments, LLC manages or oversees the management of \$19 billion). The Company is ranked based on assets among the top 5% of all life and health insurance companies rated by A.M. Best Company as of July 16, 2004.

In addition to serving as the depositor for the separate account, the Company is a registered investment adviser under the Investment Advisers Act of 1940. We provide investment advice to several of the registered management investment companies offered as variable investment options under the contracts funded by the separate account (see "Variable Annuity Account C" below).

Other than the mortality and expense risk charge and administrative expense charge, if any, described in the prospectus, all expenses incurred in the operations of the separate account are borne by the Company. However, the Company does receive compensation for certain administrative costs or distribution costs from the funds or affiliates of the funds used as funding options under the contract. (See "Fees" in the prospectus.)

The assets of the separate account are held by the Company. The separate account has no custodian. However, the funds in whose shares the assets of the separate account are invested each have custodians, as discussed in their respective prospectuses.

From this point forward, the term "contract(s)" refers only to those offered through the prospectus.

VARIABLE ANNUITY ACCOUNT C

Variable Annuity Account C is a separate account established by the Company for the purpose of funding variable annuity contracts issued by the Company. The separate account is registered with the Securities and Exchange Commission (SEC) as a unit investment trust under the Investment Company Act of 1940, as amended. Purchase payments to accounts under the contract may be allocated to one or more of the subaccounts. Each subaccount invests in the shares of only one of the funds listed below. We may make additions to, deletions from or substitutions of available investment options as permitted by law and subject to the conditions of the contract. The availability of the funds is subject to applicable regulatory authorization. Not all funds are available in all jurisdictions or under all contracts.

The funds currently available under the contract are as follows:

AIM V.I. Capital Appreciation Fund (Series I) AIM V.I. Core Equity Fund (Series I) AIM V.I. Growth Fund (Series I) AIM V.I. (1) This fund has changed its name to the name listed above. See Appendix V – Description of Underlying Funds in the prospectus for a complete list of former and current fund names.

(2) Goldman Sachs® is a registered service mark of Goldman, Sachs & Co., and it is used by agreement with Goldman, Sachs & Co.

Complete descriptions of each of the funds, including their investment objectives, policies, risks and fees and expenses, are contained in the prospectuses and statements of additional information for each of the funds.

OFFERING AND PURCHASE OF CONTRACTS

The Company's subsidiary, ING Financial Advisers, LLC serves as the principal underwriter for the contracts. ING Financial Advisers, LLC, a Delaware limited liability company, is registered as a broker-dealer with the SEC. ING Financial Advisers, LLC is also a member of the National Association of Securities Dealers, Inc., and the Securities Investor Protection Corporation. ING Financial Advisers, LLC's principal office is located at 151 Farmington Avenue, Hartford, Connecticut 06156. The contracts are distributed through life insurance agents licensed to sell variable annuities who are registered representatives of ING Financial Advisers, LLC or of other registered broker-dealers who have entered into sales arrangements with ING Financial Advisers, LLC. The offering of the contracts is continuous. A description of the manner in which contracts are purchased may be found in the prospectus under the sections entitled "Purchase " and "Your Account Value."

Compensation paid to the principal underwriter, ING Financial Advisers, LLC, for the years ending December 31, 2004, 2003, and 2002 amounted to \$33,938,738.36, \$32,306,093, and \$28,823,475, respectively. These amounts reflect compensation paid to ING Financial Advisers, LLC attributable to regulatory and operating expenses associated with the distribution of all registered variable annuity products issued by Variable Annuity Account C of ING Life Insurance and Annuity Company.

INCOME PHASE PAYMENTS

When you begin receiving payments under the contract during the income phase (see "The Income Phase" in the prospectus), the value of your account is determined using accumulation unit values as of the tenth valuation day before the first income phase payment is due. Such value (less any applicable premium tax charge) is applied to provide income phase payments to you in accordance with the income phase payment option and investment options elected.

The annuity option tables found in the contract show, for each option, the amount of the first income phase payment for each \$1,000 of value applied. Thereafter, variable income phase payments fluctuate as the annuity unit value(s) fluctuates with the investment experience of the selected investment option(s). The first income phase payment and subsequent income phase payments also vary depending upon the assumed net investment rate selected (3.5% or 5% per annum). Selection of a 5% rate causes a higher first income phase payment, but income phase payments will increase thereafter only to the extent that the investment performance of the subaccounts you selected is greater than 5% annually, after deduction of fees. Income phase payments would decline if the performance was less than 5%. Use of the 3.5% assumed rate causes a lower first income phase payment, but subsequent income phase payments would increase more rapidly or decline more slowly as changes occur in the performance of the subaccounts selected.

When the income phase begins, the annuitant is credited with a fixed number of annuity units (which does not change thereafter) in each of the designated investment options. This number is calculated by dividing (a) by (b), where (a) is the amount of the first income phase payment based on a particular investment option, and (b) is the then current annuity unit value for that investment option. As noted, annuity unit values fluctuate from one valuation to the next (see "Your Account Value" in the prospectus); such fluctuations reflect changes in the net investment factor for the appropriate subaccount(s) (with a ten valuation lag which gives the Company time to process income phase payments) and a mathematical adjustment which offsets the assumed net investment rate of 3.5% or 5% per annum.

The operation of all these factors can be illustrated by the following hypothetical example. These procedures will be performed separately for the investment options selected during the income phase.

EXAMPLE:

Assume that, at the date income phase payments are to begin, there are 3,000 accumulation units credited under a particular contract and that the value of an accumulation unit for the tenth valuation prior to retirement was \$13.650000. This produces a total value of \$40,950.

Assume also that no premium tax charge is payable and that the annuity table in the contract provides, for the income phase payment option elected, a first monthly variable income phase payment of \$6.68 per \$1000 of value applied; the annuitant's first monthly income phase payment would thus be \$40.950 multiplied by \$6.68, or \$273.55.

Assume then that the value of an annuity unit upon the valuation on which the first income phase payment was due was \$13.400000. When this value is divided into the first monthly income phase payment, the number of annuity units is determined to be 20.414. The value of this number of annuity units will be paid in each subsequent month.

Suppose there were 30 days between the initial and second payment valuation dates. If the net investment factor with respect to the appropriate subaccount is 1.0032737 as of the tenth valuation preceding the due date of the second monthly income phase payment, multiplying this factor by $.9971779^{30}$ (to take into account 30 days of the assumed net investment rate of 3.5% per annum built into the number of annuity units determined above) produces a result of 1.000442. This is then multiplied by the annuity unit value for the prior valuation (assume such value to be \$13.400000) to produce an annuity unit value of \$13.405928 for the valuation occurring when the second income phase payment is due. The second monthly income phase payment is then determined by multiplying the number of annuity units by the current annuity unit value, or 20.414 times \$13.405928, which produces an income phase payment of \$273.67.

*If an assumed net investment rate of 5% is elected, the appropriate factor to take into account such assumed rate would be $.9959968^{30}$.

SALES MATERIAL AND ADVERTISING

We may include hypothetical illustrations in our sales literature that explain the mathematical principles of dollar cost averaging, compounded interest, tax deferred accumulation, and the mechanics of variable annuity contracts. We may also discuss the difference between variable annuity contracts and other types of savings or investment products such as personal savings accounts and certificates of deposit.

We may distribute sales literature that compares the percentage change in accumulation unit values for any of the subaccounts to established market indices such as the Standard & Poor's 500 Stock Index and the Dow Jones Industrial Average or to the percentage change in values of other management investment companies that have investment objectives similar to the subaccount being compared.

We may publish in advertisements and reports, the ratings and other information assigned to us by one or more independent rating organizations such as A.M. Best Company, Duff & Phelps, Standard & Poor's Corporation and Moody's Investors Service, Inc. The purpose of the ratings is to reflect our financial strength and/or claims-paying ability. We may also quote ranking services such as Morningstar's Variable Annuity/Life Performance Report and Lipper's Variable Insurance Products Performance Analysis Service (VIPPAS), which rank variable annuity or life subaccounts or their underlying funds by performance and/or investment objective. We may categorize the underlying funds in terms of the asset classes they represent and use such categories in marketing materials for the contracts. We may illustrate in advertisements the performance of the underlying funds, if accompanied by performance which also shows the performance of such funds reduced by applicable charges under the separate account. We may also show in advertisements the portfolio holdings of the underlying funds, updated at various intervals. From time to time, we will quote articles from newspapers and magazines or other publications or reports such as The Wall Street Journal, Money magazine, USA Today and The VARDS Report.

We may provide in advertising, sales literature, periodic publications or other materials information on various topics of interest to current and prospective contract holders. These topics may include the relationship between sectors of the economy and the economy as a whole and its effect on various securities markets, investment strategies and techniques (such as value investing, market timing, dollar cost averaging, asset allocation, constant ratio transfer and account rebalancing), the advantages and disadvantages of investing in tax-deferred and taxable investments, customer profiles and hypothetical purchase and investment scenarios, financial management and tax and retirement planning, and investment alternatives to certificates of deposit and other financial instruments, including comparison between the contract and the characteristics of and market for such financial instruments.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Ernst & Young LLP, 600 Peachtree Street, Suite 2800, Atlanta, GA 30308 is the independent registered public accounting firm for the separate account and for the Company. The services provided to the separate account include primarily the audit of the separate account's financial statements.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Account's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Account's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures also included confirmation of securities owned as of December 31, 2004, by correspondence with the transfer agents. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of each of the Divisions comprising the ING Life Insurance and Annuity Company Variable Annuity Account C at December 31, 2004, and the results of their operations and changes in their net assets for the periods disclosed in the financial statements, in conformity with U.S. generally accepted accounting principles.

ING LIFE INSURANCE AND ANNUITY COMPANY
VARIABLE ANNUITY ACCOUNT C
Notes to Financial Statements

1. Organization

ING Life Insurance and Annuity Company Variable Annuity Account C (the “Account”) was established by ING Life Insurance and Annuity Company (“ILIAC” or the “Company”) to support the operations of variable annuity contracts (“Contracts”). The Company is a wholly-owned subsidiary of ING America Insurance Holdings, Inc. (“ING AIH”), an insurance holding company domiciled in the State of Delaware. ING AIH is a wholly-owned subsidiary of ING Groep, N.V., a global financial services holding company based in The Netherlands.

The Account is registered as a unit investment trust with the Securities and Exchange Commission under the Investment Company Act of 1940, as amended. ILIAC provides for variable accumulation and benefits under the Contracts by crediting annuity considerations to one or more divisions within the Account or the fixed separate account, which is not part of the Account, as directed by the Contractowners. The portion of the Account’s assets applicable to Contracts will not be charged with liabilities arising out of any other business ILIAC may conduct, but obligations of the Account, including the promise to make benefit payments, are obligations of ILIAC. The assets and liabilities of the Account are clearly identified and distinguished from the other assets and liabilities of ILIAC.

At December 31, 2004, the Account had 145 investment divisions (the “Divisions”), 81 of which invest in independently managed mutual funds and 64 of which invest in mutual funds managed by affiliates, either ING Investments, LLC or ING Life Insurance and Annuity Company. The assets in each Division are invested in shares of a designated fund (“Fund”) of various investment trusts (the “Trusts”). Investment Divisions at December 31, 2004 and related Trusts are as follows:

AIM Growth Series:	Baron Asset Fund**
AIM Health Sciences Fund - Investor Class**	Baron Growth Fund*

ING GET Fund - Series E
ING GET Fund - Series G

ING T. Rowe Price Diversified Mid Cap Growth
Portfolio - Initial Class
ING VP Growth Opportunities Portfolio - Class I

2. Significant Accounting Policies

The following is a summary of the significant accounting policies of the Account:

Use of Estimates

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investments

Investments are made in shares of a Fund and are recorded at fair value, determined by the net asset value per share of the respective Fund. Investment transactions in each Fund are recorded on the trade date. Distributions of net investment income and capital gains from each Fund are recognized on the ex-distribution date. Realized gains and losses on redemptions of the shares of the Fund are determined on a first-in, first-out basis. The difference between cost and current market value on the day of measurement is recorded as unrealized appreciation or depreciation of investments.

Federal Income Taxes

Operations of the Account form a part of, and are taxed with, the total operations of ILIAC, which is taxed as a life insurance company under the Internal Revenue Code. Earnings and realized capital gains of the Account attributable to the Contractowners are excluded in the determination of the federal income tax liability of ILIAC.

ING LIFE INSURANCE AND ANNUITY COMPANY
VARIABLE ANNUITY ACCOUNT C

Notes to Financial Statements

Variable Annuity Reserves

Prior to the annuity date, the Contracts are redeemable for the net cash surrender value of the Contracts. The annuity reserves are equal to the aggregate account values of the Contractowners invested in the Account Divisions. Net assets allocated to contracts in the payout period are computed according to the 1983a Individual Annuitant Mortality Table. The assumed investment return is 3.5% unless the Contractowner elects otherwise, in which case the rate may vary from 3.5% to 7%, as regulated by the laws of the respective states. The mortality risk is fully borne by ILIAC and may result in additional amounts being transferred into the Account by ILIAC to cover greater longevity of annuitants than expected. Conversely, if amounts allocated exceed amounts required, transfers may be made to the Company.

3. Charges and Fees

Under the terms of the Contracts, certain charges are allocated to the Contracts to cover ILIAC's expenses in connection with the issuance and administration of the Contracts. Following is a summary of these charges:

Mortality and Expense Risk Charges

ILIAC assumes mortality and expense risks related to the operations of the Account and, in accordance with the terms of the Contracts, deducts a daily charge from the assets of the Account. Daily charges are deducted at annual rates of up to 1.50% of the average daily net asset value of each Division of the Account to cover these risks, as specified in the Contract.

Administrative Charges

A daily charge at an annual rate of up to 0.25% of the assets attributable to the Contracts is deducted, as specified in the Contract, for administrative charges related to the Account.

Contract Maintenance Charges

For certain Contracts, an annual Contract maintenance fee of up to \$30 may be deducted from the accumulation value of Contracts to cover ongoing administrative expenses, as specified in the Contract.

Contingent Deferred Sales Charges

For certain Contracts, a contingent deferred sales charge is imposed as a percentage of each premium payment if the Contract is surrendered or an excess partial withdrawal is taken, and currently ranges up to 7%, as specified in the Contract.

ING LIFE INSURANCE AND ANNUITY COMPANY
VARIABLE ANNUITY ACCOUNT C
Notes to Financial Statements

Premium Taxes

For certain Contracts, premium taxes are deducted, where applicable, from the accumulation value of each Contract. The amount and timing of the deduction depends on the Contractowner's state of residence and currently ranges up to 4.0% of premiums.

4. Related Party Transactions

During the year ended December 31, 2004, management and service fees were paid indirectly to ING Investments, LLC, an affiliate of the Company, in its capacity as investment adviser to the ING GET Fund, ING GNMA Income Fund, ING Intermediate Bond Fund, ING VP Intermediate Bond Portfolio, ING VP Money Market Portfolio, ING VP Balanced Portfolio, Inc., ING Strategic Allocation Portfolios, Inc., ING Variable Funds, ING Variable Insurance Trust, ING Variable Portfolios, Inc., ING VP Emerging Markets Fund, ING VP Natural Resources Trust, ING Strategic Allocation Portfolios, Inc., ING VP Growth and Income Portfolio, ING Variable Products Trust, and ING Real Estate Fund. The annual fee rate ranged from 0.25% to 1.00% of the average net assets of each respective Fund or Fund of the Trust. In addition, management fees were paid to ING Life Insurance and Annuity Company, an affiliate, in its capacity as investment adviser to ING Partners, Inc. The annual fee rate ranged from 0.50% to 0.90% of the average net assets of each respective Fund of the Trust. Management fees were also paid indirectly to Directed Services, Inc., an affiliate of the Company, in its capacity as investment manager to ING Investors Trust. The Fund's advisory agreement provided for a fee at an annual rate ranging from 0.63% to 0.94% of the average net assets of each respective Portfolio.

5. Funds of Funds

The Account had one Lifestyle Fund at December 31, 2004. The Lifestyle Fund invests in other Divisions of the Account (the "Underlying Funds"), as well as in fixed interest divisions, which are not part of the Account. The Lifestyle Fund's percentage ownership in Underlying Funds and fixed interest divisions at December 31, 2004, was as follows:

Underlying Fund	Moderate Allocation
Baron Growth Fund	10%
ING Index Plus MidCap Fund - Class R	10%
ING Intermediate Bond Fund - Class I	15%
ING International SmallCap Growth Fund - Class A	5%
Lord Abbett Affiliated Fund - Class A	10%
The Growth Fund of America® - Class A	15%
Vanguard® 500 Index Fund - Investor Shares	10%
Fixed interest divisions	25%

Notes to Financial Statements

Qualified I

Individual Contracts issued prior to May 1, 1975 in connection with "Qualified Corporate Retirement Plans" established pursuant to Section 401 of the Internal Revenue Code ("Code"); tax-deferred annuity Plans established by the public school systems and tax-exempt organizations pursuant to Section 403(b) of the Code, and certain individual retirement annuity plans established by or on behalf of individuals pursuant to section 408(b) of the Code; individual Contracts issued prior to November 1, 1975 in connection with "H.R. 10 Plans" established by persons entitled to the benefits of the Self-Employed Individuals Tax Retirement Act of 1962, as amended; allocated group Contracts issued prior to May 1, 1975 in connection with qualified corporate retirement plans; and group Contracts issued prior to October 1, 1978 in connection with tax-deferred annuity plans.

Qualified V

Certain group AetnaPlus Contracts issued since August 28, 1992 in connection with "Optional Retirement Plans" established pursuant to Section 403(b) or 401(a) of the Internal Revenue Code.

Qualified VI

Certain group AetnaPlus Contracts issued in connection with tax-deferred annuity plans, Retirement Plus plans and deferred compensation plans since August 28, 1992.

Qualified VII

Certain existing Contracts that were converted to ACES, an administrative system (previously valued under Qualified I).

Qualified VIII

Group AetnaPlus Contracts issued in connection with Tax-Deferred Annuity Plans and Deferred Compensation Plans adopted by state and local governments since June 30, 1993.

Qualified IX

Certain large group Contracts (Jumbo) that were converted to ACES, an administrative system (previously valued under Qualified VI).

Qualified X

Individual retirement annuity and Simplified Employee Pension ("SEP") plans issued or converted to ACES, an administrative system.

(e) As this investment Division was not available until 2004, this data is not meaningful and therefore is not presented

A The Investment Income Ratio represents dividends received by the Division, excluding capital gains distributions, divided by the average net assets.

The recognition of investment income is determined by the timing of the declaration of dividends by the underlying fund in which the Division invests.

B The Expense Ratio considers only the expenses borne directly by the Account and is equal to the mortality and expense charge, as defined in Note 3. Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.

C Total Return is calculated as the change in unit value for each Contract presented in the Statements of Assets and Liabilities. Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.

Report of Independent Registered Public Accounting Firm

The Board of Directors
ING Life Insurance and Annuity Company

We have audited the accompanying consolidated balance sheets of ING Life Insurance and Annuity Company as of December 31, 2004 and 2003, and the related consolidated statements of operations, changes in shareholder's equity, and cash flows for each of the three years in the period ended December 31, 2004. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of ING Life Insurance and Annuity Company as of December 31, 2004 and 2003, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2004, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 1 to the financial statements, the Company changed the accounting principle for goodwill and other intangible assets effective January 1, 2002. As discussed in Note 14 to the financial statements, the Company restated certain amounts presented in the statements of cash flows related to its payables for securities purchased, short-term borrowings, and investment contracts for the years ended December 31, 2003 and 2002.

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amounts in millions, unless otherwise stated)

1. Organization and Significant Accounting Policies

Basis of Presentation

ING Life Insurance and Annuity Company (“ILIAC”), a stock life insurance company domiciled in the state of Connecticut, and its wholly-owned subsidiaries (collectively, the “Company”) are providers of financial products and services in the United States. These consolidated financial statements include ILIAC and its wholly-owned subsidiaries, ING Insurance Company of America (“IICA”), ING Financial Advisers, LLC (“IFA”) and, through February 28, 2002, ING Investment Adviser Holding, Inc. (“IA Holdco”). Until March 30, 2003, ILIAC was a wholly-owned subsidiary of ING Retirement Holdings, Inc. (“HOLDCO”), which was a wholly-owned subsidiary of ING Retirement Services, Inc. (“IRSI”). Until March 30, 2003, IRSI was a wholly-owned subsidiary of Lion Connecticut Holdings Inc. (“Lion”), which in turn was ultimately owned by ING Groep N.V. (“ING”). On March 30, 2003, a series of mergers occurred in the following order: IRSI merged into Lion and HOLDCO merged into Lion. As a result, ILIAC is now a direct, wholly-owned subsidiary of Lion, which in turn is an indirect, wholly-owned subsidiary of ING. ING is a global financial services company based in The Netherlands, with American Depository Shares listed on the New York Stock Exchange under the symbol “ING.”

Description of Business

The Company offers qualified and nonqualified annuity contracts that include a variety of funding and payout options for individuals and employer-sponsored retirement plans qualified under Internal Revenue Code Sections 401, 403, 408 and 457, as well as nonqualified deferred compensation plans. The Company’s products are offered primarily to individuals, pension plans, small businesses and employer-sponsored groups in the health care, government, education (collectively “not-for-profit” organizations), and corporate markets. The Company’s products generally are distributed through pension professionals, independent agents and brokers, third party administrators, banks, dedicated career agents, and financial planners.

Annuity contracts may be deferred or immediate (payout annuities). These products also include programs offered to qualified plans and nonqualified deferred compensation plans that package administrative and record-keeping services along with a variety of investment options, including affiliated and nonaffiliated mutual funds, and variable and fixed investment options. In addition, the Company offers wrapper agreements entered into with retirement plans which contain certain benefit responsive guarantees (i.e. liquidity guarantees of principal and previously accrued interest for benefits paid under the terms of the plan) with respect to portfolios of plan-owned assets not invested with the Company. The Company also offers investment advisory services and pension plan administrative services.

Recently Adopted Accounting Standards

Accounting and Reporting by Insurance Enterprises for Certain Nontraditional Long-Duration Contracts and for Separate Accounts

The Company adopted Statement of Position ("SOP") 03-1, "Accounting and Reporting by Insurance Enterprises for Certain Nontraditional Long-Duration Contracts and for Separate Accounts," on January 1, 2004. SOP 03-1 establishes several new accounting and disclosure requirements for certain nontraditional long-duration contracts and for separate accounts including, among other things, a requirement that assets and liabilities of separate account arrangements that do not meet certain criteria be accounted for as general account assets and liabilities, and that revenues and expenses related to such arrangements, be consolidated with the respective lines in the Consolidated Statements of Operations. In addition, the SOP requires that additional liabilities be established for certain guaranteed death and other benefits and for products with certain patterns of cost of insurance charges. In addition, sales inducements provided to contractowners must be recognized on the Consolidated Balance Sheets separately from deferred acquisition costs and amortized as a component of benefits expense using methodology and assumptions consistent with those used for amortization of deferred policy acquisition costs ("DAC").

The Company evaluated all requirements of SOP 03-1 which resulted in the consolidation of the Separate Account supporting the guarantee option into the General Account. Requirements to establish additional liabilities for minimum guarantee benefits are applicable to the Company; however, the Company's policies on contract liabilities have historically been, and continue to be, in conformity with the newly established requirements. Requirements for recognition of additional liabilities for products with certain patterns of cost of insurance charges are not applicable to the Company. The adoption of SOP 03-1 had no significant effect on the Company's financial position, results of operations, or cash flows.

In the fourth quarter of 2004, the Company implemented Technical Practice Aid 6300.05 – 6300.08, "Q&As Related to the Implementation of SOP 03-1, "Accounting and Reporting by Insurance Enterprises for Certain Nontraditional Long-Duration Contracts and for Separate Accounts" (the "TPA").

The TPA, which was approved in September 2004, provides additional guidance regarding certain implicit assessments that may be used in testing of the base mortality function on contracts, which is performed to determine whether additional liabilities are required in conjunction with SOP 03-1. In addition, the TPA provides additional guidance surrounding the allowed level of aggregation of additional liabilities determined under SOP 03-1. The adoption of the TPA did not have an impact on the Company's financial position, results of operations, or cash flows.

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

The implementation of SOP 03-1 also raised questions regarding the interpretation of the requirements of Statement of Financial Accounting Standards (“FAS”) No. 97, “Accounting and Reporting by Insurance Enterprises for Certain Long-Duration Contracts and for Realized Gains and Losses from the Sale of Investments,” concerning when it is appropriate to record an unearned revenue liability related to the insurance benefit function. To clarify its position, the Financial Accounting Standards Board (“FASB”) issued FASB Staff Position No. FAS 97-1 (“FSP FAS 97-1”), “Situations in Which Paragraphs 17(b) and 20 of FASB Statement No. 97 Permit or Require Accrual of an Unearned Revenue Liability,” effective for fiscal periods beginning subsequent to the date the guidance was issued, June 18, 2004. The Company adopted FSP FAS 97-1 on July 1, 2004 which did not have an impact on the Company’s financial position, results of operations, or cash flows.

The Meaning of Other-Than-Temporary Impairment and its Application to Certain Investments

In March 2004, the Emerging Issues Task Force (“EITF”) reached a final consensus on EITF Issue No. 03-1 (“EITF-03-1”), “The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments,” requiring that a three-step impairment model be applied to securities within its scope. The three-step model is applied on a security-by-security basis as follows:

- Step 1: Determine whether an investment is impaired. An investment is impaired if the fair value of the investment is less than its cost basis.
- Step 2: Evaluate whether an impairment is other-than-temporary.
- Step 3: If the impairment is other-than-temporary, recognize an impairment loss equal to the difference between the investment’s cost and its fair value.

On September 30, 2004, the FASB issued FASB Staff Position No. EITF Issue 03-1-1 (“FSP EITF 03-1-1”), “Effective Date of Paragraphs 10-20 of EITF Issue No. 03-1, ‘The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments,’” which delayed the EITF Issue No. 03-1 original effective date of July 1, 2004 related to steps two and three of the impairment model introduced. The delay is in effect until a final consensus can be reached on such guidance. Despite the delay of the implementation of steps two and three, other-than-temporary impairments are still to be recognized as required by existing guidance.

Earlier consensus reached by the EITF on this issue required that certain quantitative and qualitative disclosures be made for unrealized losses on debt and equity securities that have not been recognized as other-than-temporary impairments. These disclosures were adopted by the Company, effective December 31, 2003, and are included in the Investments footnote.

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

Accounting for Derivative Instruments and Hedging Activities

The Derivative Implementation Group (“DIG”), responsible for issuing guidance on behalf of the FASB for implementation of FAS No. 133, “Accounting for Derivative Instruments and Hedging Activities,” issued Statement No. 133 Implementation Issue No. B36, “Embedded Derivatives: Modified Coinsurance Arrangements and Debt Instruments That Incorporate Credit Risk Exposures That Are Unrelated or Only Partially Related to the Credit Worthiness of the Obligor under Those Instruments” (“DIG B36”). Under this interpretation, modified coinsurance and coinsurance with funds withheld reinsurance agreements as well as other types of receivables and payables where interest is determined by reference to a pool of fixed maturity assets or a total return debt index may be determined to contain embedded derivatives that are required to be bifurcated from the host instrument. The required date of adoption of DIG B36 for the Company was October 1, 2003. The adoption did not have an impact on the Company’s financial position, results of operations, or cash flows.

Variable Interest Entities

In January 2003, the FASB issued FASB Interpretation No. 46, “Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51” (“FIN 46”). In December 2003, the FASB modified FIN 46 to make certain technical revisions and address certain implementation issues that had arisen. FIN 46 provides a new framework for identifying variable interest entities (“VIEs”) and determining when a company should include the assets, liabilities, noncontrolling interests and results of activities of a VIE in its consolidated financial statements.

In general, a VIE is a corporation, partnership, limited-liability corporation, trust, or any other legal structure used to conduct activities or hold assets that either (1) has an insufficient amount of equity to carry out its principal activities without additional subordinated financial support, (2) has a group of equity owners that are unable to make significant decisions about its activities, or (3) has a group of equity owners that do not have the obligation to absorb losses or the right to receive returns generated by its operations.

FIN 46 requires a VIE to be consolidated if a party with an ownership, contractual or other financial interest in the VIE (a variable interest holder) is obligated to absorb a majority of the risk of loss from the VIE’s activities, is entitled to receive a majority of the VIE’s residual returns (if no party absorbs a majority of the VIE’s losses), or both. A variable interest holder that consolidates the VIE is called the primary beneficiary. Upon consolidation, the primary beneficiary generally must initially record all of the VIE’s assets, liabilities, and noncontrolling interests at fair value and subsequently account for the VIE as if it were consolidated based on majority voting interest. FIN 46 also requires

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

disclosures about VIEs that the variable interest holder is required to consolidate and those VIEs it is not required to consolidate but in which it has a significant variable interest.

The Company holds investments in VIEs in the form of private placement securities, structured securities, securitization transactions, and limited partnerships with an aggregate fair value of \$8,489.3 as of December 31, 2004. These VIEs are held by the Company for investment purposes. Consolidation of these investments in the Company's financial statements is not required as the Company is not the primary beneficiary for any of these VIEs. Book value as of December 31, 2004 of \$8,396.1 represents the maximum exposure to loss except for those structures for which the Company also receives asset management fees.

Guarantees

In November 2002, the FASB issued Interpretation No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others" ("FIN 45"), to clarify accounting and disclosure requirements relating to a guarantor's issuance of certain types of guarantees, or groups of similar guarantees, even if the likelihood of the guarantor's having to make any payments under the guarantee is remote. The disclosure provisions are effective for financial statements for fiscal years ended after December 15, 2002. For certain guarantees, the interpretation also requires that guarantors recognize a liability equal to the fair value of the guarantee upon its issuance. This initial recognition and measurement provision is to be applied only on a prospective basis to guarantees issued or modified after December 31, 2002. The Company has performed an assessment of its guarantees and believes that all of its guarantees are excluded from the scope of this interpretation.

Goodwill Impairment

During 2002, the Company adopted FAS No. 142, "Goodwill and Other Intangible Assets." The adoption of this standard resulted in the recognition of an impairment loss of \$2,412.1, net of taxes of \$1,298.8, related to prior acquisitions, recorded retroactive to the first quarter of 2002. Prior quarters of 2002 were restated accordingly. This impairment loss represented the entire carrying amount of goodwill, net of accumulated amortization. This impairment charge is shown as a change in accounting principle on the December 31, 2002 Consolidated Statement of Operations.

New Accounting Pronouncements

In December 2004, the FASB issued FAS No. 123 (revised 2004), "Share-Based Payment" ("FAS 123R"), which requires all share-based payments be recognized in the

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

financial statements based upon the fair value. FAS 123R is effective at the beginning of the first interim or annual period beginning after June 15, 2005. Earlier adoption is encouraged. FAS 123R provides two transition methods, modified-prospective and modified-retrospective.

The modified-prospective method recognizes the grant-date fair value of compensation for new and unvested awards beginning in the fiscal period in which the recognition provisions are first applied. Prior periods are not restated. The modified-retrospective method, entities are allowed to restate prior periods by recognizing the compensation cost in the amount previously reported in the pro forma footnote disclosures as required under FAS No. 123, "Accounting for Stock-Based Compensation."

The Company intends to early adopt the provisions of FAS 123R on January 1, 2005 using the modified-prospective method. The adoption of FAS 123R is not expected to have a material impact on the Company's financial position, results of operations or cash flows. Prior to January 2005, the Company applied the intrinsic value-based provisions set forth in APB Opinion No. 25, "Accounting for Stock Issued to Employees". Under the intrinsic value method, compensation expense is determined on the measurement date, which is the first date on which both the number of shares the employee is entitled to receive and the exercise price are known. Compensation expense, if any, is measured based on the award's intrinsic value, which is the excess of the market price of the stock over the exercise price on the measurement date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from reported results using those estimates.

Reclassifications

Certain reclassifications have been made to prior years financial information to conform to the current year presentation, including a reclassification in the amount of \$9.2, net of tax, from retained earnings to accumulated other comprehensive income as of December 31, 2001 (see footnote 14).

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, money market instruments and other debt issues with a maturity of 90 days or less when purchased.

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

Investments

All of the Company's fixed maturity and equity securities are currently designated as available-for-sale. Available-for-sale securities are reported at fair value and unrealized gains and losses on these securities are included directly in shareholder's equity, after adjustment for related changes in deferred policy acquisition costs ("DAC"), value of business acquired ("VOBA"), and deferred income taxes.

Other-Than-Temporary Impairments

The Company analyzes the General Account investments to determine whether there has been an other-than-temporary decline in fair value below the amortized cost basis in accordance with FAS No. 115, "Accounting for Certain Investments in Debt and Equity Securities." Management considers the length of time and the extent to which fair value has been less than amortized cost; the financial condition and near-term prospects of the issuer; future economic conditions and market forecasts; and the Company's intent and ability to retain the investment in the issuer for a period of time sufficient to allow for recovery in fair value. If it is probable that all amounts due according to the contractual terms of a debt security will not be collected, an other-than-temporary impairment is considered to have occurred.

In addition, the Company invests in structured securities that meet the criteria of EITF Issue No. 99-20 "Recognition of Interest Income and Impairment on Purchased and Retained Beneficial Interests in Securitized Financial Assets." Under Issue No. EITF 99-20, a determination of the required impairment is based on credit risk and the possibility of significant prepayment risk that restricts the Company's ability to recover the investment. An impairment is recognized if the fair value of the security is less than amortized cost and there has been an adverse change in cash flow since the last remeasurement date.

When a decline in fair value is determined to be other-than-temporary, the individual security is written down to fair value and the loss is accounted for as a realized loss.

Experience-Rated Products

Included in available-for-sale securities are investments that support experience-rated products. Experience-rated products are products where the customer, not the Company, assumes investment (including realized capital gains and losses) and other risks, subject to, among other things, minimum principal and interest guarantees. Unamortized realized gains and losses on the sale of and unrealized capital gains and losses on investments supporting these products are included in future policy benefits and claims reserves on the Consolidated Balance Sheets. Realized capital gains and losses on all other investments are reflected in the Consolidated Statements of Operations. Unrealized

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

capital gains and losses on all other investments are reflected in shareholder's equity, net of related income taxes.

Purchases and Sales

Purchases and sales of fixed maturities and equity securities (excluding private placements) are recorded on the trade date. Purchases and sales of private placements and mortgage loans are recorded on the closing date.

Valuation

Fair values for fixed maturities are obtained from independent pricing services or broker/dealer quotations. Fair values for privately placed bonds are determined using a matrix-based model. The matrix-based model considers the level of risk-free interest rates, current corporate spreads, the credit quality of the issuer, and cash flow characteristics of the security. The fair values for actively traded equity securities are based on quoted market prices. For equity securities not actively traded, estimated fair values are based upon values of issues of comparable yield and quality or conversion value where applicable.

Mortgage loans on real estate are reported at amortized cost less impairment writedowns. If the value of any mortgage loan is determined to be impaired (i.e., when it is probable the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement), the carrying value of the mortgage loan is reduced to the present value of expected cash flows from the loan, discounted at the loan's effective interest rate, or to the loan's observable market price, or the fair value of the collateral. If the loan is in foreclosure, the carrying value is reduced to the fair value of the underlying collateral, net of estimated costs to obtain and sell. The carrying value of the impaired loans is reduced by establishing a permanent writedown charged to realized loss.

Policy loans are carried at unpaid principal balances.

Short-term investments, consisting primarily of money market instruments and other fixed maturities issues purchased with an original maturity of 91 days to one year, are considered available-for-sale and are carried at fair value, which approximates amortized cost.

Securities Lending

The Company engages in securities lending whereby certain securities from its portfolio are loaned to other institutions for short periods of time. Initial collateral, primarily cash, is required at a rate of 102% of the market value of the loaned domestic securities. The collateral is deposited by the borrower with a lending agent, and retained and invested by

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

the lending agent according to the Company's guidelines to generate additional income. The market value of the loaned securities is monitored on a daily basis with additional collateral obtained or refunded as the market value of the loaned securities fluctuates.

Repurchase Agreements

The Company engages in dollar repurchase agreements ("dollar rolls") and repurchase agreements to increase the return on investments and improve liquidity. These transactions involve a sale of securities and an agreement to repurchase substantially the same securities as those sold. Company policies require a minimum of 95% of the fair value of securities pledged under dollar rolls and repurchase agreement transactions to be maintained as collateral. Cash collateral received is invested in fixed maturities and the offsetting collateral liability is included in borrowed money on the Consolidated Balance Sheets.

Derivatives

The Company's use of derivatives is limited mainly to hedging purposes. However, these derivatives are not accounted for using hedge accounting treatment under FAS No. 133 and the Company does not seek hedge accounting treatment. The Company enters into interest rate, equity market, and currency contracts, including swaps, caps, and floors to reduce and manage risks associated with changes in value, yield, price or cash flow or exchange rates of assets or liabilities held or intended to be held. Changes in the fair value of open derivative contracts are recorded in net realized capital gains and losses. Derivatives are included in other investments on the Consolidated Balance Sheets.

The Company also has investments in certain fixed maturity instruments and has retail annuity products that contain embedded derivatives, including those whose market value is at least partially determined by, among other things, levels of or changes in domestic and/or foreign interest rates (short- or long-term), exchange rates, prepayment rates, equity markets, or credit ratings/spreads. Changes in the fair value of embedded derivatives are recorded in net realized capital gains (losses) in the Consolidated Statements of Operations. Embedded derivatives are included in fixed maturities.

Deferred Policy Acquisition Costs and Value of Business Acquired

DAC represents policy acquisition costs that have been capitalized and are subject to amortization. Such costs consist principally of certain commissions, underwriting, contract issuance, and certain agency expenses, related to the production of new and renewal business.

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

VOBA represents the outstanding value of in force business capitalized and is subject to amortization in purchase accounting when the Company was acquired. The value is based on the present value of estimated net cash flows embedded in the Company's contracts.

The amortization methodology used for DAC and VOBA varies by product type. FAS No. 60, "Accounting and Reporting by Insurance Enterprises," applies to traditional life insurance products, primarily whole life and term life insurance contracts. Under FAS No. 60, DAC and VOBA are amortized over the premium payment period, in proportion to the premium revenue recognized.

FAS No. 97 applies to universal life and investment-type products, such as fixed and variable deferred annuities. Under FAS No. 97, DAC and VOBA are amortized, with interest, over the life of the related contracts (usually 25 years) in relation to the present value of estimated future gross profits from investment, mortality, and expense margins; asset-based fees, policy administration, and surrender charges; less policy maintenance fees and non-capitalized commissions, as well as realized gains and losses on investments.

Changes in assumptions can have a significant impact on DAC and VOBA balances and amortization rates. Several assumptions are considered significant in the estimation of future gross profits associated with variable deferred annuity products. One of the most significant assumptions involved in the estimation of future gross profits is the assumed return associated with the variable account performance. To reflect the volatility in the equity markets, this assumption involves a combination of near-term expectations and long-term assumptions regarding market performance. The overall return on the variable account is dependent on multiple factors, including the relative mix of the underlying sub-accounts among bond funds and equity funds, as well as equity sector weightings. Other significant assumptions include surrender and lapse rates, estimated interest spread, and estimated mortality.

Due to the relative size and sensitivity to minor changes in underlying assumptions of DAC and VOBA balances, the Company performs a quarterly and annual analysis of DAC and VOBA for the annuity and life businesses, respectively. The DAC and VOBA balances are evaluated for recoverability and are reduced to the extent that estimated future gross profits are inadequate to recover the asset.

At each evaluation date, actual historical gross profits are reflected, and estimated future gross profits and related assumptions are evaluated for continued reasonableness. Any adjustment in estimated profit requires that the amortization rate be revised ("unlocking"), retroactively to the date of the policy or contract issuance. The cumulative prior period adjustment is recognized as a component of current period

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

amortization. In general, increases in investment, mortality, and expense margins, and thus estimated future profits, lower the rate of amortization. However, decreases in investment, mortality, and expense margins, and thus estimated future profits, increase the rate of amortization.

Reserves

The Company establishes and carries actuarially determined reserve liabilities which are calculated to meet its future obligations. Changes in or deviations from the assumptions used can significantly affect the Company's reserve levels and related future operations.

Reserves for deferred annuity investment contracts and immediate annuities without life contingent benefits are equal to cumulative deposits less charges and withdrawals plus credited interest thereon (rates range from 1.5% to 11.9% for all years presented) net of adjustments for investment experience that the Company is entitled to reflect in future credited interest. These reserves also include unrealized gains/losses related to investments and unamortized realized gains/losses on investments for experience-rated contracts. Reserves on experience-rated contracts reflect the rights of contractholders, plan participants, and the Company.

Reserves for immediate annuities with life contingent benefits are computed on the basis of assumed interest discount rates, mortality, and expenses, including a margin for adverse deviations. Such assumptions generally vary by plan, year of issue and policy duration. Reserve interest rates range from 4.9% to 9.5% for all years presented.

Because the sale of the domestic individual life insurance business on October 1, 1998 was substantially in the form of an indemnity reinsurance agreement, the Company includes an amount in reinsurance recoverable on the Consolidated Balance Sheet, which approximates the Company's total individual life reserves. See Note 11 to the Consolidated Balance Sheets.

Unpaid claims and claim expenses for all lines of insurance include benefits for reported losses and estimates of benefits for losses incurred but not reported.

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

Sales Inducements

Sales inducements represent benefits paid to contractowners that are incremental to the amounts the Company credits on similar contracts and are higher than the contract's expected ongoing crediting rates for periods after the inducement. As of January 1, 2004, such amounts are reported separately and included in Other Assets on the Consolidated Balance Sheet in accordance with SOP 03-1. Prior to 2004, sales inducements were recorded as a component of DAC on the Consolidated Balance Sheet. Beginning in 2004, sales inducements are amortized as a component of interest credited and other benefits to contractowners using methodologies and assumptions consistent with those used for amortization of DAC.

Revenue Recognition

For most annuity contracts, fee income for the cost of insurance, surrenders, expenses, and other fees are recorded as revenue as charges are assessed against contractowners. Other amounts received for these contracts are reflected as deposits and are not recorded as premiums or revenue. Related policy benefits are recorded in relation to the associated premiums or gross profit so that profits are recognized over the expected lives of the contracts. When annuity payments with life contingencies begin under contracts that were initially investment contracts, the accumulated balance in the account is treated as a single premium for the purchase of an annuity and reflected as an offsetting amount in both premiums and current and future benefits on the Consolidated Statements of Operations. Premiums on the Consolidated Statements of Operations primarily represent amounts received for immediate annuities with life contingencies.

Separate Accounts

Separate Account assets and liabilities generally represent funds maintained to meet specific investment objectives of contractowners who bear the investment risk, subject, in limited cases, to certain minimum guaranteed rates. Investment income and investment gains and losses generally accrue directly to such contractowners. The assets of each account are legally segregated and are not subject to claims that arise out of any other business of the Company or its affiliates.

Separate Account assets supporting variable options under annuity contracts are invested, as designated by the contractowner or participant (who bears the investment risk subject, in limited cases, to minimum guaranteed rates) under a contract in shares of mutual funds which are managed by the Company or its affiliates, or other selected mutual funds not managed by the Company or its affiliates.

Separate Account assets and liabilities are carried at fair value and shown as separate captions in the Consolidated Balance Sheets. Deposits, investment income and net

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

realized and unrealized capital gains and losses of the Separate Accounts are not reflected in the Consolidated Financial Statements (with the exception of realized and unrealized capital gains and losses on the assets supporting the guaranteed interest option). The Consolidated Statements of Cash Flows do not reflect investment activity of the Separate Accounts.

Assets and liabilities of separate account arrangements that do not meet the criteria in SOP 03-1 for presentation in the separate caption in the Consolidated Balance Sheets (primarily guaranteed interest options), and revenue and expenses related to such arrangements, are consolidated in the financial statements with the general account. At December 31, 2004 and 2003, unrealized gains of \$7.3 and \$55.7, respectively, on assets supporting a guaranteed interest option are reflected in shareholder's equity.

Reinsurance

The Company utilizes indemnity reinsurance agreements to reduce its exposure to large losses in all aspects of its insurance business. Such reinsurance permits recovery of a portion of losses from reinsurers, although it does not discharge the primary liability of the Company as direct insurer of the risks reinsured. The Company evaluates the financial strength of potential reinsurers and continually monitors the financial condition of reinsurers. Only those reinsurance recoverable balances deemed probable of recovery are reflected as assets on the Consolidated Balance Sheets. Of the reinsurance recoverable on the Consolidated Balance Sheets, \$2.9 billion and \$3.0 billion at December 31, 2004 and 2003, respectively, is related to the reinsurance recoverable from Lincoln National Corporation ("Lincoln") arising from the sale of the Company's domestic life insurance business in 1998 (See Note 11).

Income Taxes

The Company is taxed at regular corporate rates after adjusting income reported for financial statement purposes for certain items. Deferred income tax expenses/benefits result from changes during the year in cumulative temporary differences between the tax basis and book basis of assets and liabilities.

Total investments available-for-sale	\$ 15,601.5	\$ 709.3	\$ 99.2	\$ 16,211.6

At December 31, 2004 and 2003, net unrealized appreciation of \$490.8 and \$630.5, respectively, on total fixed maturities, including fixed maturities pledged to creditors, and equity securities, included \$357.5 and \$491.5, respectively, related to experience-rated contracts, which were not reflected in shareholder's equity but in future policy benefits and claim reserves.

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

The aggregate unrealized losses and related fair values of investments with unrealized losses as of December 31, 2004, are shown below by duration:

	Unrealized Loss	Fair Value
Duration category:		
Less than six months below amortized cost	\$ 37.7	\$ 3,319.0
More than six months and less than twelve months below cost	34.9	1,795.0
More than twelve months below amortized cost	45.6	960.5
Total investments available-for-sale	<u>\$ 118.2</u>	<u>\$ 6,074.5</u>

Of the unrealized losses, less than 6 months in duration of \$37.7, there were \$9.5 in unrealized losses that are primarily related to interest rate movement or spread widening for other than credit-related reasons. The remaining unrealized losses of \$28.2, as of December 31, 2004, related to securities reviewed for impairment under the guidance proscribed by EITF Issue No. 99-20. This category includes U.S. government-backed securities, principal protected securities, and structured securities which did not have an adverse change in cash flows for which the carrying amount was \$1,746.2.

Of the unrealized losses, more than 6 months and less than 12 months in duration, of \$34.9, there were \$16.4 in unrealized losses that are primarily related to interest rate movement or spread widening for other than credit-related reasons. The remaining unrealized losses of \$18.5, as of December 31, 2004, related to securities reviewed for impairment under the guidance proscribed by EITF Issue No. 99-20. This category includes U.S. government-backed securities, principal protected securities, and structured securities which did not have an adverse change in cash flows for which the carrying amount was \$829.2.

An analysis of the unrealized losses, more than 12 months in duration, of \$45.6 follows. There were \$15.9 in unrealized losses that are primarily related to interest rate movement or spread widening for other than credit-related reasons. The remaining unrealized losses of \$29.7, as of December 31, 2004, related to securities reviewed for impairment under the guidance proscribed by EITF Issue No. 99-20. This category includes U.S. government-backed securities, principal protected securities, and structured securities which did not have an adverse change in cash flows for which the carrying amount was \$505.6.

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

The amortized cost and fair value of total fixed maturities for the year ended December 31, 2004 are shown below by contractual maturity. Actual maturities may differ from contractual maturities because securities may be restructured, called, or prepaid.

	Amortized Cost	Fair Value
Due to mature:		
One year or less	\$ 395.8	\$ 400.0
After one year through five years	3,650.0	3,727.4
After five years through ten years	3,128.8	3,256.4
After ten years	2,425.5	2,613.3
Mortgage-backed securities	6,988.8	7,065.0
Other asset-backed securities	1,354.6	1,363.5
Less: fixed maturities pledged to creditors	1,258.8	1,274.3
Fixed maturities	<u>\$ 16,684.7</u>	<u>\$ 17,151.3</u>

At December 31, 2004 and 2003, fixed maturities with carrying values of \$10.9 and \$11.2, respectively, were on deposit as required by regulatory authorities.

The Company did not have any investments in a single issuer, other than obligations of the U.S. government, with a carrying value in excess of 10% of the Company's shareholder's equity at December 31, 2004 or 2003.

The Company has various categories of CMOs that are subject to different degrees of risk from changes in interest rates and, for CMOs that are not agency-backed, defaults. The principal risks inherent in holding CMOs are prepayment and extension risks related to dramatic decreases and increases in interest rates resulting in the repayment of principal from the underlying mortgages either earlier or later than originally anticipated. At December 31, 2004 and 2003, approximately 4.1% and 2.8%, respectively, of the Company's CMO holdings were invested in types of CMOs which are subject to more prepayment and extension risk than traditional CMOs (such as interest-only or principal-only strips).

The Company enters into dollar repurchase agreements ("dollar rolls") and repurchase agreements to increase its return on investments and improve liquidity. At December 31, 2004 and 2003, the carrying value of the securities pledged in dollar rolls and repurchase agreements was \$1,274.3 and \$1,644.8, respectively. The carrying value of the securities pledged in dollar rolls and repurchase agreements is included in pledged securities on the Balance Sheets. The repurchase obligation related to dollar rolls and repurchase agreements totaled \$1,057.4 and \$1,519.3 at December 31, 2004 and 2003, respectively. The repurchase obligation related to dollar rolls and repurchase agreements is included in borrowed money on the Consolidated Balance Sheets.

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

Impairments

The following table identifies the Company's other-than-temporary impairments by type as of December 31:

	2004		2003		2002	
	No. of		No. of		No. of	
	Impairment	Securities	Impairment	Securities	Impairment	Securities
U.S. Corporate	\$ -	-	\$ 6.2	4	\$ 0.1	2
Residential mortgage-backed	13.5	53	88.2	83	40.0	33
Limited partnership	-	-	2.0	1		
Equities	-	-	-	2	0.1	2
Total	<u>\$ 13.5</u>	<u>53</u>	<u>\$ 96.4</u>	<u>90</u>	<u>\$ 40.2</u>	<u>37</u>

The remaining fair value of the fixed maturities with other-than-temporary impairments at December 31, 2004 and 2003 is \$125.0 and \$123.1, respectively.

Net Investment Income

Sources of net investment income were as follows:

	Year ended December 31,		
	2004	2003	2002
Fixed maturities	\$ 980.5	\$ 946.2	\$ 964.1
Preferred stock	-	9.9	3.9
Mortgage loans on real estate	56.0	42.7	23.3
Policy loans	8.1	9.0	8.7
Cash equivalents	2.4	1.7	1.7
Other	(2.1)	(1.0)	23.4
Gross investment income	1,044.9	1,008.5	1,025.1
Less: investment expenses	61.8	89.4	65.6
Net investment income	<u>\$ 983.1</u>	<u>\$ 919.1</u>	<u>\$ 959.5</u>

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

Net Realized Capital Gains and Losses

Net realized capital gains (losses) are comprised of the difference between the carrying value of investments and proceeds from sale, maturity, and redemption, as well as losses incurred due to impairment of investments. Net realized capital gains (losses) on investments were as follows:

	Year ended December 31,		
	2004	2003	2002
Fixed maturities	\$ 24.7	\$ 63.9	\$ (97.5)
Equity securities	0.5	0.6	(3.5)
Pretax net realized capital gains (losses)	<u>\$ 25.2</u>	<u>\$ 64.5</u>	<u>\$ (101.0)</u>
After-tax net realized capital gains (losses)	<u>\$ 16.4</u>	<u>\$ 41.9</u>	<u>\$ 65.7</u>

Net realized capital gains allocated to experience-rated contracts of \$42.0, \$43.9, and \$63.6 for the years ended December 31, 2004, 2003 and 2002, respectively, were deducted from net realized capital gains and an offsetting amount was reflected in future policy benefits and claim reserves on the Consolidated Balance Sheets. Net unamortized realized gains (losses) allocated to experienced-rated contractholders were \$233.4, \$213.7, and \$199.3 at December 31, 2004, 2003 and 2002, respectively.

Proceeds from the sale of fixed maturities and equity securities and the related gross gains and losses, excluding those related to experience-related contractholders, were as follows:

	Year ended December 31,		
	2004	2003	2002
Proceeds on sales	\$ 10,236.3	\$ 12,812.5	\$ 13,265.2
Gross gains	146.9	291.9	276.7
Gross losses	70.9	228.0	374.2

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

Changes in shareholder's equity related to changes in accumulated other comprehensive income (net unrealized capital gains and losses on securities, including securities pledged excluding those related to experience-rated contractholders) were as follows:

	Year ended December 31,		
	2004	2003	2002
Fixed maturities	\$ 16.1	\$ (54.3)	\$ 104.8
Equity securities	(5.7)	17.9	(1.6)
Sales inducements	(0.1)	-	-
Other	(59.8)	34.0	(8.3)
Subtotal	(49.5)	(2.4)	94.9
Less: (Increase) decrease in deferred income taxes	(17.3)	(0.9)	33.2
Net increase (decrease) in accumulated other comprehensive (loss) income	<u>\$ (32.2)</u>	<u>\$ (1.5)</u>	<u>\$ 61.7</u>

2. Financial Instruments

Estimated Fair Value

The following disclosures are made in accordance with the requirements of FAS No. 107, "Disclosures about Fair Value of Financial Instruments." FAS No. 107 requires disclosure of fair value information about financial instruments, whether or not recognized in the balance sheet, for which it is practicable to estimate that value. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. In that regard, the derived fair value estimates, in many cases, could not be realized in immediate settlement of the instrument.

FAS No. 107 excludes certain financial instruments, including insurance contracts, and all nonfinancial instruments from its disclosure requirements. Accordingly, the aggregate fair value amounts presented do not represent the underlying value of the Company.

The following valuation methods and assumptions were used by the Company in estimating the fair value of the following financial instruments:

Fixed maturities: The fair values for the actively traded marketable bonds are determined based upon the quoted market prices. The fair values for marketable bonds without an active market are obtained through several commercial pricing services which provide the estimated fair values. Fair values of privately placed bonds are determined using a matrix-based pricing model. The model considers the current level of risk-free interest rates, current corporate spreads, the credit quality of the issuer, and cash flow characteristics of the security. Also considered are factors such as the net worth of the

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

borrower, the value of collateral, the capital structure of the borrower, the presence of guarantees, and the Company's evaluation of the borrower's ability to compete in their relevant market. Using this data, the model generates estimated market values which the Company considers reflective of the fair value of each privately placed bond.

Equity securities: Fair values of these securities are based upon quoted market price.

Mortgage loans on real estate: The fair values for mortgage loans on real estate are estimated using discounted cash flow analyses and rates currently being offered in the marketplace for similar loans to borrowers with similar credit ratings. Loans with similar characteristics are aggregated for purposes of the calculations.

Cash and cash equivalents, short-term investments and policy loans: The carrying amounts for these assets approximate the assets' fair values.

Assets held in separate accounts: Assets held in separate accounts are reported at the quoted fair values of the individual securities in the separate accounts.

Investment contract liabilities (included in future policy benefits and claim reserves):

With a fixed maturity: Fair value is estimated by discounting cash flows at interest rates currently being offered by, or available to, the Company for similar contracts.

Without a fixed maturity: Fair value is estimated as the amount payable to the contractowners upon demand. However, the Company has the right under such contracts to delay payment of withdrawals which may ultimately result in paying an amount different than that determined to be payable on demand.

Liabilities related to separate accounts: The carrying amounts for these liabilities approximate their fair value.

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

The carrying values and estimated fair values of certain of the Company's financial instruments at December 31, 2004 and 2003 were as follows:

	2004		2003	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Assets:				
Fixed maturity securities, including				
securities pledged	\$ 18,425.6	\$ 18,425.6	\$ 17,694.5	\$ 17,694.5
Equity securities	162.6	162.6	161.9	161.9
Mortgage loans on real estate	1,090.2	1,119.8	754.5	798.5

Liabilities related to Separate Accounts	33,310.5	33,310.5	33,014.7	33,014.7

Fair value estimates are made at a specific point in time, based on available market information and judgments about various financial instruments, such as estimates of timing and amounts of future cash flows. Such estimates do not reflect any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument, nor do they consider the tax impact of the realization of unrealized gains or losses. In many cases, the fair value estimates cannot be substantiated by comparison to independent markets, nor can the disclosed value be realized in immediate settlement of the instruments. In evaluating the Company's management of interest rate, price and liquidity risks, the fair values of all assets and liabilities should be taken into consideration, not only those presented above.

Derivative Financial Instruments

Interest Rate Floors

Interest rate floors are used to manage the interest rate risk in the Company's bond portfolio. Interest rate floors are purchased contracts that provide the Company with an annuity in a declining interest rate environment. The Company had no open interest rate floors at December 31, 2004 or 2003.

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

Interest Rate Caps

Interest rate caps are used to manage the interest rate risk in the Company's bond portfolio. Interest rate caps are purchased contracts that provide the Company with an annuity in an increasing interest rate environment. The notional amount, carrying value and estimated fair value of the Company's open interest rate caps as of December 31, 2004 were \$527.8, \$5.9, and \$5.9, respectively. The notional amount, carrying value and estimated fair value of the Company's open interest rate caps as of December 31, 2003 were \$739.6, \$8.2, and \$8.2, respectively.

Interest Rate Swaps

Interest rate swaps are used to manage the interest rate risk in the Company's bond portfolio and well as the Company's liabilities. Interest rate swaps represent contracts that require the exchange of cash flows at regular interim periods, typically monthly or quarterly. The notional amount, carrying value and estimated fair value of the Company's open interest rate swaps as of December 31, 2004 were \$1,766.0, \$2.1, and \$2.1, respectively. The notional amount, carrying value and estimated fair value of the Company's open interest rate swaps as of December 31, 2003 were \$950.0, \$(14.4), and \$(14.4), respectively.

Foreign Exchange Swaps

Foreign exchange swaps are used to reduce the risk of a change in the value, yield, or cash flow with respect to invested assets. Foreign exchange swaps represent contracts that require the exchange of foreign currency cash flows for US dollar cash flows at regular interim periods, typically quarterly or semi-annually. The notional amount, carrying value, and estimated fair value of the Company's open foreign exchange rate swaps as of December 31, 2004 were \$126.5, \$(28.4), and \$(28.4), respectively. The notional amount, carrying value and estimated fair value of the Company's open foreign exchange rate swaps as of December 31, 2003 were \$78.1, \$(12.8), and \$(12.8), respectively.

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

3. Deferred Policy Acquisition Costs and Value of Business Acquired

Activity for the year-ended December 31, 2004, 2003 and 2002 within VOBA was as follows:

Balance at December 31, 2001	\$ 1,601.8
Adjustment for unrealized gain (loss)	(21.9)
Additions	25.0
Interest accrued at 7%	86.8
Amortization	<u>(253.3)</u>
Balance at December 31, 2002	1,438.4
Adjustment for unrealized gain (loss)	6.2
Additions	59.1
Interest accrued at 7%	92.2
Amortization	<u>(180.5)</u>
Balance at December 31, 2003	1,415.4
Adjustment for unrealized gain (loss)	7.9
Additions	50.1
Interest accrued at 6%	92.3
Amortization	<u>(200.5)</u>
Balance at December 31, 2004	<u><u>\$ 1,365.2</u></u>

The estimated amount of VOBA to be amortized, net of interest, over the next five years is \$112.2, \$105.8, \$97.4, \$92.4, and \$90.6 for the years 2005, 2006, 2007, 2008 and 2009, respectively. Actual amortization incurred during these years may vary as assumptions are modified to incorporate actual results.

During 2004, VOBA amortization increased principally due to higher actual gross profits, as a result of the margins earned on higher fixed and variable assets and fewer other-than-temporary impairments. Also, surrenders increased, which resulted in higher amortization for certain business.

During 2003 the Company reset long-term assumptions for the Separate Account returns from 9.0% to 8.5% (gross before fund management fees and mortality, expense, and other policy charges), reflecting a blended return of equity and other sub-accounts. The 2003 unlocking adjustment was primarily driven by improved market performance compared to expected during 2003. For the year ended December 31, 2003, the Company recorded a deceleration of DAC/VOBA amortization totaling \$3.7 before tax, or \$2.4, net of \$1.3 of federal income tax expense.

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

As part of the regular analysis of DAC/VOBA, at the end of third quarter of 2002, the Company unlocked its long-term rate of return assumptions. The Company reset long-term return assumptions for the Separate Account returns to 9.0% (gross before fund management fees and mortality, expense, and other policy charges), as of December 31, 2002, reflecting a blended return of equity and other sub-accounts. The unlocking adjustment in 2002 was primarily driven by the sustained downturn in the equity markets and revised expectations for future returns. During 2002, the Company recorded an acceleration of DAC/VOBA amortization totaling \$45.6 before tax, or \$29.7, net of \$15.9 of federal income tax benefit.

4. Dividend Restrictions and Shareholder's Equity

The Company's ability to pay dividends to its parent is subject to the prior approval of insurance regulatory authorities of the State of Connecticut for payment of any dividend, which, when combined with other dividends paid within the preceding 12 months, exceeds the greater of (1) 10% of statutory surplus at prior year end or (2) ILIAC's prior year statutory net gain from operations.

ILIAC paid a cash dividend of \$70.0 to Lion in 2004 and did not pay cash dividends to Lion in 2003 or 2002. However, on February 28, 2002, ILIAC contributed 100% of the stock of IA Holdco to HOLDCO in the form of a \$60.1 dividend distribution. ILIAC did not receive capital contributions from its parent in 2004 and received \$230.0 and \$164.3 in capital contributions during 2003 and 2002, respectively.

The Insurance Department of the State of Connecticut (the "Department") recognizes as net income and capital and surplus those amounts determined in conformity with statutory accounting practices prescribed or permitted by the Department, which differ in certain respects from accounting principles generally accepted in the United States. Statutory net income (loss) was \$217.2, \$67.5, and \$148.8 for the years ended December 31, 2004, 2003, and 2002, respectively. Statutory capital and surplus was \$1,344.5 and \$1,230.7 as of December 31, 2004 and 2003, respectively.

As of December 31, 2004, the Company did not utilize any statutory accounting practices, which are not prescribed by state regulatory authorities that, individually or in the aggregate, materially affect statutory capital and surplus.

5. Additional Insurance Benefits and Minimum Guarantees

Under SOP 03-1, the Company calculates an additional liability ("SOP reserves") for certain guaranteed minimum death benefits ("GMDBs") in order to recognize the expected value of death benefits in excess of the projected account balance over the accumulation period based on total expected assessments.

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

The Company regularly evaluates estimates used to adjust the additional liability balance, with a related charge or credit to benefit expense, if actual experience or other evidence suggests that earlier assumptions should be revised.

As of December 31, 2004, the Separate Account liability subject to SOP 03-1 for guaranteed minimum benefits and the additional liability recognized related to minimum guarantees was \$4,396.0 and \$0.7, respectively.

The aggregate fair value of equity securities (including mutual funds) supporting separate accounts with additional insurance benefits and minimum investment return guarantees as of December 31, 2004 was \$4,396.0.

6. Income Taxes

ILIAC files a consolidated federal income tax return with its subsidiary, IICA. ILIAC has a federal tax allocation agreement with IICA whereby ILIAC charges its subsidiary for federal taxes it would have incurred were it not a member of the consolidated group and credits IICA for losses at the statutory federal tax rate.

Income taxes (benefits) from continuing operations consist of the following:

	Year ended December 31,		
	2004	2003	2002
Current tax expense (benefit):			
Federal	\$ (3.8)	\$ 37.9	\$ 40.4
State	-	1.1	1.8
Total current tax expense (benefit)	(3.8)	39.0	42.2
Deferred tax expense (benefit):			
Federal	46.2	22.1	(23.6)
Total deferred tax expense (benefit)	46.2	22.1	(23.6)
Total income tax expense (benefit)	\$ 42.4	\$ 61.1	\$ 18.6

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

Income taxes were different from the amount computed by applying the federal income tax rate to income from continuing operations before income taxes for the following reasons:

	Year ended December 31,		
	2004	2003	2002
Income before income taxes and cumulative effect of change in accounting principle	\$ 241.7	\$ 215.7	\$ 86.1
Tax rate	35%	35%	35%
Income tax at federal statutory rate	84.6	75.5	30.1
Tax effect of:			
State income tax, net of federal benefit	-	0.7	1.2
Dividends received deduction	(9.6)	(14.0)	(5.3)
IRS audit settlement	(33.0)		
Transfer of mutual fund shares	-	-	(6.7)
Other, net	0.4	(1.1)	(0.7)
Income tax expense	<u>\$ 42.4</u>	<u>\$ 61.1</u>	<u>\$ 18.6</u>

The tax effects of temporary differences that give rise to deferred tax assets and deferred tax liabilities at December 31, are presented below:

	2004	2003
Deferred tax assets:		
Insurance reserves	\$ 286.4	\$ 263.7
Unrealized gains allocable to experience-rated contracts	125.1	172.0
Investments	-	69.7
Postemployment benefits	60.5	30.2
Compensation	35.5	56.0
Other, net	23.4	19.7
Total gross assets	<u>530.9</u>	<u>611.3</u>
Deferred tax liabilities:		
Value of business acquired	477.8	495.4
Net unrealized capital gains	161.3	236.4
Deferred policy acquisition costs	91.3	59.2
Other, net	9.8	5.0
Total gross liabilities	<u>740.2</u>	<u>796.0</u>
Net deferred tax liability	<u>\$ 209.3</u>	<u>\$ 184.7</u>

Net unrealized capital gains and losses are presented as a component of Other Comprehensive Income in shareholder's equity, net of deferred taxes.

Under prior law, the Company was allowed to defer from taxation a portion of income. The deferred income was accumulated in the Policyholders' Surplus Account and only becomes taxable under certain conditions, which management believes to be remote.

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

Furthermore, the American Jobs Creation Act of 2004 allows certain tax-free distributions from the Policyholders' Surplus Account during 2005 and 2006. Therefore, based on currently available information, no federal income taxes have been provided on the Policyholders' Surplus Account accumulated balance of \$17.2 million.

Valuation allowances are provided when it is considered more likely than not that deferred tax assets will not be realized. No valuation allowance has been established at this time, as management believes the above conditions presently do not exist.

The Company establishes reserves for probable proposed adjustments by various taxing authorities. Management believes there are sufficient reserves provided for, or adequate defenses against any such adjustments. The Internal Revenue Service (the "Service") has completed examinations of the federal income tax returns of the Company for all years through the December 13, 2000 short period. The tax benefit associated with the settlement of the most recent audit is included in the 2004 financial statements. The Service has commenced its examination for the tax years ended December 31, 2000 and 2001. Additionally, various state tax audits are in process.

7. Benefit Plans

Defined Benefit Plan

ING North America Insurance Corporation ("ING North America") sponsors the ING Americas Retirement Plan (the "Retirement Plan"), effective as of December 31, 2001. Substantially all employees of ING North America and its subsidiaries and affiliates (excluding certain employees) are eligible to participate, including the Company's employees other than Company agents.

The Retirement Plan is a tax-qualified defined benefit plan, the benefits of which are guaranteed (within certain specified legal limits) by the Pension Benefit Guaranty Corporation ("PBGC"). As of January 1, 2002, each participant in the Retirement Plan (except for certain specified employees) earns a benefit under a final average compensation formula. Subsequent to December 31, 2001, ING North America is responsible for all Retirement Plan liabilities. The costs allocated to the Company for its employees' participation in the Retirement Plan were \$19.0 for 2004, \$15.1 for 2003, and \$6.4 for 2002, respectively.

Defined Contribution Plan

ING North America sponsors the ING Savings Plan and ESOP (the "Savings Plan"). Substantially all employees of ING North America and its subsidiaries and affiliates (excluding certain employees, including but not limited to Career Agents) are eligible to participate, including the Company's employees other than Company agents. Career

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

Agents are certain, full-time insurance salesmen who have entered into a career agent agreement with the Company and certain other individuals who meet specified eligibility criteria. The Savings Plan is a tax-qualified profit sharing and stock bonus plan, which includes an employee stock ownership plan (“ESOP”) component. Savings Plan benefits are not guaranteed by the PBGC. The Savings Plan allows eligible participants to defer into the Savings Plan a specified percentage of eligible compensation on a pre-tax basis. ING North America matches such pre-tax contributions, up to a maximum of 6% of eligible compensation. All matching contributions are subject to a 4-year graded vesting schedule (although certain specified participants are subject to a 5-year graded vesting schedule). All contributions made to the Savings Plan are subject to certain limits imposed by applicable law. Pre-tax charges of operations of the Company for the Savings Plan were \$8.0, \$7.1 and \$7.1 in 2004, 2003, and 2002, respectively.

Other Benefit Plans

The Company also sponsors a tax-qualified profit sharing plan for Career Agents that is intended to satisfy the requirements of Code Section 401(K).

In addition to providing retirement plan benefits, the Company, in conjunction with ING North America, provides certain supplemental retirement benefits to eligible employees; defined benefit pension plans for insurance salesmen who have entered into a career agent agreement and certain other individuals; and health care and life insurance benefits to retired employees and their eligible dependents. The supplemental retirement plan and defined benefit pension plan are non-qualified defined benefit pension plans, which means all benefits are payable from the general assets of the Company. The post-retirement health care plan is contributory, with retiree contribution levels adjusted annually. The defined benefit plan for salesmen was terminated effective January 1, 2002, and all benefit accruals ceased. The life insurance plan provides a flat amount of noncontributory coverage and optional contributory coverage. The benefit charges allocated to the Company related to all of these plans for the years ended December 31, 2004, 2003, and 2002, were not significant.

8. Related Party Transactions

Operating Agreements

ILIAC has certain agreements whereby it incurs expenses with affiliated entities. The agreements are as follows:

- Investment advisory agreement with ING Investment Management LLC (“IIM”), in which IIM provides asset management and accounting services. The Company records a fee, which is paid quarterly, based on the value of the assets under management. For the years ended December 31, 2004, 2003, and 2002, expenses were incurred in the amounts of \$58.8, \$53.8, and \$46.5, respectively.

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

- Services agreement between the Company and its affiliates effective January 2001, and amended effective January 1, 2002. For the years ended December 31, 2004, 2003, and 2002, net expenses related to the agreement were incurred in the amount of \$8.6, \$19.2, and \$13.4, respectively.
- Expense sharing agreement with ING North America Insurance Corporation, Inc., dated as of January 1, 2001, as amended effective January 1, 2002, for administrative, management, financial, and information technology services. For the years ended December 31, 2004, 2003, and 2002, expenses were incurred in the amounts of \$132.9, \$136.4, and \$126.0, respectively.

Management and service contracts and all cost sharing arrangements with other affiliated companies are allocated in accordance with the Company's expense and cost allocation methods.

Investment Advisory and Other Fees

ILIAC serves as investment advisor to certain variable funds used in Company products (collectively, the "Company Funds"). The Company Funds pay ILIAC, as investment advisor, a daily fee which, on an annual basis, ranged, depending on the Fund, from 0.5% to 1.0% of their average daily net assets. Each of the Company Funds managed by ILIAC are subadvised by investment advisors, in which case ILIAC pays a subadvisory fee to the investment advisors, which may include affiliates. ILIAC is also compensated by the Separate Accounts for bearing mortality and expense risks pertaining to variable life and annuity contracts. Under the insurance and annuity contracts, the Separate Accounts pay ILIAC a daily fee, which, on an annual basis is, depending on the product, up to 3.4% of their average daily net assets. The amount of compensation and fees received from affiliated mutual funds and separate accounts, amounted to \$209.2, \$201.4 (excludes fees paid to Aeltus Investment Management, Inc., now known as ING Investment Management LLP ("Aeltus")), and \$391.8 (includes fees paid to Aeltus through February 28, 2002, when IA Holdco, Aeltus' parent, ceased to be a subsidiary of ILIAC) in 2004, 2003, and 2002, respectively.

Reciprocal Loan Agreement

ILIAC maintains a reciprocal loan agreement with ING AIH, an indirect wholly-owned subsidiary of ING and affiliate to ILIAC, to facilitate the handling of unusual and/or unanticipated short-term cash requirements. Under this agreement, which became effective in June 2001 and expires on April 1, 2011, ILIAC and ING AIH can borrow up to 3% of ILIAC's statutory admitted assets as of the preceding December 31 from one another. Interest on any ILIAC borrowings is charged at the rate of ING AIH's cost of funds for the interest period plus 0.15%. Interest on any ING AIH borrowings is charged at a rate based on the prevailing interest rate of U.S. commercial paper available for purchase with a similar duration. Under this agreement, ILIAC incurred interest expense

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

of \$0.2, \$0.1, and \$0.1, for the years ended December 31, 2004, 2003, and 2002, respectively, and earned interest income of \$1.3, \$0.9, and \$2.1 for the years ended December 31, 2004, 2003, and 2002, respectively. At December 31, 2004 and 2003, respectively, ILIAC had a \$25.0 and \$41.4 receivable from ING AIH under this agreement.

Notes from Affiliate

On December 29, 2004, ING USA Annuity and Life Insurance Company (“ING USA”) issued surplus notes in the aggregate principal amount of \$400.0 (the “Notes”) scheduled to mature on December 29, 2034, to its affiliates, ILIAC, ReliaStar Life Insurance Company (“ReliaStar Life”), and Security Life of Denver International Limited (“SLDI”), in an offering that was exempt from the registration requirements of the Securities Act of 1933. The Company’s \$175.0 Notes Receivable from ING USA bears interest at a rate of 6.257% per year. Any payment of principal and/or interest is subject to the prior approval of the Insurance Commissioner of the state of Iowa. Interest is scheduled to be paid semi-annually in arrears on June 29 and December 29 of each year, commencing on June 29, 2005.

Tax Sharing Agreements

ILIAC has a federal tax sharing agreement with IICA, whereby ILIAC charges its subsidiary for federal taxes it would have incurred were it not a member of the consolidated group and credits the member for losses at the statutory federal tax rate.

ILIAC has also entered into a state tax sharing agreement with ING AIH and each of the specific subsidiaries that are parties to the agreement. The state tax agreement applies to situations in which ING AIH and all or some of the subsidiaries join in the filing of a state or local franchise, income tax, or other tax return on a consolidated, combined, or unitary basis.

Capital Transactions and Dividends

In 2004, ILIAC did not receive any capital contributions. In 2003, ILIAC received \$230.0 in cash capital contributions from Lion. In 2002, ILIAC received capital contributions in the form of investments in affiliated mutual funds of \$164.3 from HOLDCO.

ILIAC paid a cash dividend of \$70.0 to Lion in 2004 and did not pay any cash dividends to Lion in 2003 or 2002. However, on February 28, 2002, ILIAC contributed 100% of the stock of IA Holdco to HOLDCO in the form of a \$60.1 dividend distribution.

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

9. Financing Agreements

The Company maintains a revolving loan agreement with SunTrust Bank, Atlanta (the "Bank"). Under this agreement, which is due on demand, the Company can borrow up to \$125.0 from the Bank. Interest on any borrowing accrues at an annual rate equal to (1) the cost of funds for the Bank for the period applicable for the advance plus .225% or (2) a rate quoted by the Bank to the Company for the borrowing. Under the agreement, the Company incurred minimal interest expense for the years ended December 31, 2004, 2003, and 2002, respectively. At December 31, 2004 and 2003, the Company did not have any balances payable to the Bank.

The Company also maintains a perpetual revolving loan agreement with Bank of New York ("BONY"). Under this agreement, the Company can borrow up to \$100.0 from BONY. Interest on any of the Company borrowing accrues at an annual rate equal to (1) the cost of funds for BONY for the period applicable for the advance plus .35% or (2) a rate quoted by BONY to the Company for the borrowing. Under this agreement, the Company incurred minimal interest expense for the years ended December 31, 2004, 2003, and 2002. At December 31, 2004 and 2003, the Company did not have any balances payable to BONY.

Also see Reciprocal Loan Agreement in Note 9.

10. Reinsurance

At December 31, 2004, the Company had reinsurance treaties with six unaffiliated reinsurers and one affiliated reinsurer covering a significant portion of the mortality risks and guaranteed death and living benefits under its variable contracts. The Company remains liable to the extent its reinsurers do not meet their obligations under the reinsurance agreements.

On October 1, 1998, the Company sold its domestic individual life insurance business to Lincoln for \$1.0 billion in cash. The transaction is generally in the form of an indemnity reinsurance arrangement, under which Lincoln contractually assumed from the Company certain policyholder liabilities and obligations, although the Company remains directly obligated to contractowners.

Effective January 1, 1998, 90% of the mortality risk on substantially all individual universal life product business written from June 1, 1991 through October 31, 1997 was reinsured externally. Beginning November 1, 1997, 90% of new business written on these products was reinsured externally. Effective October 1, 1998 this agreement was assigned from the third party reinsurer to Lincoln.

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

Effective December 31, 1988, the Company entered into a modified coinsurance reinsurance agreement (“MODCO”) with Aetna Life Insurance Company (“Aetna Life”), (formerly an affiliate of the Company), in which substantially all of the nonparticipating individual life and annuity business written by Aetna Life prior to 1981 was assumed by the Company. Effective January 1, 1997, this agreement was amended to transition (based on underlying investment rollover in Aetna Life) from a modified coinsurance arrangement to a coinsurance agreement. As a result of this change, reserves were ceded to the Company from Aetna Life as investment rollover occurred. Effective October 1, 1998, this agreement was fully transitioned to a coinsurance arrangement and this business along with the Company’s direct individual life insurance business, with the exception of certain supplemental contracts with reserves of \$61.1 and \$63.8 as of December 31, 2004 and 2003, respectively, was sold to Lincoln.

On December 16, 1988, the Company assumed \$25.0 of premium revenue from Aetna Life, for the purchase and administration of a life contingent single premium variable payout annuity contract. In addition, the Company is also responsible for administering fixed annuity payments that are made to annuitants receiving variable payments. Reserves of \$19.3 and \$20.4 were maintained for this contract as of December 31, 2004 and 2003, respectively.

The effect of reinsurance on premiums and recoveries for the years ended December 31, 2004, 2003 and 2002, were as follows:

	Year ended December 31,		
	2004	2003	2002
Direct premiums	\$ 39.0	\$ 51.1	\$ 55.9
Reinsurance assumed	-	0.1	-
Reinsurance ceded	(0.5)	(1.1)	(2.0)
Net premiums	<u>\$ 38.5</u>	<u>\$ 50.1</u>	<u>\$ 53.9</u>

11. Commitments and Contingent Liabilities

Leases

The Company leases its office space and certain other equipment under operating leases that expire through 2009.

For the years ended December 31, 2004, 2003, and 2002, rent expense for leases was \$18.1, \$20.8 and \$18.1, respectively. The future net minimum payments under noncancelable leases for the years ended December 31, 2005 through 2009 are estimated to be \$16.7, \$15.4, \$14.0, \$1.3, and \$0.5, respectively, and \$0.1 thereafter. The Company pays substantially all expenses associated with its leased and subleased office properties. Expenses not paid directly by the Company are paid for by an affiliate and allocated back to the Company.

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

Commitments

Through the normal course of investment operations, the Company commits to either purchase or sell securities, commercial mortgage loans or money market instruments at a specified future date and at a specified price or yield. The inability of counterparties to honor these commitments may result in either a higher or lower replacement cost. Also, there is likely to be a change in the value of the securities underlying the commitments. At December 31, 2004, the Company had off-balance sheet commitments to purchase investments of \$778.2 with an estimated fair value of \$778.2.

Litigation

The Company is a party to threatened or pending lawsuits/arbitrations arising from the normal conduct of business. Due to the climate in insurance and business litigation/arbitration, suits against the Company sometimes include claims for substantial compensatory, consequential or punitive damages and other types of relief. Moreover, certain claims are asserted as class actions, purporting to represent a group of similarly situated individuals. While it is not possible to forecast the outcome of such lawsuits/arbitrations, in light of existing insurance, reinsurance and established reserves, it is the opinion of management that the disposition of such lawsuits/arbitrations will not have a materially adverse effect on the Company's operations or financial position.

Regulatory Matters

As with many financial services companies, the Company and its affiliates have received informal and formal requests for information from various state and federal governmental agencies and self-regulatory organizations in connection with inquiries and investigations of the products and practices of the financial services industry. In each case, the Company and its affiliates have been and are providing full cooperation.

Fund Regulatory Issues

Since 2002, there has been increased governmental and regulatory activity relating to mutual funds and variable insurance products. This activity has primarily focused on inappropriate trading of fund shares, revenue sharing and directed brokerage, compensation, sales practices and suitability, arrangements with service providers, pricing, compliance and controls, and adequacy of disclosure.

In addition to responding to governmental and regulatory requests on fund regulatory issues, ING management, on its own initiative, conducted, through special counsel and a national accounting firm, an extensive internal review of mutual fund trading in ING insurance, retirement, and mutual fund products. The goal of this review was to identify any instances of inappropriate trading in those products by third parties or by ING investment professionals and other ING personnel.

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

The internal review identified several isolated arrangements allowing third parties to engage in frequent trading of mutual funds within the variable insurance and mutual fund products of certain affiliates of the Company, and identified other circumstances where frequent trading occurred despite measures taken by ING intended to combat market timing. Each of the arrangements has been terminated and disclosed to regulators, to the independent trustees of ING Funds (U.S.) and in Company reports previously filed with the Securities and Exchange Commission (“SEC”) pursuant to the Securities Exchange Act of 1934, as amended.

An affiliate of the Company, ING Funds Distributors, LLC (“IFD”) has received notice from the staff of the National Association of Securities Dealers (“NASD”) that the staff has made a preliminary determination to recommend that disciplinary action be brought against IFD and one of its registered persons for violations of the NASD Conduct Rules and federal securities laws in connection with frequent trading arrangements.

Other regulators, including the SEC and the New York Attorney General, are also likely to take some action with respect to certain ING affiliates before concluding their investigation of ING relating to fund trading. The potential outcome of such action is difficult to predict but could subject certain affiliates to adverse consequences, including, but not limited to, settlement payments, penalties, and other financial liability. It is not currently anticipated, however, that the actual outcome of such action will have a material adverse effect on ING or ING’s U.S.-based operations, including the Company.

ING has agreed to indemnify and hold harmless the ING Funds from all damages resulting from wrongful conduct by ING or its employees or from ING’s internal investigation, any investigations conducted by any governmental or self-regulatory agencies, litigation or other formal proceedings, including any proceedings by the SEC. Management reported to the ING Funds Board that ING management believes that the total amount of any indemnification obligations will not be material to ING or ING’s U.S.-based operations, including the Company.

Other Regulatory Matters

The New York Attorney General and other regulators are also conducting broad inquiries and investigations involving the insurance industry. These initiatives currently focus on, among other things, compensation and other sales incentives, potential conflicts of interest, potential anti-competitive activity, marketing practices, certain financial reinsurance arrangements, and disclosure. It is likely that the scope of these investigations will further broaden before the investigations are concluded. U.S. affiliates of ING have received formal and informal requests in connection with such investigations, and are cooperating fully with each request for information.

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

These initiatives may result in new legislation and regulation that could significantly affect the financial services industry, including businesses in which the Company is engaged.

In light of these and other developments, U.S. affiliates of ING, including the Company, periodically review whether modifications to their business practices are appropriate.

12. Other Comprehensive Income

The components of other comprehensive income for the years ended December 31, 2004 and 2003 were as follows:

	As of December 31,	
	2004	2003
Net unrealized capital gains (losses):		
Fixed maturities	\$ 124.6	\$ 108.5
Equity securities	8.7	14.4
Sales inducements	(0.1)	-
Other	(8.2)	51.6
Subtotal	125.0	174.5
Less: Deferred income taxes	41.2	58.5
Net unrealized capital gains	83.8	116.0
Minimum pension liability	(16.7)	-
Net accumulated other comprehensive income	\$ 67.1	\$ 116.0

Net unrealized capital gains allocated to experience-rated contracts of \$357.5 and \$491.5 at December 31, 2004 and 2003, respectively, are reflected on the Consolidated Balance Sheets in future policy benefits and claims reserves and are not included in shareholder's equity.

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

Changes in accumulated other comprehensive income related to changes in net unrealized gains (losses) on securities, including securities pledged, excluding those related to experience-rated contractholders, were as follows:

	Year ended December 31,		
	2004	2003	2002
Unrealized holding (losses) gains arising during the year ⁽¹⁾	\$ 18.6	\$ (48.1)	\$ 127.4
Less: reclassification adjustment for gains (losses) and other items included in net income ⁽²⁾	50.8	(46.6)	65.7
Net unrealized (losses) gains on securities	<u>\$ (32.2)</u>	<u>\$ (1.5)</u>	<u>\$ 61.7</u>

(1) Pretax net unrealized holding gains (losses) were \$28.6, \$(74.0), and \$196.0, for the years ended December 31, 2004, 2003, and 2002, respectively.

(2) Pretax reclassification adjustments for gains (losses) and other items included in net income were \$78.1, \$(71.6), and \$101.1, for the years ended December 31, 2004, 2003, and 2002, respectively.

13. Reclassifications and Changes to Prior Year Presentation

During 2004, certain changes were made to the 2003 and 2002 Statements of Operations to reflect the correct balances, as follows:

- Certain changes were made to the classification of reinsurance ceded related to certain products, which were included as a reduction to premiums.
- Certain changes were made to the classification of certain annuity and other products, which were included in premium income.
- Certain changes were made to the classification of certain benefits to contractowners, which were included as a reduction to premiums.

In addition, certain reclassifications have been made to conform to the current year presentation.

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

These changes had no impact on net income or shareholder's equity of the Company. We deemed these changes to the Statement of Operations as immaterial, and, as such, have not labeled the Statement of Operations as restated. The following summarizes the corrections to each financial statement line item:

Year ended 12/31/2003	Previously Reported 2003	Adjustment	Revised 2003
Fee income	\$ 384.3	\$ 11.5	\$ 395.8
Premiums	95.8	(45.7)	50.1
Total revenue	1,463.7	(34.2)	1,429.5
Interest credited and other benefits to contractowners	757.6	(34.2)	723.4
Total expense	1,248.0	(34.2)	1,213.8

Year ended 12/31/2002	Previously Reported 2002	Adjustment	Revised 2002
Fee income	\$ 418.2	\$ 5.7	\$ 423.9
Premiums	98.7	(44.8)	53.9
Total revenue	1,375.4	(39.1)	1,336.3
Interest credited and other benefits to contractowners	746.4	(39.1)	707.3
Total expense	1,289.3	(39.1)	1,250.2

ING LIFE INSURANCE AND ANNUITY COMPANY AND SUBSIDIARIES
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements

Also, during 2004, certain changes were made to the 2003 and 2002 Statements of Cash Flows to reflect the correct balances, primarily related to payables for securities purchased, short-term borrowings, and investment contracts. As a result of these adjustments, we have labeled the Statements of Cash Flows for 2003 and 2002 as restated. The following summarizes the adjustments:

	<u>Previously Reported</u>	<u>Adjustment</u>	<u>Restated</u>
Year ended 12/31/2003			
Net cash provided by (used for) operating activities	\$ 1,254.8	\$ (196.5)	\$ 1,058.3
Net cash provided by (used for) financing activities	781.1	196.5	977.6
Year ended 12/31/2002			
Net cash provided by (used for) operating activities	\$ 1,527.7	\$ (132.4)	\$ 1,395.3
Net cash used for investing activities	(2,152.0)	(167.3)	(2,319.3)
Net cash provided by (used for) financing activities	607.7	299.7	907.4

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

QUARTERLY DATA (UNAUDITED)

Restatement of Financial Information: During the quarterly period ended June 30, 2003, the Company incorrectly recorded investment income and realized capital gains related to Separate Accounts. The Company noted the effect of this error during the compilation of the December 31, 2003 consolidated financial statements and made the appropriate changes to the quarterly periods ended June 30, 2003 and September 30, 2003.

The following tables show the previously reported and restated amounts for each of the periods affected in 2003.

As Restated

2004 (In millions)

	First	Second	Third	Fourth
Total revenue	\$ 384.5	\$ 362.1	\$ 376.7	\$ 379.2
Income (loss) before income taxes	64.4	54.7	61.3	61.3
Income tax expense (benefit)	20.4	17.0	(14.3)	19.3
Net income	<u>\$ 44.0</u>	<u>\$ 37.7</u>	<u>\$ 75.6</u>	<u>\$ 42.0</u>

As Reported

2004 (In millions)

	First	Second	Third
Total revenue	\$ 387.3	\$ 364.4	\$ 379.0
Income (loss) before income taxes	64.4	54.7	61.3
Income tax expense (benefit)	20.4	17.0	(14.3)
Net income	<u>\$ 44.0</u>	<u>\$ 37.7</u>	<u>\$ 75.6</u>

As Restated

2003 (In millions)

	First	Second*	Third*	Fourth
Total revenue	\$ 351.6	\$ 374.5	\$ 353.9	\$ 349.5
Income before income taxes	17.5	109.2	25.5	63.5
Income tax expense	5.1	35.4	0.6	20.0
Net income	<u>\$ 12.4</u>	<u>\$ 73.8</u>	<u>\$ 24.9</u>	<u>\$ 43.5</u>

As Reported

2003 (In millions)

	First	Second*	Third*	Fourth
Total revenue	\$ 359.2	\$ 381.3	\$ 354.7	\$ 368.5
Income before income taxes	17.5	109.2	25.5	63.5
